1. What is this product?

Туре G

Term

Objectives (Terms that appear in bold in this section are described in more detail in the table(s) below.) German law governed notes

The product has a fixed term and will be due on 7 May 2025.

The product is designed to provide (1) a return in the form of (i) fixed rate interest payments on each **fixed rate payment date** and (ii) variable interest payments calculated by reference to the **reference rate** on each **floating rate payment date** and (2) repayment of the **product notional amount** on the **maturity date**.

Interest: On each interest payment date you will receive an interest payment calculated by multiplying the product notional amount by the applicable interest rate and then applying the day count fraction to adjust this amount to reflect the length of the relevant interest period. The relevant dates and interest rates are shown in the table(s) below.

Interest payment dates	Interest rates
7 May 2021	1.45% per annum
7 May 2022	1.45% per annum
7 May 2023	A per annum rate equal to EUR CMS Rate 1Y, subject to a floor of 1.10% and a cap of 2.00%
7 May 2024	A per annum rate equal to EUR CMS Rate 1Y, subject to a floor of 1.10% and a cap of 2.00%
Maturity date	A per annum rate equal to EUR CMS Rate 1Y, subject to a floor of 1.10% and a cap of 2.00%

Termination on the maturity date: On the maturity date you will receive EUR 100.00.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

When purchasing this product during its lifetime, the purchase price does not include accrued interest on a pro rata basis.

However, you will also be required to pay accrued interest on a pro rata basis if you purchase the product during its lifetime.

Reference rate	EUR CMS Rate 1Y The level of the reference rate for any interest period will be determined by reference to ICE screen page <eursfixa1y=> at 11:00 a.m. (Frankfurt am Main local time) 2 business days prior to the beginning of that interest period</eursfixa1y=>	Maturity date / term	7 May 2025
Underlying market	Interest rates	Interest period	Each period from, and including, an interest payment date (or 7 May 2020, in the case of the initial interest period) to, but excluding, the next interest payment date (or the maturity date , in the case of the final interest period)
Product notional amount	EUR 100	Day count fraction	30/360
Product currency	Euro (EUR)	Fixed rate payment date	Any interest payment date falling on or before 7 May 2022
Issue date	5 May 2020	Floating rate payment date	Any interest payment date falling after 7 May 2022

The issuer may terminate the product with immediate effect in the event of obvious written or mathematical errors in the terms and conditions or if certain extraordinary events provided in the terms and conditions occur. Examples of extraordinary events include (1) material changes and (2) events, in particular due to changes in certain external conditions that hinder the issuer in meeting its obligations in connection with the product or – depending on the terms and conditions of the security – otherwise affect the product and/or the issuer. In case of immediate termination, the return (if any) may be significantly lower than the purchase price, but will reflect the product's market value and, if higher, any minimum redemption (alternatively, in some cases the corresponding compounded amount may be paid out at the product's scheduled maturity). Instead of immediate termination, the issuer may also amend the terms and conditions.

Provided that in the event of any inconsistency and/or conflict between the foregoing paragraph and any applicable law, order, rule or other legal requirement of any governmental or regulatory authority in a territory in which this product is offered, such national requirements shall prevail.

Intended retail investor

The product is intended for private clients who pursue the objective of general capital formation / asset optimization and have a short-term investment horizon. This product is a product for clients who have sufficient knowledge and / or experience to make an informed investment decision. The investor cannot bear any losses on the capital invested and attaches importance to capital protection.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if Deutsche Bank AG, Frankfurt is unable to pay out?

You are exposed to the risk that the issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. In doing so, the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the issuer and suspend rights of the investors. With regard to the basic

ranking of the issuer's obligations in the event of action by the resolution authority, please see www.bafin.de and search for the keyword "Haftungskaskade". A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- You would get back the amount that you invested (0% return).
- EUR 10,000 is invested

	If you exit after 1 month and 3 weeks
Total costs	EUR 0
Cost impact*	0.0%

*This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs		One-off costs upon entry or exit	
	Entry costs	0.0% of the amount you pay when entering this investment. These costs are already included in the price you pay.	EUR 0
	Exit costs	0.0% of your investment amount if you return this product before its settlement date. These costs are already included in the price you receive. The costs indicated assume that normal market conditions apply.	EUR 0

5. How long should I hold it and can I take money out early?

Recommended holding period: 1 month and 3 weeks

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 7 May 2025 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (where the product is listed) or (2) off-exchange. Save as otherwise disclosed in exit costs (see section "4. What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction. However if you sell the product in the secondary market you will incur a bid/offer spread. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.
