Programme for the issuance of Notes, Certificates and Warrants

This document constitutes a base prospectus (the "**Base Prospectus**" or the "**Prospectus**") according to Art. 5 (4) of the Prospectus Directive (Directive 2003/71/EC) as amended (which includes the amendments made by Directive 2010/73/EU (the "**2010 PD Amending Directive**") to the extent that such amendments have been implemented in a relevant Member State of the European Economic Area), as implemented by the relevant provisions of the EU Member States, in connection with Regulation 809/2004 of the European Commission. Under this Programme for the issuance of notes, certificates and warrants (the "**Programme**") Deutsche Bank Aktiengesellschaft (the "**Issuer**" or "**Deutsche Bank**") may from time to time issue securities ("**Securities**"). The Securities may relate to one or more shares or equity securities, indices, other securities, commodities, rates of exchange, futures contracts, fund units or shares, interest rates and/or other assets (together, the "**Underlying**" and each a "**Reference Item**"). Such issuance is carried out by the Issuer as part of its general banking business (set out in article 2(1) of the Articles of Association of the Issuer).

Application has been made to the Luxembourg Stock Exchange for Securities issued under the Programme to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange's regulated market is a regulated market for the purposes of the Markets in Financial Instruments Directive (Directive 2004/39/EC). Securities issued under the Programme may also be admitted to trading or listed on the Euro MTF exchange regulated market operated by the Luxembourg Stock Exchange, other or further stock exchange(s) or multilateral trading facility(ies) or may not be admitted to trading or listed.

This document has been approved as a base prospectus by the *Commission de Surveillance du Secteur Financier* (the "**CSSF**") in its capacity as competent authority under the Luxembourg Act dated 10 July 2005 (the "**Law**") on prospectuses for securities which implements Directive 2003/71/EC (the "**Prospectus Directive**") of the European Parliament and of the Council of 4th November 2003 into Luxembourg law. The CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Base Prospectus or the quality or solvency of the Issuer in accordance with Article 7(7) of the Law. The Issuer has also requested the CSSF to provide the competent authorities in Austria, Belgium, Denmark, Finland, France, Ireland, Italy, Norway, the Netherlands, Poland, Portugal, Spain, Sweden and the United Kingdom with a certificate of approval (a "**Notification**") attesting that this base prospectus has been drawn up in accordance with the Law. The Issuer may request the CSSF to provide competent authorities in additional Member States within the European Economic Area with a Notification.

Prospective purchasers of the Securities should ensure that they understand fully the nature of the Securities, as well as the extent of their exposure to risks associated with an investment in the Securities and should consider the suitability of an investment in the Securities in the light of their own particular financial, fiscal and other circumstances. Prospective purchasers of the Securities should refer to the "Risk Factors" section of this Base Prospectus. The Securities will represent unsubordinated, unsecured contractual obligations of the Issuer which will rank *pari passu* in all respects with each other.

The Issuer shall not be liable for or otherwise obliged to pay, and the relevant Securityholder shall be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever in connection with the

Securities. All payments made by the Issuer shall be made subject to any tax, duty, charge, withholding or other payment which may be required to be made, paid, withheld or deducted.

The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended. Any offer or sale of the Securities must be made in a transaction exempt from the registration requirements of such Act pursuant to Regulation S thereunder. The Securities may not be offered, sold or otherwise transferred in the United States or to persons who are either U.S. persons defined as such in Regulation S of such Act or persons who do not come within the definition of a non-United States person under Rule 4.7 of the United States Commodity Exchange Act, as amended. For a description of certain restrictions on the sale and transfer of the Securities, please refer to the General Selling and Transfer Restrictions section of this Base Prospectus. I. SUMMARY OF THE PROGRAMME

The information set out below is a summary only and should be read in conjunction with the rest of this Base Prospectus as a whole, including any documents incorporated herein by reference. This summary is intended to convey the essential characteristics and risks associated with the Issuer and the Securities and does not purport to be complete. It is taken from, and is qualified in its entirety by, the remainder of this Base Prospectus, including the General Conditions, which as completed and/or amended by the applicable Final Terms constitute the legally binding conditions of the Securities. Accordingly, this summary should be read as an introduction to the document, and any decision to invest in the Securities should be based on consideration of this Base Prospectus as a whole by the investor.

Following the implementation of the relevant provisions of the Prospectus Directive in each Member State of the European Economic Area no civil liability will attach to the Issuer in any such Member State in respect of this Summary, including any translation hereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of this Base Prospectus. Where a claim relating to information contained in this Base Prospectus is brought before a court in a Member State of the European Economic Area, the plaintiff may, under the national legislation of the Member State where the claim is brought, be required to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.

Words and expressions defined in the "General Conditions" below shall have the same meanings in this Summary.

RISK FACTORS

Prospective investors should understand the risks of investing in any type of Security before they make their investment decision. They should make their own independent decision to invest in any type of Security and as to whether an investment in such Security is appropriate or proper for them based upon their own judgement and upon advice from such legal, tax, accounting and other advisers as they deem necessary.

RISK FACTORS REGARDING THE ISSUER

An investment in Securities issued by Deutsche Bank AG bears the risk that Deutsche Bank AG is not able to fulfil its obligations created by the Securities on the relevant due date.

Prospective investors should consider all information provided in the Registration Document referred to in "*Documents Incorporated by Reference*" on page 48 of this Base Prospectus and consult with their own professional advisers if they consider it necessary. The following describes risk factors relating to the Issuer's ability to meet its obligations under the Securities. Ratings assigned to the Issuer by certain independent rating agencies are an indicator of the Issuer's ability to meet its obligations in a timely manner. The lower the assigned rating is on the respective scale the higher the respective rating agency assesses the risk that obligations will not be met at all or not be met in a timely manner. Deutsche Bank is rated by Standard & Poor's Credit Market Services France SAS ("**S&P**"), MIS UK, London ("**Moody's**") and by Fitch Italia S.p.A. ("**Fitch**"), together with S&P and Moody's, the "**Rating Agencies**"). Each of the Rating Agencies is established in the European Community and is registered under Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (as amended by Regulation (EU) 513/2011 of 11 May 2011) (the "**CRA Regulation**"). As such the Rating Agencies are included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with such Regulation.

As of the publication date of this Base Prospectus, the following ratings were assigned to Deutsche Bank AG:

<i>Rating Agency</i>	<i>Long-term</i>	<i>Short-term</i>	<i>Outlook</i>
----------------------	------------------	-------------------	----------------

S&P	A+	A-1	Credit Watch Negative
Moody's	Aa3	P-1	Stable
Fitch	A+	F1+	Stable

Rating agencies may change their ratings at short notice. A rating's change may affect the price of securities outstanding.

A rating is not a recommendation to buy, sell, or hold notes, and may be subject to suspension, downgrading, or withdrawal at short notice and at any time by the rating agency. Any such suspension, downgrading, or withdrawal of a rating may have a negative effect on the market price of the Securities.

Deutsche Bank's financial strength, which is also reflected in its ratings described above, depends in particular on its profitability. The following describes factors which may adversely affect Deutsche Bank's profitability:

- Deutsche Bank has been and may continue to be affected by the ongoing global financial crisis and economic downturn.
- Market declines and volatility can materially and adversely affect Deutsche Bank's revenues and profits.
- Deutsche Bank has incurred and may in the future incur significant losses from its trading and investment activities due to market fluctuations.
- Protracted market declines have reduced and may in the future reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses.
- Deutsche Bank has incurred losses, and may incur further losses, as a result of changes in the fair value of its financial instruments.
- Adverse economic conditions have caused and may in the future cause Deutsche Bank to incur higher credit losses.
- Even where losses are for Deutsche Bank's clients' accounts, they may fail to repay Deutsche Bank, leading to material losses for Deutsche Bank, and its reputation can be harmed.
- Deutsche Bank investment banking revenues may decline as a result of adverse market or economic conditions.
- Deutsche Bank may generate lower revenues from brokerage and other commission- and fee-based businesses.
- The risk management policies, procedures and methods leave Deutsche Bank exposed to unidentified or unanticipated risks, which could lead to material losses.
- Deutsche Bank's non-traditional credit businesses materially add to its traditional banking credit risks.
- Deutsche Bank has been subject to contractual claims and litigation in respect of our U.S. residential mortgage loan business that may materially and adversely affect its results.
- Deutsche Bank has a continuous demand for liquidity to fund its business activities. It may suffer during periods of market-wide or firm-specific liquidity constraints and is exposed to the risk that liquidity is not made available to it even if its underlying business remains strong.

- Deutsche Bank requires capital to support its business activities and meet regulatory requirements. Losses could diminish Deutsche Bank's capital, and market conditions may prevent Deutsche Bank from raising additional capital or increase its cost of capital.
- Deutsche Bank operates in an increasingly regulated and litigious environment, potentially exposing it to liability and other costs, the amounts of which may be difficult to estimate.
- Regulatory reforms enacted and proposed in response to the financial crisis may significantly affect Deutsche Bank's business model and the competitive environment.
- Operational risks may disrupt Deutsche Bank's businesses.
- The size of Deutsche Bank's clearing operations exposes it to a heightened risk of material losses should these operations fail to function properly.
- If Deutsche Bank is unable to implement its strategic initiatives, Deutsche Bank may be unable to achieve its pre-tax profit targets and other financial objects, or incur losses or low profitability.
- Deutsche Bank may have difficulty in identifying and executing acquisitions, and both making acquisitions and avoiding them could materially harm Deutsche Bank's results of operations.
- The effects of the execution of the takeover offer and the subsequent consolidation of the Deutsche Postbank AG may differ materially from Deutsche Bank's expectations.
- Postbank reported a loss before tax in each of 2009 and 2008, and although it reported a net profit before tax in 2010, this does not indicate that it will be profitable in any future periods.
- The consolidation of Postbank had a material adverse effect on Deutsche Bank's regulatory capital ratios, and Deutsche Bank's assumptions and estimates concerning the effects of the consolidation on its regulatory capital ratios may prove to be too optimistic.
- Deutsche Bank's takeover of Postbank generated a significant combined amount of goodwill and other intangible assets that must be tested for impairment periodically and at other times.
- Deutsche Bank may have difficulties selling noncore assets at favorable prices, or at all.
- Events at companies in which Deutsche Bank has invested may make it harder to sell its holdings and result in material losses irrespective of market developments.
- Intense competition, in Deutsche Bank's home market of Germany as well as in international markets, could materially adversely impact its revenues and profitability.
- Transactions with counterparties in countries designated by the U.S. State Department as state sponsors of terrorism may lead potential customers and investors to avoid doing business with Deutsche Bank or investing in its securities.

RISKS FACTORS REGARDING THE SECURITIES

An investment in the Securities involves risks. These risks may include, among others, equity market, bond market, foreign exchange, interest rate, commodities, market volatility and economic, political and regulatory risks and any combination of these and other risks. Prospective purchasers should be experienced with respect to transactions in instruments such as the Securities and in the one or more underlying asset(s), reference item(s) or other bases of reference for the Securities (the "**Underlying**" and each such constituent a "**Reference Item**"). Prospective purchasers should understand the risks associated with an investment in

the Securities and should only reach an investment decision after careful consideration, with their legal, tax, accounting and other advisers, of (a) the suitability of an investment in the Securities in the light of their own particular financial, tax and other circumstances, (b) the information set out in this Base Prospectus and (c) the Underlying.

The Securities may decline in value and investors should be prepared to sustain a partial or total loss of their investment in the Securities. No assurance or representation is made that an investment in Securities will offer any greater return than other comparable or alternative investments which may be available at the time an investor acquires a Security.

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Underlying, and/or in the composition or method of calculation of the Underlying. The return of any investment in the Securities will be dependent, *inter alia*, upon such changes. More than one risk factor may have simultaneous effect with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Securities.

Securities may not be a suitable investment for all investors

The Securities may not be a suitable investment for all investors. Each potential investor in the Securities must determine the suitability of that investment in light of its own circumstances. Investors should consider in particular whether the Securities are appropriate in light of their overall investment portfolio and taking into account their exposure to each relevant asset class.

Securities linked to the Underlying

Amounts payable or assets deliverable periodically and/or on exercise or redemption of the Securities are linked to the Underlying which may comprise one or more Reference Items.

The purchase of, or investment in, Securities linked to the Underlying involves substantial risks. The Securities are not conventional securities and carry various unique investment risks which prospective investors should understand clearly before investing in the Securities. Each prospective investor in the Securities should be familiar with securities having characteristics similar to such Securities and should fully review all documentation for and understand the General Conditions of the Securities and the nature and extent of its exposure to risk of loss.

Nature of the Underlying and Reference Items:

The amounts payable or assets deliverable on redemption or exercise or periodically under the Securities may be linked to one or more Reference Items. These Securities will derive some or all of their value by reference to the Reference Item(s). A Reference Item can be any one or more of the following items:

- (i) a share or a basket of shares; or
- (ii) an index or a basket of indices; or
- (iii) any other security or basket of other securities.
- (iv) a commodity or a basket of commodities; or
- (v) a rate of exchange or basket of rates of exchange; or
- (vi) a futures contract or a basket of futures contracts; or
- (vii) a fund share or unit or a basket of fund shares or units; or

- (viii) an interest rate of a basket of interest rates; or
- (ix) some other asset or basis of reference or basket thereof; or
- (x) a combination of any of the foregoing Reference Items.

Payments or deliveries in respect of the Securities will be made on such terms as specified in the applicable Final Terms. The nature of Reference Items may vary widely and investors should conduct such investigations as they determine appropriate in relation to each Reference Item.

Valuation

The relevant price or value of a Reference Item may be observed continuously during the life of the Securities or over certain periods or on one or more valuation dates. It should be noted, however, that the relevant time for valuation may be delayed in the case of a relevant market disruption.

Any positive performance of a Reference Item may have no effect on the Securities if such performance is not taken into account at a relevant valuation time. Where the Underlying comprises more than one Reference Item then the positive performance of one or more Reference Items may be outweighed by any under performance of other Reference Item(s). Historical prices of Reference Items may be no indication of their future performance which may be influenced by a wide range of factors.

Investors should review the relevant price or value which is to be observed for each Reference Item. These may refer to published prices or values on an exchange or quotation system or other market measures. It should be noted that market data may not always be transparent or accurate and to a large extent may reflect investor sentiment at the relevant time. No assurance or representation is given that any such price or value will accurately reflect any intrinsic value of the relevant Underlying.

Securities where relevant amounts payable or assets deliverable are calculated by reference to a formula

Where an issue of Securities references a formula in the applicable Final Terms as the basis upon which the amounts payable and/or assets deliverable are calculated, potential investors should ensure that they understand the relevant formula and if necessary seek advice from their own adviser(s).

No Claim against the Underlying or any Reference Item

While an investment in the Securities may bear similar market risk to a direct investment in the relevant Underlying, a Security will not represent a claim against the Underlying or any Reference Item. A Securityholder will therefore not have recourse under a Security to any Reference Item or any right to receive a Reference Item, except where the Reference Item is a deliverable asset (and only then at the relevant delivery time).

Leverage

Where the amounts payable and/or assets deliverable on exercise or redemption of Securities or periodically may be determined by reference to a ratio greater than one, prospective investors should note that the effect of changes in the price or level of the Reference Item(s) will be magnified.

Short exposure

In some cases Securities may offer a "short" exposure meaning that the economic value of Securities will increase only where the relevant

price or value of the Reference Item(s) falls. Where the price or value of the Reference Items rises, the value of the Securities may fall.

Debt securities issued at a substantial discount or premium

The market value of Securities issued at a substantial discount or premium tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing Securities without such discount or premium.

Early Termination

Certain Securities may include a provision that at the option of the Issuer or otherwise where certain conditions are satisfied (e.g. "knock-out" or "auto call" provision) the Securities may become subject to early redemption or cancellation. Such Securities may have a lower market value than similar Securities which do not contain any such option. During any period where the Securities may be redeemed or cancelled in this way the market value of those Securities generally will not rise substantially above the price at which they may be redeemed or cancelled.

Book-Entry Securities which are admitted to trading on any of the Spanish regulated markets will be issued as *anotaciones en cuenta* and registered with *Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A., Unipersonal ("Iberclear")* as managing entity of the central registry. Such Book-Entry Securities will be constituted as such by virtue of their entry in the corresponding accounting book of Iberclear.

An investor will need to be able to hold the Securities (directly or through an intermediary). Securities may only be held directly through the relevant Clearing Agent or, in the case of Portuguese Securities, an authorised financial intermediary entitled to hold securities control accounts with Interbolsa on behalf of their customers (an "**Affiliate Member of Interbolsa**", which includes any custodian banks appointed by Euroclear Bank S.A./N.V. and Clearstream Banking, société anonyme for the purpose of holding accounts on behalf of Euroclear Bank S.A./N.V. and Clearstream Banking, société anonyme). Where Securities are held indirectly, an investor will depend on the relevant intermediary(ies) through which it holds the Securities for receipt of payments, notices and for all other purposes in connection to the Securities. In case of physically settled Securities an investor will need to be able to hold (directly or through an intermediary) the relevant assets deliverable on settlement of the Securities.

Status of Securities:

The Securities will constitute direct, unsecured and unsubordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated obligations of the Issuer except for any obligations preferred by law.

Issue Price and Offer Price:

Securities may be issued at an issue price which is at par or at a discount to, or premium over, par. The Offer Price may differ from the Issue Price and, following the Issue Date, may be reset continuously.

Exercise and Redemption:

Subject to any laws and regulations applicable from time to time, the relevant Final Terms will specify the basis for calculating the amounts payable and/or the assets deliverable.

The Final Terms will also specify the conditions and relevant time(s) or date(s) under and on which the Securities may be exercised or redeemed at the option of the Securityholders or the Issuer.

The obligation of the Issuer to pay cash amounts or deliver assets, as the case may be, arises when the Securities are duly exercised (in respect of Certificates and Warrants) or redeemed (in the case of Notes). Portuguese Securities will be subject to cash-settlement only.

Coupons:

Coupon amounts are payable in respect of the Securities if so specified in the Final Terms.

Adjustment/Termination:

The Issuer (or the Calculation Agent in the case of Spanish Securities) is entitled to make adjustments to the Conditions following the occurrence of an Adjustment Event which includes, without limitation, any event which materially affects the theoretical economic value of a Reference Item or any event which materially disrupts the economic

link between the value of the Reference Item and the Securities subsisting immediately prior to the occurrence of such event.

On the occurrence of an Adjustment/Termination Event, the Issuer (or the Calculation Agent in the case of the Spanish Securities) is also entitled to make adjustment to the Conditions, determine that the Securities will be terminated and cancelled, or in certain cases, substitute the relevant Reference Item affected by such Adjustment/Termination Event. An Adjustment/Termination Event includes, without limitation, an event which materially affects the method by which the Calculation Agent determines the level or price of any Reference Item or the ability of the Calculation Agent to determine the level or price of any Reference Item or hedging arrangements of the Issuer. Such hedging arrangements may include a direct or indirect holding of or a contractual arrangement relating to the Underlying and may involve the Issuer and any of its affiliates or agents.

An Adjustment Event or Adjustment/Termination Event may materially affect the cost to the Issuer of maintaining the Securities or its hedging arrangements in a way which has not been factored into the issue price of the Securities. This may therefore require adjustments or a termination of the Securities in these circumstances. **This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.**

Taxation:

The Issuer shall not be liable for or otherwise obliged to pay, and the relevant Securityholder shall be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever which may arise as a result of, or in connection with, the ownership, any transfer, presentation and surrender for payment, or enforcement of the Securities and all payments made by the Issuer shall be made subject to any tax, duty charge, withholding or other payment which may be required to be made, paid, withheld or deducted.

Portuguese Withholding Tax Exemption for Notes:

The general exemption from Portuguese Withholding Tax applicable to debt instruments (which is chargeable at a rate of 25 per cent.) is only available to holders of Notes who meet the following two requirements simultaneously: (i) are not resident in Portugal or in a blacklisted jurisdiction (as set out in Ministerial Order 150/2004 of 13 February 2004, as amended) and (ii) are not held directly or indirectly in more than 20 per cent. by Portuguese residents. To benefit from this exemption, holders residing in jurisdictions to which such general exemption applies must comply from time to time with the applicable certification procedures described in Decree-Law 193/2005 of 13 November 2005 as amended (please refer to Portuguese Taxation section below). The exemption available under this Decree-Law 193/2005 of 13 November 2005 does not apply to Warrants or Certificates.

Spanish Withholding Tax Exemption for Spanish Securities:

The exemption from Spanish Withholding Tax applicable to Spanish Securities (which is generally chargeable at a rate of 21 per cent.) is only available to: (A) holders of Notes and Certificates who are Corporate Income Taxpayers or Non-Residents' Income Taxpayers acting through a Spanish permanent establishment and holding instruments that are either: (i) admitted to trading on an organised stock exchange in an OECD state provided that the Securities are

placed in an OECD State other than Spain (as described in the Taxation Section) or (ii) represented in book-entry form and admitted to trading on a Spanish secondary stock exchange; (B) holders of Notes who are Personal Income Taxpayers, in respect of any income arising from the transfer or repayment of the Notes, where the relevant Notes: (i) are represented in book-entry form, (ii) are admitted to trading on a Spanish secondary stock exchange and (iii) generate explicit yield (although, under certain circumstances, this withholding tax exemption may not apply); (C) holders of Notes and Certificates who are Non-Spanish tax resident investors, acting without a permanent establishment in Spain, who are either: (i) resident for tax purposes in a Member State of the European Union (other than Spain and excluding any country or territory regarded as a tax haven pursuant to Royal Decree 1080/1991, of 5 July) and provided further that said resident complies with certain formalities, or (ii) resident in a jurisdiction which has ratified a Treaty for the avoidance of Double Taxation with Spain containing an exchange of information clause, in respect of the income arising from any transfer of the Notes and Certificates through a Spanish official secondary stock exchange; and (D) holders of Warrants.

Negative Pledge:

The terms of the Securities will not contain a negative pledge provision, i.e. the terms of the Securities will not include a restriction on the Issuer granting any security over its assets to a third party.

Events of Default:

The terms of the Securities will contain, amongst others, the following events of default:

- (a) failure to pay any amount due in respect of the Securities, continuing for a specified period of time;
- (b) non-performance or non-observance by the Issuer of any of its other obligations under the Securities continuing for a specified period time; and
- (c) events relating to the insolvency or winding up of the Issuer.

Cross Default:

The terms of the Securities will not contain a cross default provision, i.e. the terms of the Securities will not include a provision that puts the Issuer in default under the Securities if it defaults on an obligation under a separate agreement.

Use of Proceeds:

The net proceeds from each issue of Securities will be applied by the Issuer for its general corporate purposes unless otherwise stated in the applicable Final Terms.

Governing Law:

The Securities will be governed by, and construed in accordance with, German law, English law, Italian law, Portuguese law or Spanish law, as specified in the applicable Final Terms. The constituting of the Securities may be governed by the laws of the jurisdiction of the Clearing Agent.

Secondary Market:

If any secondary market for the Securities exists then the price at which Securities may be realised at any time may also be influenced by the perceived price or value of the relevant Underlying at that time or at future times. In addition, a wide range of other factors may affect any

secondary market price. Where no secondary market exists an investor may be unable to realise its investment in the Security until final payment or delivery under the Securities has been made. Accordingly an investor should be prepared to hold the Securities until such time.

Even where an investor is able to realise its investment in the Securities this may be at a substantially reduced value to its original investment in the Securities. In the case of certain Securities, such as warrants, the realisation value at any time may be zero. Investors should also note that in the case of physically settled warrants it will be necessary to pay a further strike price prior to receiving delivery of the relevant assets on settlement of the Warrants.

Selling Restrictions:

There are restrictions on the offer, sale and transfer of the Securities in the United States, the European Economic Area (including the United Kingdom, Germany, Italy, Portugal and Spain) and other restrictions may apply in connection with the offering and sale of a particular issue of Securities.

II. RISK FACTORS

A. RISK FACTORS IN RESPECT OF THE ISSUER

An investment in securities, including notes, certificates and warrants under the Programme issued by Deutsche Bank bears the risk that Deutsche Bank is not able to fulfil its obligations created by the securities on the relevant due date. If this happens investors may lose some or all of their investment in the Securities. If a bankruptcy proceeding is commenced in respect to the Issuer, the return to an investor in the Securities may be limited and any recovery will likely be substantially delayed.

In order to assess the risk, prospective investors should consider all information provided in this Base Prospectus, including, but not limited to, the section entitled "*Risk Factors*" provided in the Registration Document referred to in "*Documents Incorporated by Reference*" on page 48 of this Base Prospectus. Prospective investors should consult with their own legal, tax, accounting and other advisers if they consider it necessary.

Even where the Issuer meets its obligations in full, the value of the Securities is expected to be affected, in part, by investors' general appraisal of the Issuer's credit-worthiness. Any deterioration of the credit-worthiness of the Issuer during the term of the Securities may result in increasing refinancing costs for the Issuer and thus the value of the Securities may decrease. However, any improvement of the credit-worthiness of the Issuer during the term of the Securities may not increase the value of the Securities. The risk related to an issuer's ability to fulfil its obligations created by the issuance of securities may be described by reference to the credit ratings assigned by independent rating agencies. A credit rating is an assessment of the solvency or credit-worthiness of debtors and/or bond-issuers according to established credit review procedures. These ratings and associated research help investors analyse the credit risks associated with fixed-income securities by providing detailed information of the ability of issuers to meet their obligations. The lower the assigned rating is on the respective scale, the higher the respective rating agency assesses the risk that obligations will not be met in full or on time. **A rating is not a recommendation to buy, sell or hold any Securities issued and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. A suspension, reduction or withdrawal of any rating assigned may adversely affect the market price of the Securities issued.**

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as they case may be, has not been withdrawn or suspended). Certain information with respect to the credit rating agencies and ratings referred to in this Base Prospectus is set out below. Deutsche Bank is rated by Standard & Poor's Credit Market Services France ("**S&P**"), MIS UK, London ("**Moody's**") and by Fitch Italia S.p.A. ("**Fitch**", together with S&P and Moody's, the "**Ratings Agencies**"). Each of the Rating Agencies is established in the European Community and is registered under the CRA Regulation. As such the Rating Agencies are included in the list of credit rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website in accordance with such Regulation. The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays

between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

As of the publication date of this Base Prospectus, the ratings assigned by the Rating Agencies to debt securities and money market instruments of Deutsche Bank were as follows:

by S&P:	long-term rating:	A+
	short-term rating:	A-1
	outlook:	Credit Watch negative

S&P defines:

A: An obligation rated "A" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

Long-term ratings by S&P are divided into several categories ranging from "AAA", reflecting the strongest creditworthiness, over categories "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C" to category "D", reflecting that an obligation is in payment default. The ratings from "AA" to "CCC" may be modified by the addition of a plus ("+") or minus ("-") sign to show relative standing within the major rating categories.

A-1: A short-term obligation rated "A-1" is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign ("+"). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

Short-term ratings by S&P are divided into several categories ranging from "A-1", reflecting the strongest creditworthiness, over categories "A-2", "A-3", "B", "C" to category "D" reflecting that an obligation is in payment default.

by Moody's:	long-term rating:	Aa3
	short-term rating:	P-1
	outlook:	Stable

Moody's defines:

Aa3: Obligations rated "Aa" are judged to be of high quality and are subject to very low credit risk.

Moody's long-term obligation ratings are divided into several categories ranging from "Aaa", reflecting the highest quality with minimal credit risk, over categories "Aa", "A", "Baa", "Ba", "B", "Caa", "Ca" to category "C", reflecting the lowest rated class of bonds which are typically in default with little prospect for recovery of principal or interest. Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from "Aa" through "Caa". The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

P-1: Issuers rated Prime-1 have a superior ability to repay short-term debt obligations.

Moody's short-term ratings are divided into several categories ranging from "P-1", reflecting a superior ability of an Issuer to repay short-term debt obligations, over categories "P-2" and "P-3" to category "NP", reflecting that an Issuer does not fall within any of the Prime rating categories.

by Fitch:	long-term rating:	A+
	short-term rating:	F1+
	outlook:	Stable

Fitch defines:

A+: A rating of "A" denotes expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

Fitch's long-term ratings are divided into several major categories ranging from "AAA", reflecting the highest credit quality, over categories "AA", "A", "BBB", "BB", "B", "CCC, CC, C" to category "DDD, DD, D", reflecting that an obligor has defaulted on some or all of its obligations. A plus ("+") or minus ("-") sign may be appended to a rating to denote the relative status within major rating categories. Such suffixes are not added to the "AAA" category or to categories below "CCC".

F1+: A rating of "F1" indicates the strongest capacity for timely payment of financial commitments. It may have an added plus ("+") sign to denote any exceptionally strong credit feature.

Fitch's short-term ratings are divided into several categories ranging from "F1", reflecting the highest credit quality, over categories "F2", "F3", "B", "C" to category "D" which denotes an actual or imminent payment default.

B. RISK FACTORS IN RESPECT OF THE SECURITIES

1. Introduction

The paragraphs below describe various risk factors associated with an investment in the Securities. No investment should be made in the Securities until after careful consideration of all those factors which are relevant in relation to the Securities. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Securities, but does not represent that the statements below regarding risks of holding the Securities are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and the applicable Final Terms and reach their own views prior to making any investment decision.

Prospective investors should also consider carefully the assets, reference items or other reference bases (referred to as the **Underlying** and each such item as a **Reference Item**) to which the Securities are linked. These are specified in the relevant Final Terms and, as the case may be, the section "Information relating to the Underlying" set out in Part B of the applicable Final Terms and investors should consider further information which is available in relation to the Underlying.

This document is not, and does not purport to be, investment advice.

An investment in the Securities involves risks. These risks may include, among others, equity market, bond market, foreign exchange, interest rate, commodities, market volatility and economic, political and regulatory risks and any combination of these and other risks. Some of these are briefly discussed below. Prospective purchasers should be experienced with respect to transactions in instruments such as the Securities and in the Underlying. Prospective purchasers should understand the risks associated with an investment in the Securities and should only reach an investment decision after careful consideration, with their legal, tax, accounting and other advisers, of (a) the suitability of an investment in the Securities in the light of their own particular financial, tax and other circumstances, (b) the information set out in this Base Prospectus and (c) the Underlying. Investors should consider in particular whether the Securities are appropriate in light of their overall investment portfolio and taking into account their exposure to each relevant asset class. Accordingly investors should consider carefully their own particular circumstances to determine whether an investment in the Securities is appropriate for them.

The Securities may decline in value and investors should note that, whatever their investment in the Securities, the cash amount or value of assets due at maturity or on exercise or periodically will only be equal to the specified minimum cash amount or asset amount, if any. Where no minimum cash amount or asset amount is specified investors may experience a total loss of their investment in the Security.

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Underlying, and/or in the composition or method of calculation of the Reference Items. This is because the return of any such investment will be dependent, among other things, upon such changes. More than one risk factor may have simultaneous effect with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Securities and no assurance is given that an investment in Securities will offer any greater return than other comparable or alternative investments which may be available at the time an investor acquires a Security.

Additional Risk Factors are set out under the headings "C. Risk Factors related to Securities Generally" and "D. Risk Factors relating to the Market Generally". In addition prospective investors should also review section "E. Conflicts of Interest".

2. Risk factors relating to certain features of the Securities

2.1 *Securities where amounts payable or assets deliverable are calculated by reference to a formula*

An issue of Securities may reference a formula in the applicable Final Terms as the basis upon which the interest payable and/or the amounts payable and/or assets deliverable (on redemption or settlement or periodically) is calculated. Potential investors should ensure that they understand the relevant formula and if necessary seek advice from their own adviser(s).

In addition the effects of the formula may be complex with respect to expected amounts of interest and/or amounts payable and/or assets deliverable on redemption or settlement or periodically and in certain circumstances may result in increases or decreases in these amounts.

In some cases Securities may offer a "short" exposure meaning that the economic value of Securities will increase only where the relevant price or value of the Reference Item(s) falls. Where the price or value of the Reference Item(s) rises, the value of the Securities may fall.

2.2 *Leverage*

Where the amount of interest payable and/or amounts payable and/or assets deliverable on redemption or settlement of Securities or periodically may be determined by reference to a ratio greater than one, prospective investors should note that the effect of changes in the price or level of the amount(s) payable or assets deliverable will be magnified. While leverage may offer the opportunity for greater investment gain, this may mean that any investment loss is greater than it would be otherwise.

2.3 *Debt securities issued at a substantial discount or premium*

The market value of debt securities issued at a substantial discount or premium tend to fluctuate more due to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

2.4 *Securities subject to optional redemption by the Issuer*

Securities which include a redemption option by the Issuer or which may be terminated on the occurrence of certain events are likely to have a lower market value than similar securities which do not contain an Issuer redemption option. An optional redemption feature or termination feature of the Securities is likely to limit their market value. During any period when the Issuer may elect to redeem the Securities or such termination may occur, the market value of those Securities generally will not rise substantially above the price at which they may be redeemed or terminated. This may also be the case prior to any redemption or termination period.

The Issuer may be expected to redeem Securities when its cost of borrowing is lower than the interest rate on the Securities or otherwise when its cost of keeping Securities outstanding is high. At those times, an investor generally would not be able to reinvest the optional redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

The applicable Final Terms will indicate whether the Issuer has the right to redeem the Securities prior to maturity or final settlement.

2.5 *Option Risk relating to Certificates and Warrants*

Certificates and Warrants are derivative financial instruments which may include an option right and which, therefore, may have many characteristics in common with options. Transactions in options may involve a high level of risk. An investor who intends to trade in Certificates or Warrants including options must therefore first of all understand the functioning of the types of options involved (for example, call options and put options). An investment in Certificates or

Warrants including options may constitute a highly volatile investment and there is a possibility that the option may have no value whatsoever at expiration. In such case, the investor may lose the entire amount invested in the Certificates or Warrants.

The payment due under a Certificate or Warrant on exercise or early termination will depend on the value of the Underlying at the relevant time. This means that the performance of a Certificate or Warrant which includes an option is affected by the performance of the relevant option. If the value of the option decreases, the value of the Certificate or Warrant may also decrease as a result. Similarly, the value of the Certificate or Warrant may increase if the value of the option increases.

2.6 Securities that are subject to the legal, regulatory and taxation regimes of the jurisdiction of the issuing branch and which limit the place for performance of obligations

Securities may be issued under the Programme by Deutsche Bank AG acting through its branches in Italy, Portugal or Spain. Where such Securities are governed by the laws of that relevant jurisdiction and provide that all obligations under the Securities are to be performed in that jurisdiction, investors should be aware that:

- (i) the Securities will be subject to the legal, regulatory and taxation regimes of that jurisdiction. This may result in the Securities being subject to specific requirements or restrictions which may not be imposed on similar Securities which are subject to different legal, regulatory or taxation regimes.
- (ii) subject to the application of any relevant laws, investors will not be able to seek performance of any such obligations in any other jurisdiction and in the event that any obligations could not be performed in the specified jurisdiction (as a result of a change in law, regulation, by administrative decision, force majeure or otherwise), an investor could not seek performance of such obligations in an alternative jurisdiction.

A prospective investor should be aware of the risk of being subject to the relevant legal, regulatory and taxation regimes and that in certain circumstances the application of such regimes could result in that investor receiving a lower return (or no return at all) under the Securities.

3. Risk factors relating to the Underlying

The Reference Items comprised in the Underlying for the Securities may be one or more of shares, indices, other securities, a commodity, a rate of exchange, a futures contract, a fund share or an interest rate or such other reference item or other basis of reference as is specified in the applicable Final Terms. The Securities may relate to one or more of these Reference Items or a combination of them.

Some or all of the amounts payable or assets deliverable on exercise, redemption or periodically under the Securities will be determined by reference to the price or value of these Reference Items as set out in the applicable Final Terms. Accordingly, investors should review carefully the applicable Final Terms in order to understand the effect on the Securities of such linkage to the Underlying and the Reference Items.

The purchase of, or investment in, Securities linked to Reference Item(s) involves substantial risks. These Securities are not conventional securities and carry various unique investment risks which prospective investors should understand clearly before investing in the Securities. Each prospective investor in such Securities should be familiar with securities having characteristics similar to such Securities and should fully review all documentation for and understand the General Conditions of the Securities, the applicable Final Terms and the nature and extent of its exposure to risk of loss.

The Issuer may issue Securities where the amount of interest or other amounts payable or the amount of assets deliverable is dependent upon:

- (a) the price or changes in the price of, one or more equity securities;
- (b) the level or changes in the level of one or more indices;
- (c) the price or changes in the price of one or more other securities;
- (d) the price or changes in the price of one or more commodities;
- (e) movements in currency exchange rates;
- (f) one or more futures contracts;
- (g) the price or changes in the price of units or shares in one or more funds;
- (h) the level or changes in the level of one or more interest rates; or
- (i) other underlying assets or bases of reference.

Prospective investors in any such Securities should be aware that depending on the terms of such Securities (i) they may receive no amount or a limited amount of interest or other amounts and/or deliverable assets, (ii) payment of interest or other amounts and/or assets delivered may occur at different times than expected or in a different currency than expected and (iii) they may lose all or a substantial portion of their investment upon redemption or settlement.

In addition, the movements in:

- (a) the price of the relevant equity securities;
- (b) the level of the relevant index or indices;
- (c) the price of the relevant other securities;
- (d) the price of the relevant commodity or commodities;
- (e) relevant currency exchange rates;
- (f) the price of the relevant futures contract(s);
- (g) the price of the relevant units or shares in one or more funds;
- (h) the level of the relevant interest rate or interest rates; or
- (i) the movement in the level of any other underlying asset or basis of reference comprising the Underlying,

may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other economic factors or indices and the timing of changes in the relevant price or level of the Reference Item may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or level of the Reference Item, the greater the effect on yield.

If the amount of interest or other amounts payable and/or assets deliverable is determined by reference to a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price or level of the Underlying or Reference Item will be magnified.

The market price of Securities may be volatile and may be affected by:

- (a) the time remaining to the redemption or settlement date;
- (b) the volatility of the Reference Item or other underlying asset or basis of reference;
- (c) the dividend rate (if any) and the financial results and prospects of the issuer(s) of the securities comprising or relating to a Reference Item (which may include equity securities, index constituent securities or other securities);
- (d) movements in commodity markets where the Underlying comprises a Commodity;

- (e) movements in exchange rates and the volatility of currency exchange rates where the Underlying comprises a Rate of Exchange;
- (f) the volatility of the price of units or shares in the fund or funds where the Underlying comprises a Fund Share; or
- (g) the movements in interest rates where the Underlying comprises an Interest Rate,

as well as economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any such other securities, commodities, fund units or shares may be traded.

Investors in Securities that are Warrants or Certificates and are specified to be Portuguese Securities should note that, in accordance with Portuguese Decree-Law 172/99 of 22 May 1999 (as amended) and the Portuguese Securities Market Commission (*Comissão do Mercado de Valores Mobiliários*, or the "**CMVM**") Regulation 5/2004 (as amended), the amounts of any payments or deliveries made in respect of such Securities may only be linked to the following Underlyings: (i) securities admitted to trading in regulated markets or markets with equivalent characteristics (including, without limitation, as to disclosure of information and the frequency of publication and availability of prices); (ii) units or shares in Portuguese undertakings for collective investment, provided that a liquid market for the units or shares and, in the case of foreign undertakings, equivalent rules as to supervision by the home country, investment policy and leverage is assured; (iii) interest rates; (iv) currencies; (v) securities indices, indices of indices and baskets of securities set up by the Issuer or an entity belonging to the Deutsche Bank Group, (provided that: (a) the securities comprising such indices or baskets comply with the requirements (i) and (ii) above and (b) the indices are calculated by a management company of regulated markets or disclosed by a reputable entity acceptable to the CMVM or other foreign competent authority); (vi) commodities futures traded in regulated markets or markets with equivalent characteristics (including, without limitation, as to disclosure of information and the frequency of publication and availability of prices); (vii) commodities that are homogeneous and regularly traded on a market and in respect of which prices are publicly available; (viii) commodities indices (provided that (a) the relevant commodities are homogeneous and regularly traded on a market and are commodities in respect of prices are publicly available and (b) the indices are calculated by a regulated markets management entity or disclosed by a reputable entity acceptable by CMVM or other foreign competent authority).

3.1 Risks associated with Shares or other equity securities as a Reference Item

Equity linked Securities may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value of one or more equity securities (which may include American depositary receipts or global depositary receipts) and/or by the physical delivery of a given number of specified assets and/or payment of the nominal amount and interest determined by reference to the value of one or more equity securities. Accordingly, an investment in equity linked Securities may bear similar market risks to a direct equity investment and prospective investors should take advice accordingly.

Securities may be subject to adjustments or early termination under §6 of the General Conditions in the event of certain corporate actions or events occurring in respect of the issuer(s) of the equity security(ies).

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

3.2 Risks associated with indices as a Reference Item

Index linked Securities may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value of one or more indices or payment of the nominal amount

and interest calculated by reference to the value of one or more indices or in certain cases by physical delivery of certain assets. Accordingly, an investment in index linked Securities may bear similar market risks to a direct investment in the components of the Index comprising such index or indices and prospective investors should take advice accordingly.

Index linked Securities may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to an index. These may include:

- (a) a failure to calculate and announce the relevant index by the index sponsor;
- (b) a material modification in the way that the relevant index is calculated from that originally intended; or
- (c) a permanent cancellation of the relevant index with no successor index.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below. In addition, where the Securities are linked to one or more Deutsche Bank proprietary indices, investors should review the relevant risk factors section set out in each relevant index description.

3.3 Risks associated with Other Securities as a Reference Item

Securities linked to Other Securities may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value of one or more Other Securities and/or by the physical delivery of a given number of specified assets and/or payment of the nominal amount and interest determined by reference to the value of one or more Other Securities. Accordingly, an investment in Securities linked to Other Securities may bear similar market risks to a direct investment in the relevant Other Securities and prospective investors should take advice accordingly.

Securities linked to Other Securities may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Other Securities or the issuer(s) of the Other Securities.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.4 Risks associated with Commodities as a Reference Item

Securities linked to Commodities may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value of one or more Commodities (or traded contracts relating to commodities) and/or in certain cases by physical settlement. Accordingly, an investment in Securities linked to Commodities may bear similar market risks to a direct investment in the relevant Commodities and prospective investors should take advice accordingly and be familiar with commodities as an asset class as well as the relevant traded contract type and any exchange(s) or quotation system(s) for such contract.

Securities linked to Commodities may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Commodities or the exchange or contract obligors in relation to the relevant commodities contracts.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.5 Risks associated with Rates of Exchange as a Reference Item

Securities linked to Rates of Exchange may be redeemed or settled by the Issuer by payment of an amount determined by reference to the rate of exchange between one or more currencies and/or in certain cases by physical settlement. Accordingly, an investment in Securities linked to Rates of Exchange may bear similar market risks to a direct investment in the relevant underlying currency(ies) and prospective investors should take advice accordingly and be familiar with foreign exchange as an asset class. The above risk may be increased if the relevant underlying currency is the currency of an emerging market jurisdiction.

Securities linked to Rates of Exchange may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Rates of Exchange.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.6 Risks associated with Futures Contracts as a Reference Item

Securities linked to Futures Contracts may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value of one or more Futures Contracts and/or in certain cases by physical settlement. Accordingly, an investment in Securities linked to Futures Contracts may bear similar market risks to a direct investment in the relevant Futures Contracts and prospective investors should take advice accordingly and be familiar with the relevant futures contract type and exchange(s) or quotation system(s) for such futures contract as well as the asset class to which the Futures Contracts relate.

Securities linked to Futures Contracts may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Futures Contracts or the issuer(s) or obligor(s) or the exchange(s) or quotation system(s) for the relevant Futures Contracts.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.7 Other risks associated with Commodities as a Reference Item

The yield on Securities linked to Commodities may not perfectly correlate to the trend in the price of the Commodities as the use of future commodity contracts generally involves a rolling mechanism. This means that the commodity futures contracts which expire prior to the relevant payment date under the relevant Securities are replaced with future commodity contracts that have a later expiry date. Any rise/fall in prices on such Commodities may not be fully reflected in any payment under the relevant Securities.

Moreover, investors in Securities linked to Commodities should note that prices of commodity futures contracts may have a trend which differs significantly from that of the commodity spot markets. The trend in the price of a commodity futures contract is closely linked to the present and future level of the production of the relevant Commodity or to the level of estimated natural reserves, particularly in the case of energy commodities. In addition, the prices of commodity futures contracts may not be considered an accurate prediction of a market price, since they include the so-called "carrying costs" (for example, warehouse costs, insurance and transportation etc.) which are taken into account in the determination of the prices of commodity futures contracts. As such, investors in Securities linked to Commodities should note that any return on their investment may not fully reflect the performance of the commodity spot markets as a result of the discrepancy between the prices of commodity futures contracts and the prices of commodity spot markets.

3.8 Risks associated with Fund Shares as a Reference Item

Securities linked to Fund Shares may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value (or net asset value) of one or more shares or units in one or more funds and/or by the physical delivery of a given number of specified assets and/or payment of the nominal amount and interest determined by reference to the value of one or more Fund Shares. Accordingly, an investment in Securities linked to Fund Shares may bear similar market risks to a direct investment in the relevant Fund Shares and prospective investors should take advice accordingly and be familiar with the relevant fund type and its underlying investment asset(s) type as an asset class.

Securities linked to Fund Shares may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Fund Shares or the issuer(s) or obligor(s) or other connected parties in relation to the Fund Shares.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.9 Risks associated with Interest Rates as a Reference Item

Securities linked to an Interest Rate may be redeemed or settled by the Issuer by payment of an amount determined by reference to the level of the Interest Rate and/or payment of the nominal amount.

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macroeconomic factors, speculation and central bank and government

intervention or other political factors. Fluctuations in short term and/or long term interest rates may affect the value of the Securities.

The Calculation Agent may make certain determinations in respect of the Interest Rate in accordance with §5 of the General Conditions in the event that it is not possible for the Calculation Agent to determine the relevant Interest Rate at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities.

3.10 Risks associated with other Reference Items

Securities may be linked to other Reference Items or a combination of one or more of the above Reference Item types. An investment in Securities linked to any Reference Items may bear similar market risks to a direct investment in the relevant Reference Items and prospective investors should take advice accordingly.

Securities linked to Reference Items may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Reference Items or the issuer(s) of the Reference Items.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.11 No Claim against any Reference Item

A Security will not represent a claim against any Reference Item to which any amount payable or amount of assets deliverable in respect of the Securities is dependent and, in the event that the amount paid by the Issuer or value of the specified assets delivered on termination of the Securities is less than the amount originally invested in the Securities, a Securityholder will not have recourse under a Security to the Issuer or any Reference Item.

An investment in Securities linked to one or more Reference Items may entail significant risks not associated with investments in conventional securities including but not limited to the risks set out above. The amount paid or value of the specified assets delivered by the Issuer on termination of such Securities may be less than the amount originally invested in the Securities and may in certain circumstances be zero.

C. RISK FACTORS RELATED TO SECURITIES GENERALLY

1. No Payments until Settlement

Prospective investors should note that a realisation in the secondary market of the Securities may be the only return potentially available to the investor prior to settlement of the Securities. Unless otherwise specified in the relevant Final Terms, there may be no periodic interest payments or other distributions made during the term of the Securities.

However, investors should note the risk factors described under the headings "Market value" and "The Securities may be Illiquid" below in this regard.

2. Adjustment Events and Adjustment/Termination Events

The Issuer (or, in the case of Spanish Securities, the Calculation Agent) is entitled to make adjustments to the Conditions following the occurrence of an Adjustment Event which may include any event which materially affects the theoretical economic value of a Reference Item or any event which materially disrupts the economic link between the value of the Reference Item and the Securities subsisting immediately prior to the occurrence of such event.

On the occurrence of an Adjustment/Termination Event, the Issuer (or, in the case of Spanish Securities, the Calculation Agent) is also entitled to adjust the Conditions, terminate and cancel the Securities, or in certain cases, substitute the relevant Reference Item affected by such Adjustment/Termination Event. An Adjustment/Termination Event may include an event which materially affects the method by which the Calculation Agent determines the level or price of any Reference Item or the ability of the Calculation Agent to determine the level or price of any Reference Item. In addition an Adjustment/Termination Event may occur where it is illegal or no longer practical for the Issuer to maintain its hedging arrangements for the Securities or where materially increased costs or expenses would be incurred by the Issuer in maintaining those arrangements. An Adjustment/Termination Event may also occur in a situation where certain market disruptions exist or a force majeure occurs (being an event or circumstance which prevents or materially affects the performance of the Issuer's obligation).

Such hedging arrangements refer to the arrangements the Issuer makes to ensure it will have available to it the relevant cash amounts or assets to be delivered under the Securities as these fall due. This will normally involve the Issuer investing directly or indirectly in the Underlying. An indirect investment might be made by an Affiliate or agent of the Issuer or other third party making an investment in the Underlying. Alternatively an indirect investment might involve the Issuer or an Affiliate, agent or other third party entering into a derivative contract referencing the Underlying. The Issuer will select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates. The Issuer may also adjust hedging arrangements from time to time but it will not always be able to avoid adverse costs, taxes or regulatory changes which affect its hedging arrangements.

An Adjustment Event or Adjustment/Termination Event may materially affect the cost to the Issuer of maintaining the Securities or its hedging arrangements in a way which has not been factored into the issue price of the Securities. This may therefore require adjustments or a termination of the Securities in these circumstances. **This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.**

Any adjustment made due to an Adjustment Event or any adjustment or termination of the Securities or replacement of a Reference Item following an Adjustment/Termination Event may have an adverse effect on the Securities and Securityholders. In particular, the value of the Securities may fall and amounts payable or assets deliverable under the Securities may be less and may be made at different times than anticipated. **This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.**

If the Issuer terminates early the Securities following an Adjustment/Termination Event, the Issuer will, if and to the extent permitted by applicable law, pay the holder of each such Security an amount determined by the Calculation Agent to be its fair market value taking into account the relevant event less the direct and indirect cost to the Issuer of unwinding any underlying related hedging arrangements. Such amount may be significantly less than an investor's initial investment in Securities and in certain circumstances may be zero.

Prospective purchasers should review §5 and §6 of the General Conditions to ascertain how such provisions apply to the Securities and what may constitute an Adjustment Event or an Adjustment/Termination Event.

3. Taxation

Potential purchasers and sellers of the Securities should be aware that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Securities are transferred. Securityholders are subject to the provisions of §10 of the General Conditions and payment and/or delivery of any amount due in respect of the Securities will be conditional upon the payment of certain taxes, duties and/or expenses as provided in the Conditions.

Potential purchasers who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

4. Changes in any applicable tax law or practice may have an adverse effect on a Securityholder

Any relevant tax law or practice applicable as at the date of this Base Prospectus and/or the date of purchase or subscription of any Securities may change at any time (including during any subscription period or the term of any Securities). Any such change may have an adverse effect on a Securityholder, including that Securities may be redeemed before their due date, their liquidity may decrease and/or the amounts payable or receivable by or to an affected Securityholder may be less than otherwise expected by such Securityholder.

5. Exercise Notices, Delivery Notices and Certifications

If the Securities are subject to provisions concerning delivery of an exercise notice or delivery notice and such notice is received by either the relevant principal agent with a copy to the clearing agent after the latest time specified in the General Conditions, it will not be deemed to be duly delivered until the next following business day. Such deemed delay may in the case of cash settled Securities increase or decrease the cash amount payable at settlement from what it would have been but for such deemed delivery. In the case of Securities which are exercisable on one day only or only during an exercise period, any exercise notice, if not delivered by the latest time specified in the Conditions, shall be void.

The failure to deliver any delivery notice or certifications required by the General Conditions could result in the loss or inability to receive amounts or deliveries otherwise due under the Securities. Prospective purchasers should review the General Conditions to ascertain whether and how such provisions apply to the Securities.

Securities not exercised in accordance with the General Conditions will expire worthless unless automatic exercise applies. Prospective purchasers should review the Conditions to ascertain whether the Securities are subject to automatic exercise, and when and how an exercise notice or delivery notice may be validly delivered.

6. Time Lag after Exercise

Where the Securities are to be settled by a cash payment or physical delivery, then, upon their exercise, there may be a time lag between the time exercise occurs and the time the applicable cash amount or asset amount relating to such exercise is determined. Any such delay between the time of exercise and the determination of the cash amount or asset amount will be specified in the General Conditions. However, such delay could be significantly longer, particularly in the case of a delay in exercise of such Securities arising from, as described below, any daily maximum exercise limitation or, as described below, upon the determination by the Calculation Agent that an event has occurred at any relevant time. The applicable cash amount or asset amount could decrease from what it would have been but for such delay.

Prospective purchasers should review the General Conditions to ascertain whether and how such provisions apply to the Securities.

7. Physically settled Securities

Where Securities provide for physical delivery, the Calculation Agent may determine that a Settlement Disruption Event is subsisting. A Settlement Disruption Event is an event beyond the control of the Issuer as a result of which, in the opinion of the Calculation Agent, delivery of the specified assets to be delivered by or on behalf of the Issuer is not practicable. Any such determination may affect the value of the Securities and/or may delay settlement in respect of the Securities.

Italian Securities and Portuguese Securities will not be physically settled.

8. Settlement Systems

An investor will need to be able to hold the Securities (directly or through an intermediary). Securities may only be held directly through the relevant Clearing Agent or, in the case of Italian Securities, an authorised financial intermediary entitled to hold securities control accounts with Monte Titoli S.p.A. on behalf of their customers or, in the case of Portuguese Securities, an authorised financial intermediary entitled to hold securities control accounts with Interbolsa on behalf of their customers (an "**Affiliate Member of Interbolsa**", which includes any custodian banks appointed by Euroclear Bank S.A./N.V. and Clearstream Banking, société anonyme for the purpose of holding accounts on behalf of Euroclear Bank S.A./N.V. and Clearstream Banking, société anonyme). Where Securities are held indirectly, a Securityholder will depend on the relevant intermediary(ies) through which it holds the Securities for receipt of payments, notices and for all other purposes in connection to the Securities. In case of physically settled Securities an investor will need to be able to hold (directly or through an intermediary) the relevant assets deliverable on settlement of the Securities. Investors should note the Securities are not intended to be held in a manner which would allow Eurosystem eligibility and this may limit their marketability for some investors.

9. Substitution of the Issuer

Subject to certain requirements, the Conditions contain provisions allowing for substitution of the Issuer or a change of the branch through which the Issuer acts. Without prejudice to the requirements of any applicable stock exchange or any other requirements of any jurisdiction where any Securities are admitted to trading, for so long as (a) the Securities are listed on the Italian Stock Exchange, any of the Spanish Stock Exchanges, or any Spanish regulated markets and (b) the rules of Borsa Italiana S.p.A., any relevant Spanish Stock Exchange or any relevant Spanish regulated market, as applicable, and as interpreted by the relevant Exchange or market, so require, any substitution of the Issuer may be subject to certain conditions, which may include further requirements of the relevant Stock Exchanges or regulated markets.

D. RISK FACTORS RELATING TO THE MARKET GENERALLY

1. Market Factors

1.1 Valuation of the Underlying

An investment in the Securities involves risk regarding the value of the constituents comprising the Underlying. The value of the Underlying or its constituents may vary over time and may increase or decrease by reference to a variety of factors which may include corporate actions, macroeconomic factors and speculation.

The relevant price or value of a Reference Item may be observed continuously during the life of the Securities or over certain periods or on one or more valuation dates. It should be noted, however, that the relevant time for valuation may be delayed in the case of a relevant Market Disruption under §5 of the General Conditions.

Accordingly, any positive performance of a Reference Item may have no effect on the Securities if this is not a relevant valuation time. Where the Underlying comprises more than one Reference Item then the positive performance of one or more Reference Items may be outweighed by any under performance of other Reference Item(s).

Investors should review the relevant price or value which is to be observed for each Reference Item. These may refer to published prices or values on an exchange or quotation system or other market measures. It should be noted that market data may not always be transparent or accurate and to a large extent may reflect investor sentiment at the relevant time. No assurance or representation is given that any such price or value will accurately reflect any intrinsic value of the relevant Underlying.

1.2 *The Historical Performance of the Underlying or its Constituents is not an Indication of Future Performance*

The historical value (if any) of the Underlying or its constituents does not indicate the future performance of the Underlying. Changes in the value of the constituents of the Underlying will affect the trading price of the Securities, but it is impossible to predict whether the value of the constituents of the Underlying will rise or fall.

1.3 *The Basis of Calculating the Price or Value of the Underlying may Change Over Time*

The basis of calculating the level of the Underlying or its constituents may from time to time be subject to change which may affect the market value of the Securities at any time and therefore the amounts payable or deliverable on settlement.

1.4 *The Value of the Constituents or Reference Items of the Underlying will Affect its Value*

The value of the Underlying on any day may reflect the value of its constituents or Reference Items on such day (depending on the terms of the Securities). Changes in the composition of the Underlying and factors (including those described in these Risk Factors) which either affect or may affect the value of the constituents or Reference Items will affect the value of the Securities. The historical value (if any) of the constituents or Reference Items does not indicate their future performance. Where the value of the constituents or Reference Items is determined in a different currency to the settlement currency of the Securities, investors may be exposed to exchange rate risk.

1.5 *Exchange Rate Risk*

Prospective investors should be aware that an investment in the Securities may involve exchange rate risks including, but not limited to, where the Securities relate to a Rate(s) of Exchange. For example, the settlement currency of the Securities may be different from the currency of an investor's home jurisdiction or the currency in which an investor wishes to receive funds.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Securities and any amounts payable in respect of the Securities. The above risk may be increased if the relevant currency is the currency of an emerging market jurisdiction.

1.6 Interest Rate Risk

An investment in the Securities may involve interest rate risk where there are fluctuations in the interest rates payable on deposits in the settlement currency of the Securities. This may influence the market value of the Securities.

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors. Fluctuations in short term and/or long term interest rates may affect the value of the Securities.

2. Market Value

The market value of the Securities during their term depends primarily on the value and the volatility of the constituents or Reference Items of the Underlying and in some cases the level of interest rates for instruments of comparable maturities or terms.

The level of market volatility is not purely a measurement of the actual volatility, but is largely determined by the prices for instruments which offer investors protection against such market volatility. The prices of these instruments are determined by forces of supply and demand in the options and derivative markets generally. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, macroeconomic factors and speculation.

Interest rate changes generally may have the same impact on the value of the Securities as for fixed rate bonds: Rising interest rates will under normal conditions result in a lower, falling interest rates in a higher, value of the Securities.

The value of the Underlying on any day may reflect the value of its constituents or the Reference Items on such day. Changes in the composition of the Underlying or the Reference Items and factors (including those described above) which either affect or may affect the value of the constituents or the Reference Items, will affect the value of the Underlying and therefore may affect the return on an investment in the Securities.

Where Coupon Amounts are payable in respect of the Securities and the relevant Coupon Rate is determined by reference to a floating rate, the market value of the Securities may decrease if the Coupon Amounts to be paid during the remaining term of the Securities are expected to decrease, whereas an increase in the expectations of the level of the Coupon Amounts to be paid in respect of the Securities may result in an increase in the market value of the Securities. The Coupon Rate will fluctuate, among other things, as a result of any changes in the method of calculating the relevant interest rate, changes in prevailing interest rates, general economic conditions, conditions of financial markets and European and international political events.

3. Certain Hedging Considerations

Certain risks apply to purchasers that acquire the Securities for hedging purposes.

Prospective purchasers intending to purchase the Securities for the purpose of hedging their exposure to the Underlying or its constituents or the Reference Items should recognise the risks of utilising the Securities in such manner. No assurance is or can be given that the value of the Securities will correlate with movements in the value of the Underlying or any of its constituents or the Reference Items and the composition of the Underlying or any of its constituents or the Reference Items may change over time. Furthermore, it may not be possible to liquidate the

Securities at a price which directly reflects the value of the Underlying or any of its constituents or the Reference Items. Therefore, there can be no assurance as to the level of any correlation between the return on an investment in the Securities and the return on a direct investment in the Underlying or its constituents or the Reference Items.

Hedging transactions in order to limit the risks associated with the Securities might not be successful.

4. The Securities may be Illiquid

It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid. If so specified in the applicable Final Terms, application has been made to list or quote or admit to trading the Securities on the stock exchange(s) or quotation system(s) specified. If the Securities are so listed or quoted or admitted to trading, no assurance is given that any such listing or quotation or admission to trading will be maintained. The fact that the Securities may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading.

If the Securities are not listed or quoted or admitted to trading on any stock exchange or quotation system, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities may be adversely affected. The liquidity of the Securities may also be affected by restrictions on offers and sales of the Securities in some jurisdictions.

Even where an investor is able to realise its investment in the Securities this may be at a substantially reduced value to its original investment in the Securities. In the case of certain Securities, such as Warrants, the realisation value at any time may be zero. Investors should also note that in the case of physically settled Warrants it will be necessary to pay a further strike price prior to receiving delivery of the relevant assets on settlement of the Warrants. In addition, a transaction fee may be payable in respect of a sale of the Securities.

The Issuer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. Since the Issuer may be the only market-maker in the Securities or there may be no market-maker, the secondary market may be limited. The more limited the secondary market is, the more difficult it may be for holders of the Securities to realise value for the Securities prior to settlement of the Securities. Therefore, whether or not a market-maker is appointed and the number and identity of the market-makers appointed may have a significant effect on the price of the Securities on the secondary market.

In case of admission to trading of the Securities to the SeDeX market of the Italian Stock Exchange, the Issuer in its capacity as market-maker will undertake to display and reset within 5 days bid and offer prices that do not differ by more than the maximum spread (the so called "*bid/ask spread*") as indicated in the Instructions to the Listing Rules of Borsa Italiana S.p.A. for a quantity at least equal to the minimum trade size, as all determined by Borsa Italiana S.p.A.

In the case of admission to trading of Portuguese Securities that are Warrants or Certificates to the Euronext Lisbon regulated market, at least one liquidity provider acceptable to Euronext Lisbon in accordance with its Rulebooks shall have been appointed (pursuant to a liquidity provision agreement entered into between such liquidity provider and Euronext Lisbon and reflecting the standard terms required by Euronext Lisbon) to act as market-maker by displaying bid and offer prices not differing more than the maximum spread (the so called "*bid/ask spread*") allowed under the applicable rules. In the case of admission to trading of Portuguese Securities that are Warrants to other regulated markets, the Issuer will not be required to appoint a market-maker, if that is not essential for the market to function and for the protection of the interests of non-qualified investors.

In connection with the Spanish Listed Securities, the Issuer or any agent on its behalf will ensure that any market-making activities are legally and validly carried out and any transactions or orders to trade in their capacity as market-makers are consistent and conform to accepted market practices on the relevant regulated market complying with the relevant requirements applicable to the type of Spanish Listed Securities issued and the specific regulated market on which such Spanish Listed Securities are listed in accordance with Article 83ter of the Spanish Law 24/1988, of 28 July, on the Securities Market. In particular, but without limitation, in the case of Spanish Listed Securities that are Warrants or Certificates listed on any of the Spanish Stock Exchanges, at least one liquidity provider acceptable to the relevant Spanish Stock Exchange shall be appointed as specialist (*Especialista*) of such Spanish Listed Securities in accordance with the requirements of Circular 1/2009 of the Sociedad de Bolsas, S.A., on the rules of functioning of the market segment of warrants, certificates and other products listed on the Stock Exchange Interconnection System (SIBE) and related provisions. Other similar rules are applicable when the Spanish Listed Securities are Notes listed on AIAF.

5. Certain considerations relating to public offers of Securities

As described in the applicable Final Terms, Securities may be distributed by means of a public offer made during an offer period specified in the applicable Final Terms. During such offer period, the Issuer and/or any other person specified in the applicable Final Terms may reserve the right to cancel such offer and/or to scale back applications for such offer in the event of over-subscription. In such circumstances, an applicant investor may not be issued any Securities or may be issued a number of Securities which is less than the amount for which such applicant investor applied. Any payments made by an applicant investor for Securities that are not issued to such applicant investor for any such reason will be refunded. However, there will be a time lag in making any reimbursement, no interest will be payable in respect of any such amounts and the applicant investor may be subject to reinvestment risk.

Further, investors should note that, in certain circumstances, Securities may not be issued on the originally designated issue date, for example because either the Issuer and/or any other person specified in the applicable Final Terms has reserved the right to postpone such issue date or, following the publication of a supplement to this Base Prospectus the Issuer has decided to postpone such issue date to allow investors who had made applications to subscribe for Securities before the date of publication of such supplement to exercise their right to withdraw their acceptances. In the event that the issue date is so delayed, no interest shall accrue (if applicable) until the issue date of the Securities and no compensation shall be payable.

E. CONFLICTS OF INTEREST

1. Transactions Involving the Underlying

The Issuer and its Affiliates may from time to time engage in transactions involving the Underlying for their proprietary accounts and for accounts under their management. Such transactions may have a positive or negative effect on the value of the Underlying and consequently upon the value of the Securities. As used in this section "Conflicts of Interest", references to the Underlying shall be deemed to include any of its constituents and Reference Items, if applicable.

2. Parties Acting in Other Capacities

The Issuer and its Affiliates may from time to time act in other capacities with regard to the Securities, such as calculation agent, agent and/or index sponsor. Such functions can allow the Issuer to calculate the value of the Underlying or (where the Underlying is a basket or an index) to determine the composition of the Underlying, which could raise conflicts of interest where securities or other assets issued by the Issuer itself or a group company can be chosen to be part of the Underlying, or where the Issuer maintains a business relationship with the issuer or obligor of such securities or assets.

3. Issuing of Other Derivative Instruments in Respect of the Underlying

The Issuer and its Affiliates may issue other derivative instruments in respect of the Underlying and the introduction of such competing products into the marketplace may affect the value of the Securities.

4. Conducting of Hedging Transactions

The Issuer may use all or some of the proceeds received from the sale of the Securities to enter into hedging transactions. The Issuer believes that such hedging activity will under normal circumstances not have a material impact on the value of the Securities. However, it cannot be assured that the Issuer's hedging activities will not affect such value. The value of the Securities might in particular be affected by the liquidation of all or a portion of the hedging positions (a) at or about the time of the maturity or expiration of the Securities or (b), if the Securities provide for a knock-out, knock-in or a similar feature, at the time when the price or value of the Underlying approaches the relevant price or level for the knock-out, knock-in or other feature.

5. Issue Price

The issue price charged for the Securities can, in addition to loading charges, management or other fees charged, comprise a premium on the original mathematical ("fair") value of the Securities which is not visible to investors. Such premium is determined by the Issuer in its discretion and can differ from premiums charged by other issuers for comparable securities.

6. Re-offer Price and Inducements

The Issuer may enter into distribution agreements with various financial institutions and other intermediaries as determined by the Issuer (collectively the "**Distributors**"). The Distributors will agree, subject to the satisfaction of certain conditions, to subscribe for the Securities at a price equivalent to or below the issue price. The Distributors have agreed to bear certain costs in connection with the issue of the Securities. A periodic fee may be payable to the Distributors in respect of all outstanding Securities up to and including the settlement date at a rate as determined between the Issuer and the relevant Distributor. Such rate may vary from time to time. The Distributors will agree to comply with the selling restrictions set out in the document as amended and supplemented by the additional selling restrictions set out in the relevant distribution

agreements and Final Terms of the Securities. The Distributors act independently and not as agent for the Issuer.

In particular, the Issuer may pay placement and/or trailer fees as sales-related commissions to the relevant Distributor. Placement fees are one-off payments from the proceeds of the issue; alternatively, the Issuer can grant the relevant distributor an appropriate discount on the issue price (without subscription surcharge). Payment of trailer fees is recurring and conditional upon the volume of securities issued. If Deutsche Bank AG is both the issuer and the dealer with respect to the sale of the Securities, Deutsche Bank's distributing division will be credited with the relevant amounts internally. Further information on re-offer price and/or inducements or fees are included in the relevant Final Terms.

The Issuer has the right to close the offering of the Securities prior to the end of the subscription period in case of adverse market conditions, as determined by the Issuer in its reasonable discretion, including but not limited to increased equity market volatility and increased currency exchange rate volatility.

In addition, potential conflicts of interest may arise where Securities are offered to the public, as the Distributors will act pursuant to a mandate granted by the Issuer.

7. Market-Making for the Securities

The Issuer, or an agent on its behalf, may but (unless otherwise stated) is not required to act as market-maker for the Securities. In such market-making, the Issuer or its agent will, to a large extent, determine the price of the Securities itself. The prices quoted by such market-maker will usually not correspond to the prices which would have formed without such market-making and in a liquid market.

Circumstances taken into account by the market-maker when setting the quoted bid-offer prices in the secondary market notably include the Securities' fair value, which, among other things, depends on the value of the Underlying, as well as a certain bid-offer spread targeted by the market-maker. The market-maker will in addition regularly take into account a loading charge originally raised for the Securities and any fees or costs which at maturity or settlement of the Securities are to be subtracted from any cash amount due (including management, transaction or other fees charged on the basis of the Conditions). Furthermore, the prices quoted in the secondary market will be influenced, for example, by a premium on the Securities' original value contained in their issue price (see under 5 above), and by dividends paid or received by the Underlying, or its constituents, or other proceeds which, due to the Securities' design, are economically attributable to the Issuer.

The bid-offer spread for the Securities will be set by the market-maker based on supply and demand for the Securities and certain revenue considerations.

Certain costs, like for example management fees charged on the basis of the Conditions, are in many cases not taken out of the quoted prices on a consistent basis over the term of the Securities (*pro rata temporis*), but are subtracted from the Securities' fair value completely at an earlier point in time, as determined by the market-maker in its discretion. The same applies for a premium contained in the issue price and for dividends and other proceeds of the Underlying which, due to the Securities' design, are economically attributable to the Issuer, which often are not subtracted when the Underlying, or its constituents, are traded "ex dividend", but at an early stage of the Securities' term based on expected dividends for the entire term or a certain time span. The rate at which such costs are subtracted depends, *inter alia*, on the net flow back of Securities to the market-maker.

Subsequently, the prices quoted by the market-maker can substantially differ from the fair value of the Securities, or the value to be expected economically on the basis of the factors mentioned above, at the relevant time. In addition, the market-maker can at any time alter the methodology used to set the quoted prices, e. g. increase or decrease the bid-offer spread.

8. Market-Making for the Underlying

The Issuer may, in certain cases, act as a market-maker for the Underlying, which might in particular be the case when the Issuer has also issued the Underlying. By such market-making, the Issuer will, to a large extent, determine the price of the Underlying, and consequently influence the value of the Securities itself. The prices quoted by the Issuer in its market-making function will not always correspond to the prices which would have prevailed without such market-making and in a liquid market.

9. Acting as Underwriter or Otherwise for the issuer of Underlying

The Issuer and its Affiliates may also act as underwriter in connection with future offerings of the Underlying or may act as financial adviser to the issuer of an Underlying or in a commercial banking capacity for the issuer of an Underlying. Such activities could present certain conflicts of interest and may affect the value of the Securities.

10. Obtaining of Non-public Information

The Issuer and/or its Affiliates may acquire non-public information with respect to the Underlying, and neither the Issuer nor any of its Affiliates undertakes to disclose any such information to any Securityholder. In addition, the Issuer or one or more of the Issuer's Affiliates may publish research reports with respect to the Underlying. Such activities could present conflicts of interest and may affect the value of the Securities.

Any further risk factors relating to additional conflicts of interest with respect to the Securities will be specified in the applicable Final Terms.

B. GENERAL DESCRIPTION OF THE PROGRAMME

The Base Prospectus published by the Issuer contains information on Securities which may be issued under the Programme. These may be structured securities and may have a wide range of economic terms.

A base prospectus does not contain all the information necessary for an investment decision, since the design of the respective Security will be described in the applicable Final Terms, rather than on publication of the base prospectus. The base prospectus thus presents a summary of the design possibilities for the securities which may be issued under the respective base prospectus.

No investment decision should be made until the Final Terms for the relevant Securities have been read in detail.

Description	The Programme of Deutsche Bank AG (the " Programme ") is a programme for the issuance of notes, certificates and warrants (" Securities ").
Issuer:	Deutsche Bank AG. The Issuer may issue through its head office in Frankfurt or through its branch offices in either London (" Deutsche Bank AG, London Branch "), Milan (" Deutsche Bank AG, Milan Branch "), Portugal (" Deutsche Bank AG, Sucursal em Portugal ") or Spain (" Deutsche Bank AG, Sucursal en España ") in each case, as specified in the applicable Final Terms.
Distribution:	Securities may be distributed by way of private or public placement. The method of distribution will be stated in the applicable Final Terms.
Approval, admission to trading and listing:	Application has been made by the Issuer to the CSSF as competent authority under and in accordance with the <i>Loi relative aux Prospectus pour valeurs mobilières</i> which implements Directive 2003/71/EC of the European Parliament and the Council of 4th November 2003 into Luxembourg law (the " Law ") to approve this document as a base prospectus. Application has also been made to the Luxembourg Stock Exchange for Securities issued under the Programme to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange. Securities may be admitted to trading or listed, as the case may be, on other or further stock exchanges or multilateral trading facilities or markets, including, but not limited to, the Frankfurt Stock Exchange, the Italian Stock Exchange, the SIX Swiss Exchange, the Euronext Lisbon regulated market and on any or all of the Spanish Stock Exchanges, the AIAF Fixed Income Securities Market (AIAF) or other Spanish regulated markets. Securities which are neither admitted to trading nor listed on any market may also be issued. The applicable Final Terms will state whether or not the relevant Securities are to be admitted to trading and/or listed and, if so, on which stock exchange(s) and/or multilateral trading facility(ies) and/or markets. In addition, the applicable Final Terms will state

whether or not the Securities will be publicly offered in connection with their issue.

Nominal Amount of Securities:

Securities will be issued in such nominal amount(s) as specified in the applicable Final Terms, save that the minimum nominal amount of each Note admitted to trading on a European Economic Area exchange or offered to the public in a Member State of the European Economic Area in circumstances which require the publication of a prospectus under the Prospectus Directive will be Euro 1,000 (or, if the Securities are denominated in a currency other than Euro, the then equivalent amount in such currency) or such other higher amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant currency.

("**Interbolsa**"), in accordance with Portuguese law. In accordance with article 78 of the Portuguese Securities Code (*Código dos Valores Mobiliários*) any investor holding Portuguese Securities through an Affiliate Member of Interbolsa may from time to time request that such Affiliate Member of Interbolsa provides to such investor a certificate confirming such registered holding.

In the case of Securities which are specified in the Product Terms to be Spanish Listed Securities (being Securities that are governed under Spanish law and listed on any or all of the Spanish Stock Exchanges, AIAF or any other Spanish regulated market) the Securities will be issued in uncertificated, dematerialised book-entry form ("**Book-Entry Securities**"), Book-Entry Securities which are admitted to trading on any of the Spanish regulated markets will be issued as *anotaciones en cuenta* and registered with *Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A., Unipersonal* ("**Iberclear**") as managing entity of the central registry. Such Book-Entry Securities will be constituted as such by virtue of their entry in the corresponding accounting book or Iberclear.

Status of Securities:

The Securities will constitute direct, unsecured and unsubordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated obligations of the Issuer except for any obligations preferred by law.

Issue Price and Offer Price:

Securities may be issued at an issue price which is at par or at a discount to, or a premium over, par. The Offer Price may differ from the Issue Price and, following the Issue Date, may be reset continuously.

Taxation:

The Issuer shall not be liable for or otherwise obliged to pay, and the relevant Securityholder shall be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever which may arise as a result of, or in connection with, the ownership, any transfer or other relevant events in respect of the Securities held by such Securityholder.

Any delivery of an Exercise Notice on or after such Business Day shall be void. Following a Knock-Out Event, however, the Securities may no longer be exercised either automatically or by delivery of an Exercise Notice.

In any case where more than the Quota of Securities are exercised on the same day by Securityholder(s), the determination of the chronological order of settlement in respect of such Securities shall be at the reasonable discretion of the Issuer.

As used herein:

If a Delivery Notice is delivered after such time, Physical Delivery shall occur as soon as reasonably practicable following the Settlement Date provided that if a Delivery Notice has not been so delivered and copied with respect to a Security by close of business in each place of receipt on the thirtieth calendar day after the Settlement Date, then the holder of such Security shall have no right to receive the Physical Delivery Amount in respect of such Security and the Issuer's obligation in respect of such Security shall be cancelled.

 - (vi) certifies that neither the Securityholder nor any person on whose behalf the Securities are held or are being exercised or redeemed is a U.S. person or a person within the United States, and that no cash, and in the case of a physical delivery of an Underlying, no securities or other property have been or will be transferred in the United States or to, or for the account or benefit of, a U.S. person in connection with any exercise or redemption thereof. The exercise by the Issuer of the Redemption Right shall not preclude Securityholders from selling or transferring or, if applicable, exercising the Securities which exercise, sale or transfer, as the case may be, is effective on any day up to but excluding the second Business Day immediately preceding the Redemption Date.

(ii) "**Redemption Notice Time Span**" is as defined in the Product Terms or, if not defined therein, is 12 months.

Any due amount will, as far as covered by a cash amount(s) to be paid according to the Conditions, be directly subtracted from such cash amount(s). As long as a due amount has not been settled by a Securityholder, no payment or delivery shall be made by the Issuer under the Securities to such Securityholder.

As used herein:

"Securityholder Expenses" means, in respect of a Security, all taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising in connection with the exercise of such Security and/or any payment and/or delivery due following exercise or otherwise in respect of such Security.

§3 Settlement

For the avoidance of doubt, where the Securities are Certificates or Warrants, the provisions of this §3 are only applicable to the extent that the relevant Certificates or Warrants have been duly exercised in accordance with the provisions of §2(2).

(1) Taxation, other laws and regulations

All payments and/or deliveries will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and/or delivery (including, where applicable, laws requiring the deduction or withholding for, or on account of, any tax, duty or other charge whatsoever).

(2) Settlement Currency Conversion

Any cash amount payable by the Issuer shall be paid in the Settlement Currency (which in the case of Portuguese Securities must be Euro, USD, Pounds sterling, Japanese Yen, Canadian Dollars, Swiss Francs or any other currency acceptable to Interbolsa). If payment of any amount to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Settlement Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to holders holding accounts with such Clearing Agent (or in the case of Portuguese Securities, for payments to holders of securities control accounts with Interbolsa), following a conversion of the relevant amount from the Settlement Currency, using a rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate for such conversion.

(3) Settlement / Payment details

Other than in respect of Portuguese Securities and Spanish Listed Securities, any cash amounts payable by the Issuer shall be transferred to the relevant Clearing Agent for distribution to the Securityholders.

Payments in respect of Portuguese Securities will:

- (a) if such payment is payable in Euro:
 - (i) be debited from the relevant payment current account of the Principal Agent (acting on behalf of the Issuer) (such account being the payment current account that the Principal Agent has notified to, and that has been accepted by, Interbolsa to be used on the Principal Agent's behalf for payments in respect of securities held through Interbolsa) and credited to the payment current accounts of the Affiliate Members of Interbolsa, whose securities control accounts with Interbolsa are credited with such Securities all in accordance with the applicable procedures and regulations of Interbolsa; and, thereafter,
 - (ii) be debited by such Affiliate Members of Interbolsa from the aforementioned payment current accounts and credited either (x) to the cash accounts of the owners of those Securities with such Affiliate Members of Interbolsa, or (y) to the cash accounts held by Euroclear Bank S.A./N.V. and/or Clearstream Banking, société anonyme and thereafter to the cash accounts held by the beneficial owners of those Securities with Euroclear Bank S.A./N.V. and/or

Clearstream Banking, société anonyme (as applicable), in accordance with the rules and procedures of Interbolsa, Euroclear Bank S.A./N.V. or Clearstream Banking, société anonyme, as the case may be; or

- (b) if such payment is payable in a currency other than Euro:
 - (i) be transferred, on the due date for such payment (in each case in accordance with the applicable procedures and regulations of Interbolsa), from the account held by the Principal Agent in the Foreign Currency Settlement System (*Sistema de Liquidação em Moeda Estrangeira*), managed by Caixa Geral de Depósitos, S.A., to the payment current accounts of the Affiliate Members of Interbolsa whose control accounts with Interbolsa are credited with such Securities; and, thereafter
 - (ii) be debited by such Affiliate Members of Interbolsa from such payment current accounts and credited either (x) to the cash accounts of the owners of those Securities with such Affiliate Members of Interbolsa or (y) to the cash accounts held by Euroclear Bank S.A./N.V. and/or Clearstream Banking, société anonyme and thereafter to the cash accounts held by the beneficial owners of those Securities with Euroclear Bank S.A./N.V. and/or Clearstream Banking, société anonyme (as applicable), in accordance with the rules and procedures of Interbolsa, Euroclear Bank S.A./N.V. or Clearstream Banking, société anonyme, as the case may be.

Payments in respect of Spanish Listed Securities will be debited from the cash account held by the Principal Agent with the Bank of Spain and credited to the cash accounts held with the Bank of Spain by the members of Iberclear whose securities accounts with Iberclear are credited with such Spanish Listed Securities, all in accordance with the applicable procedures and regulations of Iberclear and the Target2-Bank of Spain system. Thereafter, each of the members of Iberclear shall credit the relevant payments to each of the accounts of the relevant Securityholders.

Other than in respect of Italian Securities, Portuguese Securities and Spanish Listed Securities, the Issuer will be discharged of its payment and/or delivery obligations by payment and/or delivery to, or to the order of, the relevant Clearing Agent or Physical Delivery Clearing System in respect of the amount so paid or delivered (provided that, in the case of Notes in registered form, if applicable, such payment and/or delivery shall be deemed to be made for and on behalf of any nominee for the Clearing Agent(s) shown on the Register as the holder of such Notes).

The holders of Italian Securities must rely upon the procedures of Monte Titoli S.p.A. to receive payments in respect of Securities. The Issuer will be discharged by payment to, or to the order of, Monte Titoli S.p.A. in respect of the amount so paid.

The holders of Portuguese Securities must rely upon the procedures of Interbolsa to receive payment in respect of Securities. The Issuer will be discharged of its payment obligations in respect of any Portuguese Securities by payment to, or to the order of, the relevant Affiliate Members of Interbolsa, the clients of whom are shown as the registered holders of such Portuguese Securities in the records of such Affiliate Members of Interbolsa. The Issuer will be discharged towards the relevant Securityholders in respect of each amount so paid.

The holders of Spanish Listed Securities must rely upon the procedures of Iberclear to receive payment in respect of Spanish Listed Securities. The Issuer will be discharged of

its payment obligations in respect of Spanish Listed Securities by payment to the relevant member of Iberclear appointed by the Issuer as paying agent which will procure payment to any of the relevant members of Iberclear, the clients of whom are shown as the registered Securityholders of such Spanish Listed Securities. The Issuer will be discharged towards the relevant Securityholders when the paying agent has paid, on behalf of the Issuer, the relevant amounts to each of the members of Iberclear, the clients of whom are shown as the registered Securityholders of such Spanish Listed Securities.

(4) In the case of Notes, the Cash Amount is payable as consideration for the use of the Nominal Amount and as compensation in recognition that the Cash Amount might otherwise have been less than the Nominal Amount.

(5) **Verification**

Each payment and/or delivery is subject to reasonable satisfactory evidence being provided of the relevant Securityholder's holding of the Securities.

(6) **Payment Day**

(a) If any date for payment of any amount by the Issuer in respect of any Security is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day and shall not be entitled to any interest or other payment in respect of such delay.

(b) As used herein, a "**Payment Day**" means a day which is (i) a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the city where the Principal Agent is located and the Payment Day Location(s), if specified in the Product Terms; (ii) a day on which each Clearing Agent is open for business; and (iii) either (1) in relation to any sum payable in a currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the principal financial centre of the country of such currency or (2) in relation to any sum payable in euro, a day that the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System is open.

(7) **General**

Without prejudice to para. (8) below, the purchase and/or holding of the Securities does not confer on any Securityholder any rights (whether in respect of voting, distributions or otherwise) in relation to the Underlying, any asset of any kind whatsoever by reference to which any amount due under the Securities is calculated, or (prior to delivery, if applicable) any asset to be delivered under the Securities.

(8) **Distribution**

Any dividend, coupon, interest or similar payment or distribution (each, a "**Distribution**") in respect of any amount to be delivered will be payable to the party that would receive such Distribution according to market practice for a sale of the relevant amount executed for settlement on the Settlement Date, as specified in the Product Terms, and to be delivered in the same manner as such amount. Other than in respect of Portuguese Securities and Spanish Listed Securities, any such Distribution to be paid to a Securityholder shall be paid to the Clearing Agent for distribution to the Securityholders. In respect of Portuguese

Securities, any such Distribution shall be paid to the Principal Agent for distribution to the relevant Affiliate Members of Interbolsa for subsequent distribution to the relevant Securityholders. In respect of Spanish Listed Securities, the holders of such Securities must rely upon the procedures of Iberclear to receive any such Distribution. The Issuer will be discharged of its payment obligations in respect of Spanish Listed Securities by payment to the relevant member of Iberclear appointed by the Issuer as paying agent which will procure payment to any of the relevant members of Iberclear, the clients of whom are shown as the registered Securityholders of such Spanish Listed Securities. The Issuer will be discharged towards the relevant Securityholders when the paying agent has paid, on behalf of the Issuer, the relevant amounts to each of the members of Iberclear, the clients of whom are shown as the registered Securityholders of such Spanish Listed Securities.

(9) **Deliveries**

Any deliveries due under the Securities shall be made at the risk of the relevant Securityholder and shall be transferred to the relevant Physical Delivery Clearing System(s) for delivery to the relevant Securityholder, provided that where the Issuer (or the Calculation Agent, in the case of Spanish Securities) determines in its reasonable discretion that the delivery by the Issuer is fully or partly impractical, illegal or unduly onerous to the Issuer, then the Issuer (or the Calculation Agent, in the case of Spanish Securities) shall have the option to determine that the Issuer will make the delivery in such other commercially reasonable manner as the Issuer (or the Calculation Agent, in the case of Spanish Securities) may determine to be appropriate for such delivery and shall notify the Securityholders in accordance with §16. The amount to be delivered shall be evidenced in such manner as the Issuer determines to be customary for the relevant amount. The Issuer shall be under no obligation to register or procure the registration of any Securityholder or any other person as the registered holder in respect of the amount to be delivered in any register of holders, including, but not limited to, a register of members of a share company.

(10) **Settlement Disruption**

If and to the extent that any delivery becomes due under a Security and (i) if the Settlement Date is not a Business Day and/or (ii) prior to such delivery an event beyond the control of the Issuer occurs as a result of which the Issuer cannot make such delivery in accordance with such market method as it has elected at the relevant time for such delivery (a "**Settlement Disruption Event**"), then the Settlement Date for such delivery shall be postponed to the first following Business Day on which no such event is subsisting. For the avoidance of doubt, the provision of this §3(10) shall apply only to Securities affected as described in (i) and/or (ii) above.

For so long as the Settlement Disruption Event is subsisting, then in lieu of the affected delivery and notwithstanding any other provision hereof the Issuer may elect in its reasonable discretion to satisfy this obligation in respect of the relevant Security by payment of the Market Value of such Security taking into account any amounts already delivered or payments already made and the value of the remaining amount(s) which would otherwise be delivered or paid as shall be determined by the Issuer, less, in the case of all Securities other than Italian Securities, a Security's proportionate share of the direct and indirect cost to the Issuer of unwinding any underlying related Hedging Arrangements (such amount the "**Disruption Settlement Amount**"), not later than on the third Business Day following the date that notice of such election is given in accordance with §16. Payment of the Disruption Settlement Amount will be made in such manner as will be

notified in accordance with §16. The Calculation Agent shall give notice as soon as practicable in accordance with §16 that a Settlement Disruption Event has occurred.

No Securityholder or any other person shall be entitled to any payment in respect of a Security as a result of any delay in a delivery due to the occurrence of a Settlement Disruption Event, and no liability in respect thereof shall attach to the Issuer.

As used herein, and, if applicable, other Conditions:

"Market Value", in relation to a Security, means the fair market value of such Security as determined by the Calculation Agent, by reference to such factor(s) as it determines appropriate at the relevant time and which may include the following, without limitation:

- (a) any relevant quotations or other relevant market data in the relevant market(s) which may include relevant rates, prices, yields, yield curves, volatilities, spreads, correlations and any options or other derivative pricing model;
- (b) information of the type described in (a) above from internal sources of the Issuer or any of its Affiliates if that information is of a type used by the Issuer in its regular course of business for the valuation of similar instruments as the Securities.

Where the relevant Securities provide for any minimum amount(s) of cash or assets to be payable or deliverable this shall be taken into account in determining the Market Value. However, the Calculation Agent shall reduce (i.e. discount) the value of such amounts in determining the Market Value to take into account the length of time remaining to the first possible date on which such amount(s) could otherwise first have been payable or deliverable. Such discounting may be determined by reference to information as set out in (a) and/or (b) above which may include risk free rate(s).

The Calculation Agent shall also take into account appropriate values for any other amount which would or could otherwise have been payable or deliverable under the relevant Securities. This may include the element of the return on the Securities determined by reference to the Underlying (i.e. the derivative element). The relevant value for this element of the Securities may be determined by reference to the cost at the relevant time of entering into a transaction to provide similar amounts.

Notwithstanding the foregoing, each of the above determinations will be made without taking into account the creditworthiness of the Issuer at the time of early termination. This means that no reduction shall be made in the Market Value to take account of the perceived ability of the Issuer to make any payment at the time of early termination.

(11) **Intervening Period**

With regard to any delivery that is due under the Securities, for such period of time after the Settlement Date as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of the amount to be delivered (the **"Intervening Period"**), neither the Issuer nor any other person shall (i) be under any obligation to deliver or procure delivery to the relevant Securityholder or any subsequent beneficial owner of such amount to be delivered or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such amount; (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such amount during the Intervening Period; or (iii) be under any liability to the relevant Securityholder or any subsequent beneficial owner of such amount or any other person in respect of any loss or damage which the relevant Securityholder or

subsequent beneficial owner or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other such person being the legal owner of such amount during such Intervening Period.

(12) **Liability (Settlement Risk)**

Exercise, settlement and redemption of, and any payment and/or delivery in respect of, the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor the Agents shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

§4 Coupon

(1) Coupon Payment

- (a) Unless Coupon Payment is specified to apply in the Product Terms, the Securities bear no coupon and pay no periodic amounts.
- (b) If Coupon Payment is specified to apply in the Product Terms, the Issuer shall, on each Coupon Payment Date, pay the relevant Coupon Amount. The Coupon Amount (if any) is payable as consideration for the use of the Nominal Amount in respect of a Security and as compensation in recognition that the Coupon Amount on any or all of the Coupon Payment Dates may be equal to zero or less than a commercial rate of return on the Securities and/or that the Cash Amount and/or value of the Physical Delivery Amount may be less than the Nominal Amount. For the avoidance of doubt, in the event that the Coupon Amount for a Coupon Payment Date is zero, no amount shall be payable by the Issuer in respect of such Coupon Payment Date.
- (c) If a Coupon Rate is specified in the Product Terms and a Coupon Amount is required to be calculated for a period ending other than on (but excluding) a Coupon Payment Date, such Coupon Amount will be calculated on the basis of the number of days in the Coupon Period, and, if specified, the Coupon Rate applicable to such period (or if no such Coupon Rate is specified in the Product Terms, the interest rate which the Calculation Agent determines would apply to a deposit of the Nominal Amount for the relevant period with a commercial bank determined by the Calculation Agent at the relevant time) and the Coupon Rate Day Count Fraction. If Coupon Payment is specified in the Product Terms, the Coupon Amount(s) shall be the only periodic amount(s) payable for the Security, and no interest shall accrue in respect of the Securities.

(2) Accrual of Coupon

Coupon Amounts shall cease to be payable from and including the Coupon Cessation Date. Other than the Coupon Amount no periodic amount is payable for the Securities. In addition no interest shall accrue in respect of the Securities whether by reason of late payment of a Coupon Amount or otherwise.

(3) Definitions in respect of §4 and, if applicable, other Conditions:

- (h) "**Issue Date**" is as defined in the Product Terms being the date on which the Securities are first issued.

- (i) **"Primary Market End Date"** is as defined in the Product Terms.

§5 Market Disruptions and non-Trading Day

(1) Consequences of Market Disruption and non-Trading Day

A Market Disruption or a day not being a Trading Day may affect the valuation of a Reference Item or Hedging Arrangements of the Issuer in an unintended way. It is therefore necessary when a Market Disruption occurs or a day is not a Trading Day for the valuation of the Reference Item to be adjusted as follows:

- (a) if any day in respect of which the Calculation Agent is required to determine the price or level of a Reference Item for the purposes of §1 or §4 or otherwise as set out in the Product Terms is not a Trading Day (with the meaning given above), the relevant price or level shall be determined on the first succeeding Trading Day, subject as provided below. Any such day for determination is referred to as a "**Scheduled Valuation Date**";
- (b) if, in the opinion of the Calculation Agent, on any Scheduled Valuation Date (including, if any Observation Date(s) occurring on a daily basis is specified in the Product Terms, the last occurring Observation Date but excluding any other such Observation Date(s) on which a Market Disruption exists, and for such other Observation Dates affected by a Market Disruption the relevant Observation Date determination shall not be made), a Market Disruption has occurred in relation to any Reference Item:
 - (i) subject to Sub-Clause (ii) below:
 - 1. if Separate Reference Item Determination is not specified to apply in the Product Terms, all determinations on such Scheduled Valuation Date for all the Reference Items (including the affected Reference Item) shall be deferred to the first succeeding Trading Day on which there is no Market Disruption for any Reference Items; or
 - 2. if (x) the Underlying is not specified to be a Basket or (y) the Underlying is specified to be a Basket in the Product Terms and Separate Reference Item Determination is specified to apply in the Product Terms, the determination on such Scheduled Valuation Date for any affected Reference Item only shall be deferred to the first succeeding Trading Day on which there is no Market Disruption for such Reference Item,

provided that in each case if such first succeeding Trading Day has not occurred by the Ultimate Trading Day following the Scheduled Valuation Date the Calculation Agent shall in its reasonable discretion determine the price or level of each undetermined Reference Item as of the Ultimate Trading Day following the Scheduled Valuation Date which in the case of a Reference Item for which a Market Disruption then exists shall be such price or level that it determines would have prevailed but for the occurrence of a Market Disruption, having regard to the then prevailing market conditions, the last reported, published or traded level or price of the Reference Item, if applicable in accordance with the formula for and method of calculating the price or level of the Reference Item last in effect prior to the occurrence of the Market Disruption. The Calculation Agent shall give notice of any such

determination as soon as reasonably practicable in accordance with §16; and

- (ii) if Averaging is specified to apply in the Product Terms and (A) this §5(1)(b)(ii) is specified to apply in the Product Terms, the first succeeding Trading Day referred to in (a) or (b) above shall be the first succeeding Trading Day which is not itself a day on which the price or level of the relevant affected Reference Item is to be determined for the purpose of calculating an average price or level and on which a Market Disruption does not occur but in each case subject to the provisions applicable on the Ultimate Trading Day following the Scheduled Valuation Date in the manner set out in Sub-Clause (b)(i) above, or (B) this §5(1)(b)(ii) is specified not to apply in the Product Terms, the determination for the relevant Scheduled Valuation Date shall be deferred to the relevant Averaging Disruption Date as provided in the Product Terms.

For the purposes of this §5(1) if the Underlying is specified to be a Basket in the Product Terms and Separate Reference Item Determination is specified to be applicable in the Product Terms, then, subject as provided below, all references to a Trading Day shall be construed as references to a day which is a Trading Day determined as if the relevant Reference Item was the only Underlying and, for the purposes of determining whether a Market Disruption has occurred on any day, §5(4) below shall be applied separately in relation to each Reference Item and references therein to a Trading Day shall be construed as being a Trading Day determined as specified above in relation only to the relevant Reference Item Provided That where it is necessary to calculate a value or level for each Reference Item on any Trading Day for the purposes of the Product Terms then such Trading Day is required to be a day which is a Trading Day for all Reference Items.

If any determination(s) of the Calculation Agent in respect of any day and any Reference Item is delayed pursuant to this §5(1) then, for the avoidance of doubt, such day will itself also be deemed to be delayed in the same manner as such determination(s) and by reference to the relevant affected Reference Item(s), until the day on which each relevant delayed determination for the relevant affected Reference Item(s) has been made.

As used here in:

- (c) "**Observation Date(s)**" is as specified in the Product Terms.

(2) **Rate Determination**

Where the Underlying or a Reference Item is an interest rate or if a Coupon Rate is to be determined by reference to one or more interest rates (each an "**Interest Rate**") for the purpose of calculating an obligation due under §1 or §4, unless otherwise specified in the Product Terms, the following provisions shall apply. If on any relevant day it is not possible, for reasons beyond the reasonable control of the Calculation Agent, to determine the relevant Coupon Rate by reference to the relevant Interest Rate(s) according to the rules or normal or accepted procedures for the determination of such Interest Rate(s) (whether due to non-publication of a price or value or otherwise), each affected Interest Rate will be determined on the basis of the rates at which deposits in the relevant currency for such rate are offered by the Reference Banks at or about the Market Relevant Time, on that day to prime banks in the Relevant Market for a period of the Designated Maturity commencing on that day and for a Representative Amount. The Calculation Agent will request the principal office in the Relevant Market of each of the Reference Banks to provide a quotation of its rate. If at least two quotations are provided as requested, the relevant

Interest Rate for that day will be the arithmetic mean of the quotations. If fewer than two quotations are provided as requested, the relevant Interest Rate for such day will be the arithmetic mean of the rates quoted by major banks in the Substitute Market, selected by the Calculation Agent, at the Relevant Time on that day for loans in the relevant currency for such Interest Rate to leading European banks for a period of the Designated Maturity commencing on that day and for a Representative Amount.

(3) **Definitions in respect of §5(2) and, if applicable, other Conditions:**

Rate Determination

- (a) "**Designated Maturity**" is as defined in the Product Terms or, if not defined there, is the amount of time of the loans to which the relevant Interest Rate relates.
- (b) "**Euro-zone**" means the region comprised of member states of the European Union that adopt the euro in accordance with the Treaty on the Functioning of the European Union, as amended.
- (c) "**Market Relevant Time**" means, in respect of a Relevant Market or Substitute Market, approximately 11.00 a.m. local time in the location of such Relevant Market or Substitute Market, as applicable, provided that Brussels shall be deemed to be the location of the Euro-zone market.
- (d) "**Reference Banks**" means four major banks in the Relevant Market selected by the Calculation Agent, which may include the Issuer and/or any of its Affiliates.
- (e) "**Representative Amount**" means an amount that is representative for a single transaction in the respective market at the relevant time and, with regard to the Relevant Market if the relevant Interest Rate relates to loans denominated in EUR, the assumption of an Actual/360 day count basis.
- (f) "**Relevant Market**" means
 - (i) if the relevant Interest Rate relates to loans denominated in USD or any currency other than EUR: the London interbank market
 - (ii) if the relevant Interest Rate relates to loans denominated in EUR: the Euro-zone interbank market.
- (g) "**Substitute Market**" means
 - (i) if the relevant Interest Rate relates to loans denominated in USD or any currency other than EUR: New York City
 - (ii) if the relevant Interest Rate relates to loans denominated in EUR: the Euro-zone.

(4) **Events and/or situations constituting Market Disruption**

"**Market Disruption**" means any of the following events or situations if, in the determination of the Calculation Agent, any of these is material to the valuation of a Reference Item or any Hedging Arrangements of the Issuer in relation to the Securities provided that any Market Disruption in respect of a Relevant Reference Item shall be deemed to be a Market Disruption in respect of the related Reference Item:

- (a) if the Reference Source for a Reference Item or Relevant Reference Item is an exchange, a trading system or a quotation system as determined by the Calculation Agent:
- (i) the failure of a relevant Related Exchange or Reference Source, to open for trading during its regular trading session on any Trading Day; or
 - (ii) (aa) the failure of the relevant Index Sponsor to publish the level of a Reference Item or Relevant Reference Item which is an index on any Trading Day (provided that the Calculation Agent may, in its discretion, determine that such event instead gives rise to an Adjustment/Termination event) or (bb) the failure of a relevant Related Exchange to open for trading during its regular trading session; or
 - (iii) the occurrence or existence on any Trading Day at the Relevant Time for a Reference Item or Relevant Reference Item or at any time during the one hour period that ends at the Relevant Time for such Reference Item or Relevant Reference Item, as applicable:
 - 1. of any suspension of or limitation imposed on trading by the relevant Reference Source or Related Exchange or otherwise (and whether by reason of movements in price exceeding limits permitted by the relevant Reference Source or any Related Exchange or otherwise):
 - a. of a Reference Item or Relevant Reference Item on the relevant Reference Source; or
 - b. where the Reference Item is not, under the heading of "Underlying" in the Product Terms, specified to be a Multi-Exchange Index, on any Reference Source as a whole; or
 - c. in options contracts or futures contracts on or relating to a Reference Item on any Related Exchange; or
 - d. on any other exchange or trading system or quotation system on which a Reference Item is listed or quoted; or
 - 2. of any event that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (i) to effect transactions in relation to or to obtain market values for, a Reference Item or Relevant Reference Item on the relevant Reference Source or (ii) to effect transactions in, or obtain market values for options contracts or futures contracts on or relating to a Reference Item or Relevant Reference Item on any relevant Related Exchange; or
 - (iv) the closure on any Exchange Business Day of a relevant Reference Source(s) or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Reference Source(s) or Related Exchange(s) at least one hour prior to the earlier of (aa) the actual closing time for the regular trading session on such Reference Source(s) or Related Exchange(s) on such Exchange Business Day and (bb) the submission deadline (if applicable) for orders to be entered into the

Reference Source or Related Exchange system for execution at the Relevant Time on such Exchange Business Day;

- (b) if the Reference Source for a Reference Item or Relevant Reference Item is not an exchange, a trading system or a quotation system as determined by the Calculation Agent:

it is not possible, for reasons beyond the reasonable control of the Calculation Agent, to determine the price or value (or an element of such price or value) of such Reference Item or Relevant Reference Item by reference to such Reference Source according to the rules or normal or accepted procedures for the determination of such price or value (whether due to non-publication of such price or value or otherwise);

- (c) if the Reference Item is specified to be an "Emerging Market Underlying" in the Product Terms:

- (i) where the Reference Currency for a Reference Item is different from the Settlement Currency, the occurrence at any time of an event which the Calculation Agent determines would have the effect of preventing, restricting or delaying the Issuer and/or any Hedging Party from:

1. converting the Reference Currency into the Settlement Currency through customary legal channels or transferring within or from any Relevant Country either currency, due to the imposition by such Relevant Country of any controls restricting or prohibiting such conversion or transfer, as the case may be;
2. converting the Reference Currency into the Settlement Currency at a rate at least as favourable as the rate for domestic institutions located in any Relevant Country;
3. delivering the Reference Currency or Settlement Currency from accounts inside any Relevant Country to accounts outside such Relevant Country; or
4. transferring the Reference Currency or Settlement Currency between accounts inside any Relevant Country or to a party that is a non-resident of such Relevant Country; or

- (ii) a Relevant Country (a) imposes any controls or announces its intention to impose any controls; or (b)(i) implements or announces its intention to implement; or (ii) changes or announces its intention to change the interpretation or administration of any laws or regulations, in each case which the Calculation Agent determines is likely to affect the Issuer's ability to acquire, hold, transfer or realise or otherwise to effect transactions in relation to a Reference Item,

provided that where the Reference Item is, under the heading of "Underlying" in the Product Terms, specified to be a Foreign Exchange Rate, within (i) and (ii) above references to "Reference Currency" should be read as references to "Second Currency" and references to "Settlement Currency" as references to "First Currency"; or

An indirect investment might be made by an Affiliate or agent of the Issuer or other third party making an investment in the Underlying. Alternatively an indirect investment might involve the Issuer or an Affiliate, agent or other third party entering into or acquiring a derivative contract referencing the Underlying. The Issuer will select Hedging Arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates. The Issuer may also adjust Hedging Arrangements from time to time but it will not always be able to avoid adverse costs, taxes or regulatory changes which affect its Hedging Arrangements.
- (d) "**Hedging Party**" means any Affiliate or agent of the Issuer or other third party providing the Issuer with Hedging Arrangements as described in the definition of Hedging Arrangements above.
- (e) "**Index Sponsor**" means (i) in relation to a Reference Item or Relevant Reference Item which is an index specified under the heading "Underlying" in the Product Terms, the sponsor specified therein for such index; and (ii) in relation to any other Reference Item or Relevant Reference Item which is an index, the entity determined by the Calculation Agent to be principally responsible for the determination and publication of such index provided that, in either case, references to an Index Sponsor shall include any Successor Sponsor.

- (g) **"Reference Currency"** (i) in relation to a Reference Item, if so specified under the heading "Underlying" in the Product Terms, is the Reference Currency or (in the case of a Basket Constituent) is the Basket Constituent Currency, each as specified under such heading or, if not specified there, is the Settlement Currency; and (ii) in relation to a Relevant Reference Item, is the currency in which such asset is denominated or quoted or with which it is most closely connected, as determined by the Calculation Agent.
- (h) **"Reference Item"** means each asset or reference basis (i) specified, under the heading "Underlying" in the Product Terms, to be the Underlying or; (ii) in the case of a basket of assets or reference bases, to be included in the Underlying.
- (i) **"Reference Source"**, in relation to a Reference Item or Relevant Reference Item, as applicable, is as specified under the heading "Underlying" in the Product Terms or any successor to any such Reference Source, acceptable to and as determined by the Calculation Agent or, if not defined there, the reference source or reference sources determined by the Calculation Agent to be applicable to the valuation of the Reference Item or Relevant Reference Item, as applicable for the purposes of determining its relevant level or value.
- (j) **"Related Exchange"** means, unless otherwise defined under the heading "Underlying" in the Product Terms, with respect to a Reference Item or Relevant Reference Item, each exchange, trading system or quotation system whose trading has an effect on the overall market for options contracts or futures contracts on the Reference Item or Relevant Reference Item, and any successor acceptable to the Calculation Agent, as determined by the Calculation Agent.

- (l) **"Relevant Reference Item"** means, in respect of a Reference Item specified to be an index, any index or other constituent used for the calculation or determination of such index or any asset or reference basis constituting such Reference Item at the relevant time.
- (m) **"Relevant Time"** means, with respect to a Reference Item or Relevant Reference Item,
- (i) where the Reference Item is not, under the heading "Underlying" in the Product Terms, specified to be a Multi-Exchange Index and in relation to each Relevant Reference Item, the relevant time by reference to which the Calculation Agent determines the level or value of such Reference Item or Relevant Reference Item; and

- (ii) where the relevant Reference Item is an index and is under the heading "Underlying" in the Product Terms, specified to be a Multi-Exchange Index,
 - 1. for the purposes of determining whether a Market Disruption has occurred,

§6 Adjustment Events and Adjustment/Termination Events

(1) Adjustment Events

The occurrence of any of the following events set out under "General" or "Specific" below, in each case, in respect of a Reference Item (as specified in the Product Terms under the heading "Underlying") shall constitute an "**Adjustment Event**":

General:

- (a) an event occurs which materially affects or may materially affect the theoretical economic value of such Reference Item or which has or may have an economic, dilutive or concentrative effect on the theoretical economic value of such Reference Item;
- (b) an event occurs that materially disrupts the economic link between the value of such Reference Item and the Securities subsisting immediately prior to the occurrence of such event; and/or
- (c) a Reference Item, or the underlying constituent(s) or reference basis(es) for any Reference Item, is materially modified; and/or

Specific:

any of the events or circumstances specified as Adjustment Events in para. (5) below.

The occurrence of any such Adjustment Event may materially affect the cost of maintaining the Securities or Hedging Arrangements for the Securities or the economic equivalence of the Securities, in each case before and after the occurrence of such event in a way which has not been reflected in the pricing of the Securities.

*As a result the Issuer shall be entitled to make adjustments to the Conditions following the occurrence of any such Adjustment Event as set out in para. (2) below or if it determines that it is not able to make an appropriate adjustment pursuant to para. (2) below may elect to treat the Adjustment Event as an Adjustment/Termination Event under para. (3) below. See para. (3)(c) below. **This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.***

For the avoidance of doubt, an event or circumstance may at the same time qualify as an Adjustment Event under more than one of the above items (a)-(c) and each of the Adjustment Events in relation to a Reference Item set out in paragraph (5) below shall constitute an Adjustment Event.

(2) Consequences of an Adjustment Event

Following the occurrence of an Adjustment Event the Calculation Agent may make such adjustments to the Conditions as it, in its reasonable discretion, determines necessary or appropriate in order to account for the effect of such Adjustment Event and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the occurrence of such Adjustment Event and the economic link between the Underlying and the Securities and/or to enable it to maintain its Hedging Arrangements (as applicable), and will determine when these adjustments become effective. This may include, without limitation, where the Underlying, or the relevant Reference Item, is an index (in each case

as specified under the heading "Underlying" in the Product Terms) determining the level of that index on that date using, in lieu of a published level for that index, the level for that index as at that date as determined by the Calculation Agent in accordance with the formula for and method of calculating that index last in effect prior to the relevant Adjustment Event but using only those Relevant Reference Items that comprised that index immediately prior to the event.

Such adjustments may take into account and pass on to Securityholders any increased direct or indirect cost to the Issuer as a result of or in connection with the relevant Adjustment Event including, without limitation:

(a) in relation to any Securities which are not Italian Securities, any tax, duty, withholding, deduction or other charge whatsoever (including but not limited to a change in tax consequences); and

(b) in relation to any Italian Securities any tax (including but not limited to a change in tax consequences),

in each case for the Issuer. Other than in the case of Italian Securities, such change in tax consequences may include, but is not limited to, any changes resulting from Hedging Arrangements of the Issuer in relation to the Securities.

The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such event made by a Related Exchange to options or futures contracts on the relevant Reference Item traded on that Related Exchange.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with §16, stating the adjustment made to the Conditions and giving brief details of the relevant Adjustment Event.

(3) **Adjustment/Termination Event**

The occurrence of any of the following events set out under "General" or "Specific" below, in each case, in respect of (i) the Securities; (ii) any Hedging Arrangements in respect of the Securities, or (iii) a Reference Item (as specified in the Product Terms under the heading "Underlying") shall constitute an "**Adjustment/Termination Event**":

General:

(a) an event occurs which materially affects the method by which the Calculation Agent determines the level or price of any Reference Item or the ability of the Calculation Agent to determine the level or price of any Reference Item;

(b) a Reference Item is materially modified or affected, whether as a result of a de-listing, merger event, tender offer, termination, redemption, insolvency, nationalisation, a material change in the formula or method for calculating such Reference Item or a material change in its investment guidelines, policies, strategy, management or constitutional documents or any other event which the Calculation Agent determines, in its reasonable discretion, constitutes a material modification of or materially affects a Reference Item;

- (c) an Adjustment Event has occurred in respect of which the Calculation Agent determines that it is not able to make an appropriate adjustment pursuant to §6(2) above;
- (d) the Issuer determines that:
 - (i) the performance of its obligations under the Securities has or will become illegal or not reasonably practical in whole or in part, or such performance would incur materially increased direct or indirect costs, taxes, duties or expenses (as compared to the position on the Issue Date); or
 - (ii) it is or will become illegal or not reasonably practical for the Issuer to acquire, establish, re-establish, substitute, maintain, unwind or dispose of its Hedging Arrangements with respect to the Securities, in whole or in part, or the Issuer will incur materially increased direct or indirect costs, taxes, duties or expenses or fees in acquiring, establishing, re-establishing, substituting, maintaining, unwinding or disposing of its Hedging Arrangements (as compared to the position on the Issue Date), including, without limitation, due to any increase in tax liability, decrease in tax benefits or other adverse effect on the tax position of the Issuer,

(without limitation the Issuer may determine this in circumstances where there is a change in applicable law or regulation (including without limitation, any tax law) in any relevant jurisdiction or interpretation by any court, tribunal or regulatory authority of any such relevant law or regulation (including any action taken by a taxing authority), a decline in the number of appropriate third parties with whom to contract or with whom to contract on reasonable terms in relation to any Reference Item, a material lack of liquidity in the market for any shares, options, instruments or other assets typically used for offsetting risk in relation to a Reference Item);

- (e) the Issuer determines that it is unable, after using commercially reasonable efforts, to realise, recover or remit the proceeds of any Hedging Arrangement(s);
- (f) the Issuer determines, at any time, that a Market Disruption exists on any Ultimate Trading Day pursuant to §5 and that any valuation methods provided in §5 for this case would not be appropriate for the purposes of making the relevant calculation, and the Issuer then elects to treat such Market Disruption as an Adjustment/Termination Event;
- (g) a force majeure event occurs. For these purposes force majeure event means an event or circumstance which prevents or materially affects the performance of the Issuer's obligations and may include a system failure, fire, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstances; and/or
- (h) liquidity or market conditions in relation to any Reference Item (including the trading of any Reference Item) are materially adversely affected other than where this leads to a Market Disruption; and/or

Specific:

any of events or circumstances specified as Adjustment/Termination Events in para. (5) below.

*The occurrence of any Adjustment/Termination Event may have the result that the Issuer is either not able to continue to perform its obligations under the Securities or to maintain its Hedging Arrangements or will incur increased costs, taxes, or expenses in so doing, and such increased costs, taxes, or expenses have not been reflected in the pricing of the Securities. As a result the Issuer shall be entitled to make adjustments to the Conditions or to substitute a Reference Item or to cancel and terminate the Securities following the occurrence of any such Adjustment/Termination as set out in para. (4) below. **This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.***

For the avoidance of doubt, an event or circumstance may at the same time qualify as an Adjustment/Termination Event under more than one of the above items (a)-(i) and each of the Adjustment/Termination Events in relation to a Reference Item set out in paragraph (5) below shall constitute an Adjustment/Termination Event.

(4) **Consequences of an Adjustment/Termination Event:**

Following the occurrence of an Adjustment/Termination Event, the Calculation Agent may take any of the following actions. **In particular, it should be noted that para. (c) below allows a termination and cancellation of the Securities:**

- (a) other than in respect of an Adjustment/Termination Event in § 6(3)(c) above, the Calculation Agent may make such adjustments to the Conditions as it, in its reasonable discretion, determines necessary or appropriate in order to account for the effect of such Adjustment/Termination Event and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the occurrence of such Adjustment/Termination Event and the economic link between the Underlying and the Securities and/or to enable it to maintain its Hedging Arrangements (as applicable) and determine when these adjustments become effective. This may include, without limitation, where the Underlying, or the relevant Reference Item, is an index (in each case as specified under the heading "Underlying" in the Product Terms) determining the level of that index on that date using, in lieu of a published level for that index, the level for that index as at that date as determined by the Calculation Agent in accordance with the formula for and method of calculating that index last in effect prior to the relevant Adjustment/Termination Event but using only those Relevant Reference Items that comprised that index immediately prior to the event.

Such adjustments may take into account and pass on to Securityholders any increased direct or indirect cost to the Issuer as a result of or in connection with the relevant Adjustment/Termination Event including, without limitation, any tax, duty, withholding, deduction or other charge whatsoever (including but not limited to a change in tax consequences) for the Issuer. Such change in tax consequences may include, but is not limited to, any changes resulting from any Hedging Arrangements of the Issuer in relation to the Securities.

The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such event made by a Related Exchange to options or futures contracts on the relevant Reference Item traded on that Related Exchange or the adjustments that would follow from the rules and precedents set by an exchange or trading system or quotation system to account for the relevant Adjustment/Termination Event that in the determination of the Calculation Agent would have given rise to an adjustment by the exchange or

trading system or quotation system if such options or futures contracts were traded thereon;

- (b) if Underlying Replacement has been specified to apply in the Product Terms, the Calculation Agent may substitute the relevant Reference Item affected by the Adjustment/Termination Event with a Replacement Asset, as specified in the Product Terms, on or after the effective date of such Adjustment/Termination Event. However, if the relevant Adjustment/Termination Event is a Merger Event and the consideration granted for the relevant Reference Item as part of the Merger Event consists of assets other than cash that are not already included in the Underlying, as specified under the heading "Underlying" in the Product Terms, then the Calculation Agent may at its option adjust the Underlying to include the relevant quantity (determined with regard to the economic terms of the Securities) of such assets to which a holder of the Reference Item would be entitled prior to the occurrence of the Merger Event. The Calculation Agent shall make such adjustments to the Conditions as it in its reasonable discretion deems appropriate to account for such substitution or additional assets; or
- (c) **If the Calculation Agent is not able to or elects not to determine or effect an appropriate adjustment pursuant to §6(4)(a) or (b) above, the Securities may be terminated and cancelled by the Issuer giving notice to Securityholders as soon as practicable in accordance with §16, which notice shall contain brief details of the Adjustment/Termination Event. If the Securities are so terminated and cancelled, the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the Market Value of a Security taking into account the relevant Adjustment/Termination Event (provided that, in the case of Italian Securities which are Notes intended to be listed and admitted to trading on an Italian regulated market or Italian multilateral trading facility so requiring, such amount shall be at least equal to the Nominal Amount in respect of each Security), less, in the case of any Security which is not an Italian Security, that Security's proportionate share of the direct and indirect cost to the Issuer of unwinding any underlying related Hedging Arrangements, all as determined by the Calculation Agent in its reasonable discretion. Payment will be made in such manner as shall be notified to the Securityholders in accordance with §16.**

The Calculation Agent shall, as soon as practicable after receipt of any written request from a Securityholder to do so, advise such Securityholder of any determination made by it pursuant to this §6 which occurs on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Securityholders copies of any such determinations.

(5) **Specific Adjustment Events and Adjustment/Termination Events in relation to different Reference Items**

- (ii) Any such Index is replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index specified under the heading "Underlying" in the Product Terms.

The consequences of such Adjustment Event may be, in each case that the relevant Index will be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.

(B) In addition to §6(3)(a)-(h) (inclusive) the following shall each be an Adjustment/Termination Event:

On or prior to any date with respect to which the Calculation Agent is required to determine the level of an Index, the relevant Index Sponsor or, if applicable, the Successor Sponsor (1) makes or announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index; or (2) permanently cancels that Index; or (3) fails to calculate and announce that Index (provided that the Calculation Agent may, in its discretion, determine that such event instead gives rise to a Market Disruption) and, in each case, the provisions of §6(5)(b)(A) above do not apply.

Notice of any appointment, or termination of appointment, or any change in the specified office, of any Agent will be given to Securityholders in accordance with §16. Each Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. Any calculations or determinations in respect of the Securities made by an Agent shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.
- (2) Definitions in respect of §8 and, if applicable, other Conditions:
 - (a) "**Agent**" means, subject to §8 para. 1, the Principal Agent and, if it is not the Principal Agent in respect of the Securities, each of Deutsche Bank AG, acting through its principal office in Frankfurt am Main and through its branch office in London (Deutsche Bank AG London) and each other Agent, if any, specified in Part B of the applicable Final Terms.

- (3) **Registrar**

In the case of Notes represented by a Global Security in registered form, the Issuer reserves the right at any time to vary or terminate the appointment of the Registrar or any successor as provided above, provided that no termination of appointment of the Registrar shall become effective until a replacement Registrar shall have been appointed. The Registrar will maintain a register (the "**Register**") on the terms as agreed between the Issuer and the Registrar, such terms to include that the register shall at all times be physically located outside the United Kingdom. The Registrar acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. Any calculations or determinations in respect of the Securities made by the Registrar shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders. The "**Registrar**" shall be such entity specified as such in the Product Terms or any successor as provided above.

§9 Calculation Agent

(1) Role of Calculation Agent, Issuer Determinations and Corrections

Unless otherwise stipulated in the Conditions, all calculations and determinations required by the Conditions shall be made by the calculation agent (the "**Calculation Agent**" which expression shall include any successor calculation agent).

Unless the Issuer decides to appoint a successor Calculation Agent in accordance with the provisions below, in respect of all Securities other than Spanish Securities, the Issuer shall be the Calculation Agent in respect of the Securities. In respect of Spanish Securities, the Calculation Agent shall, in accordance with the provisions of §9(2) below, be either the Issuer or the Third Party Calculation Agent as the context requires.

The Issuer reserves the right at any time to appoint another institution as the Calculation Agent, provided that no termination of appointment of the existing Calculation Agent shall become effective until a replacement Calculation Agent shall have been appointed. Notice of any such termination or appointment will be given to the Securityholders in accordance with §16.

The Calculation Agent (except where it is the Issuer or, in the case of Spanish Securities, the Third Party Calculation Agent) acts solely as agent of the Issuer. The Calculation Agent does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders.

Any calculations or determinations in respect of the Securities made by the Issuer or the Calculation Agent shall be made in good faith and in a commercially reasonable manner and shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

Subsequent to any calculation or determination by the Calculation Agent in respect of the Securities, any subsequently published corrections in respect of any value or price of a Reference Item used by the Calculation Agent in respect of such calculation or determination shall only be taken into account by the Calculation Agent to the extent that it is published within the Correction Period specified in the Product Terms or, if earlier, on or before the second Business Day proceeding the day on which a payment or delivery is to be made, the amount of which is determined in whole or in part by reference to such value or price of the Reference Item.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate, provided that, in the case of the Third Party Calculation Agent, such third party is not the Issuer.

(2) Role of the Third Party Calculation Agent

In respect of all Spanish Securities, any determination(s) which is to be made in accordance with the terms of §1, §3, §5, §6, §12, §17 and §18 or any other part of the Conditions and/or the Product Terms where the Issuer or the Calculation Agent, as the case may be, is entitled to make determinations at its own option or which involve the exercise of its own discretion, in each case to amend the Conditions of the Securities, ("**Relevant Determinations**"), will be made by the Third Party Calculation Agent (being the entity (which shall not be the Issuer) specified as such in the applicable Product Terms, the "**Third Party Calculation Agent**"). All references to the Issuer or Calculation Agent

making any Relevant Determinations, as the case may be, will be construed to refer to such Third Party Calculation Agent making such Relevant Determinations. The Third Party Calculation Agent shall make all such Relevant Determinations to the "best of its knowledge". In making such Relevant Determinations, the Third Party Calculation Agent shall at all times act as a third party service provider and independently of the Issuer. For the purpose of all other determinations specified to be made by the Calculation Agent in respect of Spanish Securities, the Issuer shall be the Calculation Agent. For the avoidance of doubt, Relevant Determinations will not include (i) any exercise by the Issuer of any option or right for any other purpose, including, any right to redeem, cancel or terminate such Securities, (ii) any right to vary or terminate the appointment of any Agent, Registrar or Calculation Agent in accordance with the terms of §8 or §9, as the case may be or (iii) any right to substitute the Issuer or a Branch in accordance with the terms of §13. References to the Issuer or the Calculation Agent, as the case may be, shall be construed accordingly.

For so long as any Spanish Securities are outstanding, the Issuer will procure that a Third Party Calculation Agent is appointed in respect of such Securities and that such Third Party Calculation Agent shall not be the Issuer itself (but may be a subsidiary or Affiliate of the Issuer). The Third Party Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

(3) **Determination by the Calculation Agent**

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

§10 Taxation

In addition and without prejudice to the provisions of §2(5), the Issuer shall not be liable for or otherwise obliged to pay any tax, duty, charge, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of the Securities, or be liable for any failure by a non-resident holder of any Notes that are Portuguese Securities to comply with any debt instruments withholding tax exemption certification procedures pursuant to Decree-Law 193/2005 of 13 November 2005 (as amended), and all payments made by the Issuer shall be made subject to any tax, duty, charge, withholding or other payment which may be required to be made, paid, withheld or deducted.

§11 Presentation Period and Limitation

In the case of Securities represented by a Global Security, any payments will, subject as provided below, be made in the manner provided in §3 and otherwise in the manner specified in the Global Security, if applicable. For all other Securities, any payments will be made in the manner provided in §3.

Where the Securities are specified in the Product Terms to be Notes represented by a Global Security in bearer form, payments of all amounts shall be made against presentation or surrender, as the case may be, of the Global Security, if applicable, at the specified office of any Agent. A record of each payment made will be made on the Global Security by the relevant Agent, if applicable and such record shall be prima facie evidence that the payment in question has been made.

Where the Securities are specified in the Product Terms to be Notes represented by a Global Security in registered form, payments of all amounts shall be made to the person shown on the Register at the close of business on the business day before the due date for payment (being the relevant Clearing Agent, or nominee or common nominee (as applicable) of the Clearing Agent(s)) as the holder of such Notes, and if no further payment falls to be made on the Notes, on surrender of the Global Security to or to the order of the Registrar. A record of each payment made will be made in the Register by the relevant Agent, if applicable and such record shall be prima facie evidence that the payment in question has been made. For the purpose of this paragraph, "**business day**" means a day on which the relevant Clearing Agent(s) is (or are, if applicable) open for business.

Each of the persons shown in the records of a Clearing Agent as the holder of a particular number or nominal amount of the Securities must look solely to the relevant Clearing Agent for his share of each such payment so made by the Issuer to, or to the order of, the holder of the Global Security or the relevant Clearing Agent, as applicable.

If the Governing Law is specified, in the Product Terms, to be English Law, any claim to receive payments under the Securities, will become void unless the Global Security has been presented or the claim otherwise made in accordance with these Conditions within a period of five years (in relation to the payment of any Coupon Amount) and ten years (in relation to the payment of any other amount), in each case, after the Relevant Date therefor. As used herein, the "**Relevant Date**" means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the relevant Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Securityholders in accordance with §16.

If the Governing Law is specified, in the Product Terms, to be German Law, the presentation of the Global Security, if applicable, takes place by way of surrender of the respective co-ownership units of the Global Security to the account of the Issuer at the Clearing Agent. The time limit for presentation pursuant to section 801 subsection 1 sentence 1 of the German Civil Code relating to securities being payable has been reduced to 1 year. Any claim to receive payments under the Securities, which has been presented within the period, will become time-barred after a period of two years starting at the end of the time period for presentation and four years in relation to the payment of Coupon Amounts starting at the end of the relevant time period for presentation.

If the Governing Law is specified, in the Product Terms, to be Italian Law, the right to receive payment of interest lapses five years after the date on which such interest

becomes payable. The right to receive the repayment of the principal amount lapses ten years after the date on which the principal amount of the Securities became payable. The limitation on the right to receive the payment of interest and the repayment of the principal amount is for the benefit of the Issuer.

For the purposes of payments in respect of Spanish Securities, the right to receive payment of any Coupon Amounts which are payable yearly or in shorter periods lapses five years after the date on which such Coupon Amount becomes payable and the right to receive payment of any other Coupon Amounts or any amount(s) payable in respect of principal lapses fifteen years after the date on which any relevant amount becomes payable. The limitation on the right to receive such payments is for the benefit of the Issuer.

The election will have effect as follows:

- (i) where the Settlement Currency is the National Currency Unit of a country which is participating in the third stage of European Economic and Monetary Union, such Settlement Currency shall be deemed to be an amount of euro converted from the original Settlement Currency into euro at the Established Rate, subject to such provisions (if any) as to rounding as the Issuer may decide and as may be specified in the notice, and after the Adjustment Date, all payments in respect of the Securities will be made solely in euro as though references in the Conditions to the Settlement Currency were to euro;
- (ii) where the Conditions contain a rate of exchange or any of the Conditions are expressed in a currency (the "**Original Currency**") of a country which is participating in the third stage of European Economic and Monetary Union, such rate of exchange and/or any other terms of the Conditions shall be deemed to be expressed in or, in the case of a rate of exchange, converted for or, as the case may be into, euro at the Established Rate; and

(2) Adjustment

The Issuer may, without the consent of the Securityholders, on giving notice to the Securityholders in accordance with §16, make such adjustments to the Conditions as the Issuer may determine to be appropriate to account for the effect on the Conditions of the third stage of European Economic and Monetary Union pursuant to the Treaty.

(3) Associated Costs

Notwithstanding the provisions of para. 1 and 2 above, none of the Issuer, the Calculation Agent and any Agent shall be liable to any Securityholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of euro or any currency conversion or rounding effected in connection therewith.

- (iii) "**National Currency Unit**" means the unit of the currency of a country, as those units are defined on the day before the start of the third stage of European Economic and Monetary Union or, in connection with the expansion of such third stage, to any country which has not initially participated in such third stage.

§18 Modifications

The Issuer may, to the extent permitted by applicable law and subject as provided below, modify the Conditions and/or the applicable Final Terms without the consent of the Securityholders or any of them in any manner which the Issuer may deem reasonably necessary (i) in order to maintain or preserve the intended commercial purpose of the Conditions and/or the applicable Final Terms; or (ii) if such modification does not materially adversely affect the interests of the Securityholders or is of a formal, minor or technical nature or intended to correct a manifest or proven error or to cure, correct or supplement any defective provision contained therein. Notice of any such modification will be given to the Securityholders in accordance with §16 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

The Issuer may exercise the above discretion for the reasons or in the circumstances described above (i.e. in order to maintain or preserve the intended commercial purpose of the Conditions and/or the applicable Final Terms or if such modification does not materially adversely affect the interests of the Securityholders or is of a formal, minor or technical nature or is intended to correct any errors or defective provisions in the Conditions and/or the applicable Final Terms). In each of these cases the Issuer will first satisfy itself that the exercise of the discretion is reasonably necessary and it will consider if there is any reasonable alternative which would not incur additional material costs for the Issuer and/or its Affiliates. Following any modification pursuant to this §18, the Issuer may at its discretion amend and restate the applicable Final Terms.

§19 Severability

If any of the provisions of the Conditions is or becomes invalid or unenforceable in whole or in part, the validity and enforceability of the remaining provisions shall not in any way be affected or impaired thereby. The invalid or unenforceable provision shall be replaced by a valid provision, which, to the extent legally possible, serves the economic purposes of the invalid or unenforceable provision. The same applies to any gaps in the Conditions.

If the Governing Law is specified, in the Product Terms, to be English Law, the courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Securities (including a dispute relating to any non-contractual obligations arising out of or in connection with the Securities).

Subject as provided below, if the Governing Law is specified, in the Product Terms, to be German Law, the Securities are governed by, and shall be construed in accordance with, German law. Obligations of Deutsche Bank AG under the Securities will be performed only through Deutsche Bank AG, Milan Branch and the place of performance of any obligation of the Issuer under the Conditions is Milan. Subject as provided below, if the Governing Law is specified, in the Product Terms, to be Spanish Law, the Securities are governed by, and shall be construed in accordance with, Spanish law. The exclusive place of jurisdiction for all proceedings arising from matters provided for in the Conditions shall, to the extent legally permitted, be, and any such legal proceedings shall be held before the courts of, Madrid. All the obligations of the Issuer under the Conditions are to be performed exclusively from Madrid through Deutsche Bank AG, Sucursal en Espana and all payments are to be originated in Madrid for all purposes. As a consequence, in the event that, for reasons outside of its control, the Issuer is unable

VI. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

A. GENERAL TAXATION INFORMATION

1. Introduction

Purchasers and/or sellers of Securities may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of transfer in addition to the issue price or purchase price of the Securities.

Transactions involving the Securities (including purchases, transfers, exercise or non-exercise or redemption, the accrual or receipt of any interest payable on the Securities and the death of a holder of any Securities) may have tax consequences for holders and potential purchasers which may depend, amongst other things, upon the tax status of the holder or potential purchaser and may relate to – amongst other taxes and duties – stamp duty, stamp duty reserve tax, income tax, corporation tax, trade tax, capital gains tax, withholding tax, solidarity surcharge and inheritance tax.

For more specific information on the tax consequences please see the appropriate Country Specific and Other Sales Information section in Part B of the applicable Final Terms.

§10 (Taxation) in the General Conditions should also be considered carefully by all potential purchasers of any Securities.

Potential purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of transactions involving the Securities.

2. Luxembourg

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

2.1 Non-resident holders of Securities

Under Luxembourg general tax laws currently in force and subject to the law of 21 June 2005 (the **Laws**) mentioned below, there is no withholding tax on payments of principal, premium or interest made to non-residents holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident holders of Securities.

However, under the Laws implementing the Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the **Territories**), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which are resident of, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Securities coming within the scope of the Laws would at present be subject to withholding tax of 35%.

2.2 Resident Holders of Securities

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Securities, nor on accrued but unpaid interest in respect of Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Securities held by Luxembourg resident holders of Securities.

However, under the Luxembourg law of 23 December 2005 (the **Law**) payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 10%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Securities coming within the scope of the Law would be subject to withholding tax of 10%.

3. Germany

The following is a general discussion of certain German tax consequences of the acquisition, holding and disposal of Securities. It does not purport to be a comprehensive description of all German tax considerations that may be relevant to a decision to purchase Securities, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws of Germany currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

As each Series of Securities may be subject to a different tax treatment due to the specific terms of such Series as set out in the respective Final Terms, the following section only provides some general information on the possible tax treatment.

Prospective purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposal of Securities, including the effect of any state, local or church taxes, under the tax laws of Germany and each country of which they are residents or otherwise subject to tax.

Tax Residents

The section "Tax Residents" refers to persons who are tax residents of Germany (*i.e.* persons whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany). "Individual Securityholder" means an individual that is considered the owner of a Security for German tax purposes and whose Security forms part of his or her non-business assets (*Privatvermögen*).

Withholding tax on ongoing payments and capital gains

Ongoing payments received by an Individual Securityholder will be subject to German withholding tax if the Securities are kept in a custodial account with a German branch of a German or non-German bank or financial services institution, a German securities trading company or a German securities trading bank (each, a **Disbursing Agent**, *auszahlende Stelle*). The tax rate is 25 per cent. (plus solidarity surcharge at a rate of 5.5 per cent. thereon, the total withholding being 26.375 per cent.). If the Individual Securityholder is subject to church tax, upon application a church tax surcharge will also be withheld.

The same treatment applies to capital gains (*i.e.* the difference between the proceeds from the disposal, redemption, payment or assignment after deduction of expenses directly related to the disposal, disposal, payment or assignment and the cost of acquisition) derived by an Individual Securityholder provided the Securities have been held in a custodial account with the same Disbursing Agent since the time of their acquisition. Where Securities are issued in a currency other than Euro any currency gains or losses are part of the capital gains. If

interest coupons or interest claims are disposed of separately (i.e. without the Securities), the proceeds from the disposition are subject to withholding tax. The same applies to proceeds from the redemption of interest coupons or interest claims if the Securities have been disposed of separately. In case of a physical settlement of certain Securities which grant the Issuer or the Individual Securityholder the right to opt for a physical delivery of a predetermined number of underlying securities instead of a (re)payment of the Securities' nominal amount, generally no withholding tax has to be withheld by the Disbursing Agent as such exchange of the Securities into the predetermined number of underlying securities does not result in a taxable gain or loss for the Individual Securityholder. Under these circumstances acquisition costs of the Securities are regarded as acquisition costs of the underlying securities received by the Individual Securityholder upon physical settlement. However, withholding tax may then apply to any gain from the disposal, redemption, repayment or assignment of the securities received in exchange for the Securities. In this case, the gain will be the difference between the proceeds from the disposal, redemption, repayment or assignment of the underlying securities and the acquisition costs of the Securities (after deduction of expenses related directly to the disposal, if any). In other cases, e.g. where the Security has no nominal amount or the underlying is not a security, the physical settlement may trigger withholding tax that would be payable by the Individual Securityholder to the Disbursing Agent.

To the extent the Securities have not been kept in a custodial account with the same Disbursing Agent since the time of acquisition, upon the disposal, redemption, repayment or assignment withholding tax applies at a rate of 26.375 per cent. (including solidarity surcharge) to 30 per cent. of the disposal proceeds (including interest accrued on the Securities and paid separately (**Accrued Interest**, *Stückzinsen*), if any), unless the current Disbursing Agent has been notified of the actual acquisition costs of the Securities by the previous Disbursing Agent or by a statement of a bank or financial services institution within the European Economic Area or certain other countries in accordance with art. 17 para. 2 of the EC Council Directive 2003/48/EC (e.g. Switzerland or Andorra).

In computing any German tax to be withheld, the Disbursing Agent may - subject to certain requirements and restrictions - deduct from the basis of the withholding tax negative investment income realised by the Individual Securityholder via the Disbursing Agent (e.g. losses from sale of other securities with the exception of shares). The Disbursing Agent may also deduct Accrued Interest on the Securities or other securities paid separately by the Individual Securityholder upon the acquisition of the respective security via the Disbursing Agent. In addition, subject to certain requirements and restrictions the Disbursing Agent may credit foreign withholding taxes levied on investment income in a given year regarding securities held in the custodial account with the Disbursing Agent to the extent such foreign withholding taxes cannot be reclaimed in the respective foreign country.

In addition, for Individual Securityholders an annual allowance (*Sparer-Pauschbetrag*) of Euro 801 (Euro 1,602 for married couples filing jointly) applies to all investment income received in a given year. Upon the Individual Securityholder filing an exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent, the Disbursing Agent will take the allowance into account when computing the amount of tax to be withheld. No withholding tax will be deducted if the Securityholder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the competent local tax office.

German withholding tax will not apply to gains from the disposal of Securities held by a corporation as Securityholder while ongoing payments, such as interest payments under a coupon, are subject to withholding tax. Losses and foreign taxes are not taken into account when calculating the withholding tax. The same rules apply where the Securities form part of a trade or business (*Betriebsvermögen*) subject to further requirements being met.

Taxation of current income and capital gains

The personal income tax liability of an Individual Securityholder deriving income from capital investments under the Securities is, in principle, settled by the tax withheld. To the extent withholding tax has not been levied, such as in case of Securities kept in custody abroad or if no Disbursing Agent is involved in the payment process or if the withholding tax on disposal, redemption, repayment or assignment has been calculated from 30 per cent. Of the disposal proceeds (rather than from the actual gain), the Individual Securityholder must report his or her income and capital gains derived from the Securities on his or her tax return and then will also be taxed at a rate of 25 per cent. (plus solidarity surcharge and church tax thereon, where applicable). Further, an Individual Securityholder may request that all investment income of a given year is taxed at his or her lower individual tax rate based upon an assessment to tax with any withholding tax withheld in excess of the tax assessed being refunded. In each case, the deduction of expenses (other than transaction costs) on an itemized basis is disallowed. The utilization of losses from the disposal, redemption, repayment or assignment of Securities may be restricted. Any losses realised upon the disposal of shares in stock corporations received in exchange for the Securities can only be offset against capital gains deriving from the disposal of shares. Losses from a worthless expiration of financial instruments representing an option (such as warrants) may be non-deductible altogether.

Where Securities form part of a trade or business or the income from the Securities qualifies as income from the letting and leasing of property the withholding tax, if any, will not settle the personal or corporate income tax liability. Where Securities form part of the property of a trade or business interest (accrued) must be taken into account as income. Where Securities qualify as zero bonds and form part of a trade or business, each year the part of the difference between the issue or purchase price and the redemption amount attributable to such year must be taken into account as interest income. The respective Securityholder will have to report income and related (business) expenses on the tax return and the balance will be taxed at the Securityholder's applicable tax rate. Withholding tax levied, if any, will be credited against the personal or corporate income tax of the Securityholder. Where Securities form part of the property of a German trade or business the current income and the proceeds from the disposal, redemption, repayment or assignment of the Securities may also be subject to German trade tax.

German Investment Tax Act

German tax consequences different from those discussed above would arise if the respective Securities or the underlying securities delivered upon physical delivery are, or were to be regarded as, investment fund units within the meaning of the German Investment Tax Act. In such case, the withholding tax requirements for the Disbursing Agent as well as the taxation of the German holders would depend on whether the disclosure and reporting requirements of the German Investment Tax Act were fulfilled. The German holder may be subject to tax on unrealised income or, in case the reporting and disclosure requirements are not fulfilled, on fictitious income on a lump-sum basis (so-called penalty-taxation). Such deemed distributed income or fictitious income may be offset against any capital gains realised upon disposal of the Securities or the underlying securities received, respectively, subject to certain requirements.

Non-residents

Interest, including Accrued Interest, and capital gains are not subject to German taxation, unless (i) the Securities form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the Securityholder; or (ii) the income otherwise constitutes German-source income. In cases (i) and (ii) a tax regime similar to that explained above under "*Tax Residents*" applies.

Non-residents of Germany are, in general, exempt from German withholding tax on interest and the solidarity surcharge thereon. However, where the interest is subject to German taxation as set forth in the preceding paragraph and the Securities are held in a custodial

account with a Disbursing Agent, withholding tax may be levied under certain circumstances. Where Securities are not kept in a custodial account with a Disbursing Agent and interest or proceeds from the disposal, assignment or redemption of a Security are paid by a Disbursing Agent to a non-resident, withholding tax generally will also apply. The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Securities will arise under the laws of Germany, if, in the case of inheritance tax, neither the deceased nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Security is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

Other Taxes

No stamp, issue or registration taxes or such duties will be payable in Germany in connection with the issuance, delivery or execution of the Securities. Currently, net assets tax is not levied in Germany.

4. United Kingdom

(A) NOTES

The following applies only to persons who are the beneficial owners of Notes and is a summary of the Issuer's understanding of current law and practice in the United Kingdom relating only to United Kingdom withholding tax treatment of payments of principal and interest in respect of Notes. It does not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of Notes. The United Kingdom tax treatment of prospective holder of Notes depends on their individual circumstances and may be subject to change in the future. Prospective holders of Notes who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Withholding tax

(i) *Notes issued by the Issuer otherwise than through its London branch*

Payment of interest on the Notes may be made without withholding or deduction for or on account of United Kingdom income tax

(ii) *Notes issued by the Issuer through its London branch*

Payments of interest on the Notes may be made without deduction of or withholding on account of United Kingdom income tax provided that the Notes are and continue to be listed on a "recognised stock exchange" within the meaning of section 1005 of the Income Tax Act 2007. The Luxembourg Stock Exchange is a recognised stock exchange. The Notes will satisfy this requirement if they are officially listed in Luxembourg in accordance with provisions corresponding to those generally applicable in EEA states and are admitted to trading on the Luxembourg Stock Exchange. Provided, therefore, that the Notes are and remain so listed, interest on the Notes will be payable without withholding or deduction on account of United Kingdom tax.

Interest on the Notes may also be paid without withholding or deduction on account of United Kingdom tax where interest on the Notes is paid by a company and, at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on the Notes is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HM Revenue & Customs ("**HMRC**") has not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

Interest on the Notes may also be paid without withholding or deduction on account of United Kingdom tax where the maturity of the Notes is less than 365 days and those Notes do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Notes on account of United Kingdom income tax at the basic rate (currently 20%). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a holder of Notes, HMRC can issue a notice to the Issuer to pay interest to the holder of Notes without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Reporting of Information

Holders of Notes may wish to note that, in certain circumstances, HMRC has power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays or credits interest to or receives interest for the benefit of a holder of Notes. HMRC also has power, in certain circumstances, to obtain information from any person in the United Kingdom who pays amounts payable on the redemption of Notes which are deeply discounted securities for the purposes of the Income Tax (Trading and Other Income) Act 2005 to or receives such amounts for the benefit of another person, although HMRC published practice indicates that HMRC will not exercise the power referred to above to require this information in respect of amounts payable on the redemption of deeply discounted securities where such amounts are paid on or before 5 April 2012. Such information may include the name and address of the beneficial owner of the amount payable on redemption. Any information obtained may, in certain circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the holder of Notes is resident for tax purposes.

Information may also be required to be reported in accordance with regulations made pursuant to the EU Savings Directive (see below).

(B) WARRANTS AND CERTIFICATES

*The following applies only to persons who are the beneficial owners of Warrants or Certificates ("**W&C Securities**") and is a summary of the Issuer's understanding of current law and practice in the United Kingdom relating only to United Kingdom withholding tax treatment of income payments in respect of the W&C Securities. It does not deal with any other United Kingdom taxation implications of acquiring, holding, exercising or disposing of W&C Securities. The United Kingdom tax treatment of prospective holder of W&C Securities depends on their individual circumstances and may be subject to change in the future. Prospective holders of W&C Securities who may be subject to tax in a jurisdiction other than*

the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Withholding Tax

(i) *W&C Securities issued by the Issuer otherwise than through its London branch*

The Issuer should not be required to withhold or deduct sums for or on account of United Kingdom income tax from payments made under the W&C Securities.

(ii) *W&C Securities issued by the Issuer through its London branch*

The Issuer should not be required to withhold or deduct sums for or on account of United Kingdom income tax from payments made under the W&C Securities that are treated as derivatives for the purposes of Financial Reporting Standard 25 (or International Accounting Standard 32).

Payments made under W&C Securities that are not treated as derivatives for the purposes of Financial Reporting Standards 25 (or International Accounting Standard 32) may be made without deduction or withholding on account of United Kingdom income tax where such payments are not regarded as interest or annual payments for United Kingdom tax purposes.

Reporting of Information

In relation to any W&C Security under which any amounts which are characterised as interest are payable, holders of W&C Securities may wish to note that, in certain circumstances, HMRC has power to obtain information (including the name and address of the beneficial owner) from any person in the United Kingdom who either pays or credits interest to or receives interest for the benefit of a holder of W&C Securities. Any information obtained may, in certain circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the holder of W&C Securities is resident for tax purposes.

Information may also be required to be reported in accordance with regulations made pursuant to the EU Savings Directive (see below).

5. Italy

The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Prospectus and are subject to any changes in law occurring after such date, which could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.

Prospective purchasers of Securities should consult their tax advisers as to the overall consequences of acquiring, holding and disposing of the Securities.

Tax treatment of the Securities qualifying as Notes issued by an Italian resident Issuer

Legislative Decree No. 239 of 1 April 1996 ("**Decree 239**"), as subsequently amended, provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from Securities issued, *inter alia*, by Italian banks, falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) (the "**Notes**"). For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value.

Italian resident holders

Where an Italian resident holder is (i) an individual not engaged in an entrepreneurial activity to which the Notes are connected (unless the individual has opted for the application of the "*risparmio gestito*" regime – see "*Capital Gains Tax*" below), (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to the Notes are subject to a tax withheld at source, referred to as *imposta sostitutiva*, levied at the rate of 20 per cent. If the holders described under (i) or (iii) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident holder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant holder's annual income tax return and are therefore subject to general Italian corporate taxation ("**IRES**") (and in certain circumstances, depending on the "*status*" of the holder, also to **IRAP** -the regional tax on productive activities).

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001, as clarified by the Italian Revenue Agency (*Agenzia delle Entrate*) through Circular No. 47/E of 8 August 2003, payments of interest, premiums or other proceeds in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, or pursuant to Article 14-bis of Law No. 86 of 25 January 1994 are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of a real estate investment fund.

If the investor is resident in Italy and is an open-ended or closed-ended investment fund (the "**Fund**") or a SICAV, and the relevant Notes are held by an authorised intermediary, interest, premium and other income accrued during the holding period on such Notes will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund or the SICAV. The Fund or SICAV will not be subject to taxation on such results but a substitute tax of 20 per cent. will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders (the "**Collective Investment Fund Substitute Tax**").

Where an Italian resident holder is a pension fund (subject to the regime provided for by Article 17 of Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 11 per cent. substitute tax.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a Decree of the Ministry of Economy and Finance (each an "**Intermediary**").

An Intermediary must (i) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (ii) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a holder.

Non-Italian resident holders

Where the holder is a non-Italian resident without a permanent establishment in Italy to which the Notes are connected, an exemption from the *imposta sostitutiva* applies provided that the non-Italian resident beneficial owner is either (i) resident, for tax purposes, in a country that allows for a satisfactory exchange of information with Italy; or (ii) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or (iii) a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (iv) an institutional investor which is incorporated in a country which allows for a satisfactory exchange of information with Italy, even if it does not possess the status of a taxpayer in its own country of residence.

The *imposta sostitutiva* will be applicable at the rate of 20 per cent. (or at the reduced rate provided for by the applicable double tax treaty, if any) to interest, premium and other income paid to holders which are resident, for tax purposes, in countries which do not allow for a satisfactory exchange of information with Italy. Please note that according to the Law No. 244 of 24 December 2007 ("**Budget Law 2008**") a Decree still to be issued should introduce a new "white list" replacing the current "black list" system, so as to identify those countries which (i) allow for a satisfactory exchange of information; and (ii) do not have a more favourable tax regime.

In order to ensure gross payment, non-Italian resident holders must be the beneficial owners of the payments of interest, premium or other income and (i) deposit, directly or indirectly, the Notes with a resident bank or SIM or a permanent establishment in Italy of a non-Italian resident bank or SIM or with a non-Italian resident entity or company participating in a centralised securities management system which is in contact, via computer, with the Ministry of Economy and Finance; and (ii) file with the relevant depository, prior to or concurrently with the deposit of the Notes, a statement of the relevant holder, which remains valid until withdrawn or revoked, in which the holder declares to be eligible to benefit from the applicable exemption from *imposta sostitutiva*. Such statement, which is not requested for international bodies or entities set up in accordance with international agreements which have entered into force in Italy or in the case of foreign Central Banks or entities which manage, *inter alia*, the official reserves of a foreign State, must comply with the requirements set forth by Ministerial Decree 12 December, 2001.

Tax treatment of the Securities qualifying as Notes issued by a non-Italian resident Issuer

Decree 239 provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from Notes issued, *inter alia*, by non-Italian resident issuers and which embed

the unconditional obligation of the issuer to fully repay the principal invested upon redemption.

Italian resident holders

Where the Italian resident holder is (i) an individual not engaged in an entrepreneurial activity to which the Notes are connected (unless he has opted for the application of the *risparmio gestito regime* – see "Capital Gains Tax" below), (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to the Notes, accrued during the relevant holding period, are subject to a withholding tax, referred to as *imposta sostitutiva*, levied at the rate of 20 per cent. In the event that the holders described under (i) and (iii) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident holder of a Note is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant holder's income tax return and are therefore subject to general IRES taxation (and, in certain circumstances, depending on the "status" of the holder, also to IRAP).

Under the current regime provided by Law Decree No. 351 of 25 September 2001, converted into law with amendments by Law No. 410 of 23 November 2001, as clarified by the Italian Revenue Agency (*Agenzia delle Entrate*) through Circular No. 47/E of 8 August 2003, payments of interest in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 are subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund.

If the investor is resident in Italy and is a Fund or a SICAV and the Notes are held by an authorised intermediary, interest, premium and other income accrued during the holding period on the Notes will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund or the SICAV. The Fund or SICAV will not be subject to taxation on such result, but the Collective Investment Fund Substitute Tax of 20 per cent. will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders.

Where an Italian resident holder of a Note is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 11 per cent. substitute tax.

Pursuant to Decree 239, *imposta sostitutiva* is applied by an Intermediary. An Intermediary must (i) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (ii) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a holder of a Note.

Non-Italian Resident holders

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident holder of Notes of interest or premium relating to the Notes provided that, if the Notes are deposited with an Intermediary in Italy, the non-Italian resident holder of Notes declares itself to be a non-Italian resident according to Italian tax regulations.

Atypical securities

Interest payments relating to Securities that are neither deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) nor W&C Securities (as defined below) would be subject to a withholding tax, levied at the rate of 20 per cent.. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay an amount not lower than their nominal value.

In the case of Securities issued by an Italian resident issuer, where the holder is (i) an Italian individual engaged in an entrepreneurial activity to which the Securities are connected, (ii) an Italian company or a similar commercial entity, (iii) a permanent establishment in Italy of a foreign entity to which the Securities are connected, (iv) an Italian commercial partnership, or (v) an Italian commercial private or public institution, such withholding tax is a provisional withholding tax. In all other cases, the withholding tax is a final withholding tax.

If the Securities are issued by a non-Italian resident issuer, the withholding tax mentioned above does not apply to payments made to a non-Italian resident holder and to an Italian resident holder which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (ii) a commercial partnership, or (iii) a commercial private or public institution.

Capital Gains Tax

Any gain obtained from the sale or redemption of the Securities would be treated as part of the taxable income (and, in certain circumstances, depending on the "status" of the holder, also as part of the net value of production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Securities are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Securities are connected.

Where an Italian resident holder of Securities is an individual not holding the Securities in connection with an entrepreneurial activity and certain other persons, any capital gain realised by such holder of Securities from the sale or redemption of the Securities would be subject to an *imposta sostitutiva*, levied at the current rate of 20 per cent. Holders of Securities may set off losses with gains.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the "tax declaration" regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in entrepreneurial activity to which the Securities are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individuals holding Securities not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Securities carried out during any given tax year. Italian resident individuals holding Securities not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Securities (the *risparmio amministrato* regime). Such separate taxation of capital gains is allowed subject to (i) the Securities being deposited with Italian banks, SIMs or certain authorised financial intermediaries; and (ii) an express election for the *risparmio amministrato* regime being punctually made in writing by the relevant holder of Securities. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Securities (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the holder of Securities or using funds provided by the holder of Securities for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Securities results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the holder of Securities is not required to declare the capital gains in its annual tax return.

Any capital gains realised by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Securities, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 20 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may

be carried forward against any increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the holder of Securities is not required to declare the capital gains realised in its annual tax return.

Any capital gains realised by a holder of Securities which is a Fund or a SICAV will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio. Such result will not be taxed with the Fund or SICAV, but subsequent distributions in favour of unitholders or shareholders may be subject to the Collective Investment Fund Substitute Tax.

Any capital gains realised by a holder of Securities which is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 11 per cent. substitute tax.

Under the current regime provided by Law Decree No. 351 of 25 September 2001, converted into law with amendments by Law No. 410 of 23 November 2001, as clarified by the Italian Revenue Agency (*Agenzia delle Entrate*) through Circular No. 47/E of 8 August 2003, capital gains realised from the disposal of the Securities by Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 are subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund.

Capital gains realised by non-Italian resident holder of Securities from the sale or redemption of the Securities issued by an Italian resident issuer and traded on regulated markets are not subject to the *imposta sostitutiva*.

Capital gains realised by non-Italian resident holders from the sale and redemption of Securities issued by an Italian resident issuer not traded on regulated markets are not subject to the *imposta sostitutiva* provided that the effective beneficiary: (a) is resident in a country which allows for a satisfactory exchange of information with Italy; or (b) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (c) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) is an institutional investor which is resident in a country which allows for a satisfactory exchange of information with Italy, even if it does not possess the status of tax payer in its own country of residence.

Please note that, according to the Budget Law 2008, a Decree still to be issued will introduce a new "white list" replacing the current "black list" system, so as to identify those countries which (i) allow for a satisfactory exchange of information and (ii) do not have a more favourable tax regime.

If none of the conditions above are met, capital gains realised by non-Italian resident holders from the sale or redemption of Securities issued by an Italian resident Issuer, not traded on regulated markets, are subject to the *imposta sostitutiva* at the current rate of 20 per cent.

In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Securities are connected, that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of Securities are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale or redemption of Securities.

Capital gains realised by non-Italian resident holders from the sale and redemption of Securities issued by a non Italian resident issuer are not subject to Italian taxation, provided that the Securities are (i) traded on regulated markets, or (ii) if not traded, are held outside Italy.

Tax treatment of Securities qualifying as W&C Securities issued by an Italian issuer or by a non-Italian issuer

The following regime may apply to interest or premium deriving from Securities that (i) do not qualify as bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) and (ii) do not generate income from the investment of capital (*reddito di capitale*) pursuant to the Article 44 of Presidential Decree No. 917 of 22 December 1986 (the "**Italian Income Tax Consolidated Code**" or "**IITCC**"), but are deemed to produce other income (*redditi diversi*) for Italian tax purposes, pursuant to Article 67 (1)(c-*quater* and c-*quinquies*) of the IITCC. Securities falling within this category are referred to as "**W&C Securities**".

Pursuant to Article 67 of the IITCC and Legislative Decree No. 461 of 21 November 1997, as subsequently amended, where the Italian resident investor is (i) an individual not engaged in an entrepreneurial activity to which the W&C Securities are connected, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, capital gains accrued under the sale or the exercise of the W&C Securities are subject to a 20 per cent. substitute tax (*imposta sostitutiva*). The recipient may opt for the three different taxation criteria, *regime della dichiarazione*, *risparmio amministrato* and *risparmio gestito* described in the "*Capital Gains Tax*" paragraph above.

Where an Italian resident investor is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the W&C Securities are effectively connected, capital gains arising from the W&C Securities will not be subject to *imposta sostitutiva*, but must be included in the relevant investor's income tax return and are therefore subject to Italian corporate tax and, in certain circumstances, depending on the "status" of the investors also as a part of the net value of production for IRAP purposes.

Any capital gains realised by a holder of W&C Securities which is a Fund or a SICAV will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio. Such result will not be taxed with the Fund or SICAV, but subsequent distributions in favour of unitholders or shareholders may be subject to the Collective Investment Fund Substitute Tax. Any capital gains realised by a holder of W&C Securities which is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 11 per cent. substitute tax.

Under the current regime provided by Law Decree No. 351 of 25 September 2001, converted into law with amendments by Law No. 410 of 23 November 2001, as clarified by the Italian

Revenue Agency (*Agenzia delle Entrate*) through Circular No. 47/E of 8 August 2003, capital gains realised from the disposal of the W&C Securities by Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 are subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund.

Capital gains realised by non-Italian resident holders from the sale and redemption of W&C Securities issued by an Italian resident issuer are not subject to Italian taxation, provided that the W&C Securities (i) are transferred on regulated markets, or (ii) are held outside of Italy.

Capital gains realised by non-Italian resident holders from the sale and redemption of W&C Securities issued by an Italian resident issuer not transferred on regulated markets are not subject to the *imposta sostitutiva* provided that the effective beneficiary: (a) is resident in a country which allows for a satisfactory exchange of information with Italy; or (b) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (c) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) is an institutional investor which is resident in a country which allows for a satisfactory exchange of information with Italy, even if it does not possess the status of tax payer in its own country of residence.

Please note that, according to the Budget Law 2008, a Decree still to be issued will introduce a new "white list" replacing the current "black list" system, so as to identify those countries which (i) allow for a satisfactory exchange of information and (ii) do not have a more favourable tax regime.

If none of the conditions above are met, capital gains realised by non-Italian resident holders from the sale or redemption of W&C Securities issued by an Italian resident Issuer, not traded on regulated markets, are subject to the *imposta sostitutiva* at the current rate of 20 per cent.

In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the W&C Securities are connected, that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of W&C Securities are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale or redemption of W&C Securities.

Capital gains realised by non-Italian resident holders from the sale and redemption of W&C Securities issued by a non-Italian resident issuer are not subject to Italian taxation, provided that the W&C Securities are (i) transferred on regulated markets, or (ii) are held outside Italy.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, as subsequently amended, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (i) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding €1,000,000;

- (ii) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding € 100,000; and
- (iii) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

Transfer tax

Following the repeal of the Italian transfer tax, as from 31 December 2007 contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarized deeds are subject to fixed registration tax at rate of €168; (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

EU Savings Directive

See paragraph 8 below.

Implementation in Italy of the EU Savings Directive

Italy has implemented the EU Savings Directive through Legislative Decree No. 84 of 18 April 2005 ("**Decree 84**"). Under Decree 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, Italian qualified paying agents shall report to the Italian Tax Authorities details of the relevant payments and personal information on the individual beneficial owner and shall not apply the withholding tax. Such information is transmitted by the Italian Tax Authorities to the competent foreign tax authorities of the State of residence of the beneficial owner.

6. Spain

The following is a summary of current Spanish law and practice relating to the withholding tax treatment of the Securities. The statements herein regarding Spanish taxes and withholding taxes in Spain are based on the laws in force as well as administrative interpretations thereof in Spain as at the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective holders or beneficial owners of the Securities are advised to consult their own tax advisers concerning the overall tax consequences of their ownership and disposition of the Securities.

Tax Treatment of Securities Issued by Entities Other Than Deutsche Bank AG, Sucursal en España

(A) SPANISH WITHHOLDING TAX

Where Securities are issued by an Issuer which is not a Spanish tax resident entity and does not have a permanent establishment in Spain to which the issue of the Notes and Certificates is connected, the Issuer should not be obliged to deduct withholdings on account of Spanish income taxes. Income from Warrants will always be exempt from withholding in Spain.

Where a financial institution (either resident in Spain or acting through a permanent establishment in Spain) acts as depositary of the Notes and Certificates or intervenes as manager on the collection of any income under the Notes and Certificates (acting in such role, a "**Relevant Financial Institution**"), such Relevant Financial Institution will be responsible for making the relevant withholding on account of Spanish tax on any income deriving from the Notes and Certificates.

The current withholding tax in Spain is 21 per cent. Amounts withheld in Spain, if any, can be credited against the final Spanish Personal Income Tax liability, in the case of Spanish resident individuals, or against Spanish final Corporate Income Tax liability, in the case of Spanish corporates, or against final Non-Residents Income Tax, in the case of Spanish permanent establishments of non-resident entities. However, holders of the Notes and Certificates who are Corporate Income Taxpayers or Non-Residents' Income Taxpayers acting through a Spanish permanent establishment can benefit from a withholding tax exemption when the Notes and Certificates are admitted to trading on an organised stock exchange in an OECD state (the "**OECD Exemption**").

Similarly, when the Notes and Certificates (i) are represented in book-entry form and (ii) are admitted to trading on a Spanish secondary stock exchange, holders who are Corporate Income Taxpayers can benefit from a withholding tax exemption (the "**Domestic Exemption**").

Additionally, when the Notes (i) are represented in book-entry form, (ii) are admitted to trading on a Spanish secondary stock exchange and (iii) generate explicit yield, holders who are Personal Income Taxpayers can benefit from a withholding tax exemption in respect of the income arising from the transfer or repayment of the Notes. However, under certain circumstances, when a transfer of the Notes has occurred within the 30-day period immediately preceding any relevant coupon payment date such holders may not be eligible for such withholding tax exemption. Non-Spanish tax resident investors, acting without a permanent establishment in Spain, who hold the Securities through a Relevant Financial Institution, will be required to evidence their non-Spanish tax resident status by delivering (and renewing on an annual basis) a certificate of tax residence issued by the competent authorities of their jurisdiction of residence prior to the date on which the relevant payment is made or becomes due.

Furthermore, any such Relevant Financial Institution may become obliged to comply with the formalities set out in Spanish tax regulations when intervening in the transfer or reimbursement of the Notes and Certificates.

Tax Treatment of Securities Issued by Deutsche Bank AG, Sucursal en España

(A) INDIRECT TAXES

Whatever the nature and residence of the investor, the acquisition and transfer of the Securities will be exempt from indirect taxes in Spain, i.e. exempt from Transfer Tax and Stamp Duty and exempt from Value Added Tax.

(B) NOTES AND CERTIFICATES

(i) Personal Income Tax - *Individuals with tax residence in Spain*

Withholding tax will apply at the applicable rate (currently 21 per cent.) in respect of interest payments made under the Notes and Certificates. In addition, income obtained upon transfer, redemption or repayment of the Notes and Certificates may also be subject to Personal Income Tax withholdings. Notwithstanding this, when the Notes (i) are represented in book-entry form, (ii) are admitted to trading on a Spanish secondary stock exchange and (iii) generate explicit yield, holders can benefit from a withholding tax exemption in respect of the income arising from the transfer or reimbursement of the Notes. However, under certain circumstances, when a transfer of the Notes has occurred within the 30-day period

immediately preceding any relevant coupon payment date such holders may not be eligible for such withholding tax exemption.

In any event, holders who are resident for tax purposes in Spain may credit any withholding tax suffered on income obtained under the Notes and Certificates against their final Personal Income Tax liability for the relevant fiscal year.

Financial institutions (either resident in Spain or acting through a permanent establishment in Spain), acting as depositary of the Notes and Certificates or intervening as manager in the collection of any income under the Notes and Certificates, may become obliged to comply with the formalities set out in the regulations developing the Law on Spanish Personal Income Tax when intervening in the transfer or repayment of the Notes and Certificates.

(ii) Corporate Income Tax - *Legal Entities with tax residence in Spain*

Any income arising from the Notes and Certificates is, as a general rule, subject to withholding tax at the applicable rate (currently 21 per cent.). However, in accordance with Section 59(s) of regulations developing the Law on Corporate Income Tax, Spanish Corporate Income Taxpayers (which for the sake of clarity, include Spanish tax resident funds and Spanish tax resident pension funds) can also benefit from the OECD Exemption.

The Spanish Directorate General of Taxes (*Dirección General de Tributos*) issued a ruling dated 27 July 2004 in which it determined that securities, such as the Notes and Certificates, issued in Spain may benefit from the OECD Exemption if the relevant securities are both admitted to trading on an organised stock exchange in an OECD state and placed in an OECD State other than Spain. Where this requirement is not met (i.e. when the securities are placed in the primary market within Spanish territory amongst Spanish tax resident or Spanish based investors), the Issuer will be required to make the corresponding withholdings.

Additionally, in accordance with Section 59(q) of regulations developing the Law on Corporate Income Tax, Spanish Corporate Income Taxpayers (which for the sake of clarity, include Spanish tax resident funds and Spanish tax resident pension funds) can also benefit from the Domestic Exemption.

Notwithstanding the above, amounts withheld (if any) may be credited by the relevant holders of Notes and Certificates against their final Corporate Income Tax liability.

Financial institutions (either resident in Spain or acting through a permanent establishment in Spain), acting as depositary of the Notes and Certificates or intervening as manager in the collection of any income under the Notes and Certificates, may become obliged to comply with the formalities set out in the regulations developing the Law on Corporate Income Tax when intervening in the transfer or reimbursement of the Notes and Certificates.

(iii) Non-resident Income Tax – Non-Resident Investors acting through a Permanent Establishment in Spain - *Individuals and Legal Entities with no tax residence in Spain*

Ownership of the Notes and Certificates by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

If the Notes and Certificates form part of the assets of a permanent establishment in Spain of a person or legal entity who is not resident in Spain for tax purposes, the tax rules applicable to income deriving from such Notes and Certificates are, generally, the same as those previously set out for Spanish Corporate Income Taxpayers. See “Corporate Income Tax - *Legal Entities with tax residence in Spain*”

(iv) Non-Resident Income Tax — Non-Spanish Tax Resident Investors not acting through a Permanent Establishment in Spain

Interest and other income deriving from the Notes and Certificates will be tax exempt in Spain and exempt from Spanish withholding tax when obtained by persons who are resident

for tax purposes in a Member State of the European Union (other than Spain) or by a permanent establishment of such persons in another Member State of the European Union (other than Spain), provided that such income is not obtained through a country or territory regarded as a tax haven (pursuant to Royal Decree 1080/1991, of 5 July) and provided further that any such person provides the Issuer with a certificate of tax residence issued by the competent authorities of their jurisdiction of residence prior to the date on which any relevant payment is made or becomes due. Such certificate is valid for a one-year period.

Holders of Notes and Certificates who are resident for tax purposes in a jurisdiction which has ratified a Treaty for the avoidance of Double Taxation with Spain ("**DTT**") will be subject to Non-Residents Income Tax and Spanish withholding tax on income obtained from the Notes and Certificates at the reduced rates (or subject to any exemption) set out in the DTT, if any. Such holders will have to evidence their tax residence by delivering to the Issuer, prior to the date on which any relevant payment is made or becomes due, a tax residence certificate within the meaning of the applicable DTT issued by the competent authorities of their jurisdiction of residence or, as the case may be, the equivalent document set out in the order which further develops the applicable DTT. Such certificate of tax residence is valid for a one-year period.

The Issuer will withhold from any interest payment and any income arising from the repayment of the Notes and Certificates at the general rate applicable from time to time, which is currently 21 per cent., or at the reduced rate set out in the applicable DTT, unless the application of a tax exemption is evidenced, as described above.

Notwithstanding the above, these holders will be tax exempt in Spain on any income arising from the transfer of the Notes and Certificates on a Spanish official secondary stock exchange, provided that they are resident in a jurisdiction which has ratified a DTT with Spain containing an exchange of information clause.

(C) WARRANTS

Any income arising from the Warrants will be exempt from withholding tax.

7. Portugal

for Portuguese Securities issued by Deutsche Bank AG acting through its Portuguese Branch and centralized in Interbolsa

The following is a summary of the current Portuguese tax treatment at the date hereof in relation to certain aspects of the Portuguese taxation of payments in respect of the Portuguese Securities that are Certificates, Warrants and Notes. The statements do not deal with other Portuguese tax aspects regarding such Portuguese Securities and relate only to the position of persons who are absolute beneficial owners of such Securities. The following is a general guide, does not constitute tax or legal advice and should be treated with appropriate caution. The holders of such Portuguese Securities who are in any doubt as to their tax position should consult their own professional advisers.

Income tax applicable to Certificateholders

The positive difference, if any, between the minimum amount guaranteed and the subscription price of the Certificates qualifies as investment income, which is subject to Personal Income Tax ("**PIT**") and Corporate Income Tax ("**CIT**") in Portugal and is therefore subject to withholding tax in Portugal (further details regarding the regime applicable in such circumstances are set out below). The relevant withholding, if applicable, to a given beneficial owner of Certificates will be made by the Affiliate Member of Interbolsa (which may or not be the Issuer) through which such beneficial owner holds the Certificates.

Any income arising from Certificates that do not guarantee a minimum income to the Certificateholders qualifies under Portuguese tax law as a capital gain and therefore no withholding tax applies.

PIT

Investment Income

Resident

Investment income arising from Certificates shall be withheld at the current withholding rate of 16.5 per cent. as from the moment the corresponding amounts are made available to the individual resident in Portugal for tax purposes. This withholding tax has the nature of a payment on account of the final tax due by the holder of the Certificates, who may be subject to tax at progressive rates of up to 46.5 per cent.. An additional income tax rate of 2.5 per cent. will be payable on the part of such taxable income that exceeds €EUR 153,300. Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 30 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply.

Non resident

Investment income obtained by non-resident individuals is subject to withholding tax at a rate of 25 per cent., which is the final tax on that income. A withholding tax rate of 30 per cent. applies in case of investment income payments to individuals resident in the countries and territories included in the Portuguese "blacklist" (countries and territories listed in Ministerial Order (*Portaria*) no. 150/2004, of 13 February 2004, amended by Ministerial Order (*Portaria*) no. 292/2011, 8 November 2011). Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 30 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply. Under the tax treaties entered into by Portugal that are in full force and effect on the date of this Prospectus, the withholding tax rate may be reduced depending on the applicable treaty and provided that the relevant formalities (including certification of residence by the tax authorities of the jurisdiction of residence of the beneficial owners of the investment income) are met.

CIT

Investment income

Resident

Investment income in respect of the Certificates obtained by legal persons resident in Portugal for tax purposes and by non-resident legal persons with a permanent establishment in Portugal to which the income is attributable, is included in the taxable income of such legal persons and is subject to a 25 per cent. tax rate applicable on the taxable income, to which may be added a municipal surcharge ("*derrama municipal*") of up to 1.5 per cent. of such taxable income. A State Surcharge ("*derrama estadual*") rate of 3 per cent. will be payable on the part of a corporate taxpayer's taxable profits exceeding EUR 1,500,000 and at a rate of 5 per cent. on the part of such taxable profits exceeding EUR 10,000,000.

As a general rule, withholding tax at a rate of 16.5 per cent. applies on investment income, any amounts so withheld being deemed to be a payment on account of the final tax due. Financial institutions, pension funds, retirement and/or education savings funds, share

savings funds, venture capital funds incorporated under the laws in Portugal and some exempt entities are not subject to Portuguese withholding tax. Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 30 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply.

Non resident

Investment income obtained by non-resident legal persons is subject to withholding tax at a rate of 25 per cent. which is the final tax payable on that income. A withholding tax rate of 30 per cent. applies in case of investment income payments to legal persons resident in the countries and territories included in the Portuguese "blacklist" (countries and territories listed in Ministerial Order (*Portaria*) no. 150/2004, of 13 February 2004, amended by Ministerial Order (*Portaria*) no. 292/2011, 8 November 2011). Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 30 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply. Under the tax treaties entered into by Portugal, which are in full force and effect on the date of this Prospectus, the withholding tax rate may be reduced depending on the applicable treaty and provided that the relevant formalities (including certification of residence by the tax authorities of the jurisdiction of residence of the beneficial owners of the investment income) are met.

Warrants

The income arising from transactions involving autonomous warrants qualifies as a capital gain, which is subject to Portuguese income tax. There is no Portuguese withholding tax on capital gains.

Notes

Economic benefits derived from interest, amortisation, reimbursement premiums and other instances of remuneration arising in respect of Notes are designated as investment income for Portuguese tax purposes.

General tax regime applicable to debt securities

Interest and other types of investment income obtained from Notes held by a Portuguese resident individual are subject to individual income tax. If payment of interest or other investment income is made available to Portuguese resident individuals, withholding tax applies at a rate of 25 per cent., which is the final tax payable on that income unless the individual elects to include such income in his taxable income (income being subject to tax at progressive rates of up to 46.5 per cent). An additional income tax rate of 2.5 per cent. will be payable on any part of such taxable income that exceeds EUR 153,300. Where an investor elects to include such investment income in his taxable income, the tax withheld is deemed to be a payment on account of the final tax due. Accrued interest qualifies as interest for tax purposes.

Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 30 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply.

Interest and other investment income derived from Notes obtained on such Notes by legal persons resident for tax purposes in Portugal and by non-resident legal persons with a permanent establishment in Portugal to which the income is attributable, are included in the

taxable income of such legal persons and are subject to a 25 per cent. tax rate, to which may be added a municipal surcharge ("*derrama municipal*") of up to 1.5 per cent. of such taxable income. A State Surcharge ("*derrama estadual*") rate of 3 per cent. will be payable on the part of a corporate taxpayer's taxable profits exceeding EUR 1,500,000 and at a rate of 5 per cent. on the part of such taxable profits exceeding EUR 10,000,000.

As a general rule, withholding tax at a rate of 25 per cent. applies on interest and other investment income, any amounts so withheld being deemed to be a payment on account of the final tax due. Financial institutions, pension funds, retirement and/or education savings funds, share savings funds, venture capital funds incorporated under the laws in Portugal and some exempt entities are not subject to Portuguese withholding tax.

Without prejudice to the special debt securities tax regime as described below, the general tax regime on debt securities applicable to non-resident entities is as follows:

Interest and other types of investment income obtained by non-resident beneficial owners (individuals or legal persons) without a Portuguese permanent establishment to which the income is attributable are subject to withholding tax at a rate of 25 per cent., which is the final tax payable on that income. A withholding tax rate of 30 per cent. applies in case of investment income payments to individuals or legal persons resident in the countries and territories included in the Portuguese "blacklist" (countries and territories listed in Ministerial Order (*Portaria*) no. 150/2004, of 13 February 2004, amended by Ministerial Order (*Portaria*) no. 292/2011, 8 November 2011). Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 30 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply. Under the tax treaties entered into by Portugal, which are in full force and effect on the date of this Prospectus, the withholding tax rate may be reduced to 15, 12, 10 or 5 per cent., depending on the applicable treaty and provided that the relevant formalities (including certification of residence by the tax authorities of the jurisdiction of residence of the beneficial owners of the interest and other investment income) are met. The reduction may apply at source or by way of a refund of the excess tax. The forms currently applicable for these purposes are (at the date of this Base Prospectus) available to download at www.portaldasfinancas.gov.pt.

The relevant withholding, if applicable, to a given beneficial owner of Notes will be made by the Affiliate Member of Interbolsa (which may or may not be the Issuer) through which such beneficial owner holds the Notes.

Special debt securities tax regime

Pursuant to Decree-Law no. 193/2005, of 7 November, as amended from time to time (hereinafter, "Decree-Law 193/2005"), investment income paid to Noteholders not resident in Portugal in respect of debt securities registered with a centralised system recognised by the Portuguese Securities' Code and complementary legislation (such as the *Central de Valores Mobiliários*, managed by Interbolsa) will be exempt from Portuguese income tax provided the following requirements are met.

For the above-mentioned tax exemption to apply, Decree-Law 193/2005 requires that (i) the Noteholders are not residents in the Portuguese territory (and do not have any registered or deemed permanent establishment therein to which interest is attributable); (ii) the Noteholders are not residents in the countries and territories included in the Portuguese "blacklist" (countries and territories listed in Ministerial Order (*Portaria*) no. 150/2004, of 13 February 2004, amended by Ministerial Order (*Portaria*) no. 292/2011, 8 November 2011), with the exception of central banks and governmental agencies located in those blacklisted jurisdictions; and (iii) where a Noteholder is a legal entity, not more than 20 per cent. of its share capital is held, whether directly or indirectly, by Portuguese residents.

For purposes of the exemption granted under Decree-Law 193/2005, the Portuguese Government has recognised both Euroclear Bank S.A./N.V. (**Euroclear**) and Clearstream Banking, société anonyme (**Clearstream**) as entities managing an international clearing system.

1. Domestic cleared notes – held through a direct or indirect registered entity

Where non-resident Noteholders hold Securities through an account registered for the purposes of Decree Law 193/2005 as an exempt account, the exemption from Portuguese income tax available pursuant to Decree Law 193/2005 may be applied "upfront". To qualify for such "upfront" exemption, such non-resident holders must provide evidence of this non-resident status, to the direct registering entity (entity affiliated on the centralized system where the securities are integrated) prior to the payment date, as follows:

- (i) if the Noteholder is a central bank, public institution, international body, credit or financial institution, a pension fund or an insurance company, with its head office in any OECD country or in a country with which the Republic of Portugal has entered into a double tax treaty, the Noteholder will be required to prove its non-resident status by providing: (a) its tax identification; or (b) a certificate issued by the entity responsible for its supervision or registration, confirming the legal existence of the Noteholder and its head office; or (c) if the Noteholder is a central bank, a public law entity taking part in the public administration (either central, regional or peripheral, indirect or autonomous of the relevant country), or an international body, a declaration of tax residence issued by the Noteholder itself, duly signed and authenticated; or (d) proof of non-residence pursuant to the terms of paragraph (iii) below;
- (ii) if the Noteholder is an investment fund or other collective investment scheme domiciled in any OECD country or in a country with which the Republic of Portugal has entered into a double tax treaty, it shall make proof of its non-resident status by providing any of the following documents: (a) a declaration issued by the entity responsible for its supervision or registration or by the relevant tax authority, confirming its legal existence, domicile and law of incorporation; or (b) proof of non-residence pursuant to the terms of paragraph (iii) below;
- (iii) other investors will be required to make proof of their non-resident status by way of: (a) a certificate of residence or equivalent document issued by the relevant tax authorities; (b) a document issued by the relevant Portuguese Consulate certifying residence abroad; or (c) a document specifically issued by an official entity which forms part of the public administration (either central, regional or peripheral, indirect or autonomous) of the relevant country. The Noteholder must provide an original or a certified copy of such documents and, as a rule, if such documents do not refer to a specific year and do not expire, they must have been issued within the three years prior to the relevant payment or maturity dates or, if issued after the relevant payment or maturity dates, within the following three months.

2. Internationally cleared notes – held through an entity managing an international clearing system

If the Notes are registered in an account with Euroclear or Clearstream and the management entity of such international clearing system undertakes not to provide registration services in respect of the Notes to (x) Portuguese tax residents that do not benefit from either an exemption or waiver of Portuguese withholding tax, and (y) non-resident entities for tax purposes, which do not benefit from the above Portuguese income tax exemption, the evidence required to benefit from the exemption must be provided prior to the payment date, as follows:

- (i) Through the presentation of a certificate, on a yearly basis, with the name of each beneficial owner, address, tax payer number (if applicable), the identity of the

Securities, the quantity held and also the reference to the legislation supporting the exemption or the waiver of Portuguese withholding tax. The wording and contents of the form of certificate for exemption from Portuguese withholding tax on income from debt securities is available to download at www.portaldasfinancas.gov.pt; or

- (ii) alternatively, through a yearly declaration that states that the beneficial owners are exempt or not subject to withholding tax, accompanied by a disclosure list, on each coupon payment date, of each beneficial owner's identification, with the name, address and taxpayer number (if applicable) of each beneficial owner, the identity of the securities, the quantity held and also the reference to the legislation supporting the exemption or the waiver of Portuguese withholding tax. The wording and contents of the form of statement for exemption from Portuguese withholding tax on income from debt securities, is available to download at www.portaldasfinancas.gov.pt.

The two documents referred to in (i) or (ii) above shall be provided by the participants (i.e. the entities that operate in the international clearing system) to the direct registering entities (entity affiliated on the centralized system where the securities are integrated), through the international clearing system managing entity, and must take into account the total accounts under their management relating to each Noteholder that is tax exempt or benefits from the waiver of Portuguese withholding tax.

The international clearing system managing entity shall inform the direct registering entity (entity affiliated on the centralized system where the securities are integrated) of the income paid to each participant for each security payment.

If the conditions for the exemption to apply are met but, due to inaccurate or insufficient information, tax was withheld, a special refund procedure is available under the special regime approved by Decree-law no. 193/2005. The refund claim is to be submitted to the direct or indirect registering entity (entity that does not perform the role of direct registering entity but is a client of the latter and provides custody, register and portfolio management, or similar services) of the Notes within 90 days from the date the withholding took place. A special tax form for these purposes is available to download at www.portaldasfinancas.gov.pt.

The refund of withholding tax in other circumstances, or after the 90 day period set out above, is to be claimed from the Portuguese tax authorities under the general procedures and within the general deadlines. The absence of evidence of non-residence in respect of any non-resident entity that benefits from the above mentioned tax exemption regime shall result in the loss of the tax exemption and consequent submission to the above applicable Portuguese general tax provisions.

Implementation of the EU Savings Directive in Portugal

Portugal has implemented EC Council Directive 2003/48/EC on taxation of savings income into Portuguese law through Decree-Law no. 62/2005, of 11 March 2005, as amended by Law no. 39-A/2005, of 29 July 2005.

8. EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (the "**EU Savings Directive**"), Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including

Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

9. Switzerland

The following is a summary only of the Issuer's understanding of current law and practice in Switzerland relating to the taxation of Securities issued under the Programme. Because this summary does not address all tax considerations under Swiss law and does not consider the specific tax situation of an investor, prospective investors are recommended to consult their personal tax advisors as to the tax consequences of the purchase, ownership, sale or redemption of the Securities issued under the Programme including, in particular, the effect of tax laws of any other jurisdiction.

The Swiss Federal Tax Administration has issued on 7 February 2007 a Circular Letter No. 15 regarding Certificates and Derivative Financial Instruments subject to Direct Federal Tax, Withholding Tax and Stamp Duty. The Securities issued under Programme will be taxed in accordance with this Circular Letter No. 15. Depending on the qualification of the relevant Securities by the Swiss Tax Authorities the taxation of each Security will be different. Generally speaking, for private investors resident in Switzerland, holding the Securities as private assets, all income which qualifies as investment income like interests and dividends or other compensation payments will be subject to Swiss income tax and all capital gains derived from the Securities will be tax free.

If the Securities are considered as taxable securities in the sense of the Swiss Stamp Tax Law (*Stempelsteuergesetz*) they will be subject to Swiss Securities Transfer Tax (*Umsatzabgabe*), calculated on the purchase price or sales proceeds, respectively, upon purchase or sale of the Securities, whether by Swiss resident or non-Swiss resident holders of the Securities, if the purchase or sale occurs through or with a Swiss bank or other Swiss securities dealer as defined in the Swiss Stamp Tax Law, and no exemption applies.

If the Securities are issued by a foreign issuer, the issuance of the Securities will not be subject to Swiss Securities Issuance Tax (*Emissionsabgabe*) and investment income derived from the Securities will not be subject to Swiss Withholding Tax (*Verrechnungssteuer*).

If the Securities are issued by a Swiss resident issuer (i.e. a Swiss branch of the Issuer), the issuance of the Securities will be subject to Swiss Securities Issuance Tax (*Emissionsabgabe*) and investment income derived from the Securities will be subject to Swiss Withholding Tax (*Verrechnungssteuer*).

Switzerland has introduced a tax retention on interest payments or similar income paid by a Swiss Paying Agent as defined in Articles 1 and 6 of the Agreement between the European Community and the Swiss Confederation providing for measures equivalent to those laid down in Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the "Agreement") to the beneficial owner who is an individual and resident in the EU as of 1 July 2005 unless the interest payments are made on debt-claims issued by debtors who are residents of Switzerland or pertaining to permanent establishments of non-residents located in Switzerland. The tax retention will be withheld at the rate of 15 per cent. during the first three years from the date of application of the Agreement, 20 per cent. for the subsequent three years and 35 per cent. thereafter. The beneficial owner of the interest payments will be entitled to a credit for a refund of the tax retention if certain conditions are met. The Swiss paying agent can be explicitly authorized by the beneficial owner of the interest payments to report interest payments to the Swiss Federal Tax Administration. Such report will then substitute the tax retention.
