**FIRST SUPPLEMENT  
TO THE BASE PROSPECTUS  
DATED 12 JUNE 2012**

“As of 26 June 2012, the ratings assigned by the Rating Agencies to debt securities and money market instruments of Deutsche Bank were as follows:

<b>by S&amp;P:</b>	<b>long-term rating:</b>	<b>A+</b>
	<b>short-term rating:</b>	<b>A-1</b>
	<b>outlook:</b>	<b>Negative</b>

S&P defines:

A: An obligation rated "A" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

Long-term ratings by S&P are divided into several categories ranging from "AAA", reflecting the strongest creditworthiness, over categories "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C" to category "D", reflecting that an obligation is in payment default. The ratings from "AA" to "CCC" may be modified by the addition of a plus ("+") or minus ("-") sign to show relative standing within the major rating categories.

A-1: A short-term obligation rated "A-1" is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign ("+"). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

Short-term ratings by S&P are divided into several categories ranging from "A-1", reflecting the strongest creditworthiness, over categories "A-2", "A-3", "B", "C" to category "D" reflecting that an obligation is in payment default.

<b>by Moody's:</b>	<b>long-term rating:</b>	<b>A2</b>
	<b>short-term rating:</b>	<b>P-1</b>
	<b>outlook:</b>	<b>stable</b>

Moody's defines:

A2: Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

Moody's long-term obligation ratings are divided into several categories ranging from "Aaa", reflecting the highest quality with minimal credit risk, over categories "Aa", "A", "Baa", "Ba", "B", "Caa", "Ca" to category "C", reflecting the lowest rated class of bonds which are typically in default with little prospect for recovery of principal or interest. Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from "Aa" through "Caa". The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

P-1: Issuers rated Prime-1 have a superior ability to repay short-term debt obligations.

Moody's short-term ratings are divided into several categories ranging from "P-1", reflecting a superior ability of an Issuer to repay short-term debt obligations, over

TO THE BASE PROSPECTUS

categories "P-2" and "P-3" to category "NP", reflecting that an Issuer does not fall within any of the Prime rating categories.

<b>by Fitch:</b>	<b>long-term rating:</b>	<b>A+</b>
	<b>short-term rating:</b>	<b>F1+</b>
	<b>outlook:</b>	<b>stable</b>

Fitch defines:

A+: A rating of "A" denotes expectations of low default risk. It indicates that the capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

Fitch's long-term ratings are divided into several major categories ranging from "AAA", reflecting the highest credit quality, over categories "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C" to category "DDD", "DD", "D", reflecting that an obligor has defaulted on some or all of its obligations. A plus "+" or minus "-" sign may be appended to a rating to denote the relative status within major rating categories. Such suffixes are not added to the "AAA" category or to categories below "CCC".

F1+: A rating of "F1" indicates the strongest capacity for timely payment of financial commitments. It may have an added plus "+" sign to denote any exceptionally strong credit feature.

Fitch's short-term ratings are divided into several categories ranging from "F1", reflecting the highest credit quality, over categories "F2", "F3", "B", "C" to category "D" which denotes an actual or imminent payment default. “
