| Competent authority of the PRIIP manufacturer | German Federal Financial Supervisory Authority (BaFin)               |
| Date of production                            | 21 March 2024  |

You are about to purchase a product that is not simple and may be difficult to understand.

## 1. What is this product?

|   |   |
|---|---|
| Type  | English law governed warrants   |
| Term  | The product has a fixed term and will be due on 21 May 2030.  |
| Objectives<br>(Terms that appear in bold in this section are described in more detail in the table(s) below.) | <p>The product is designed to provide a return in the form of conditional coupon payments on each <b>coupon payment date</b> that will depend on the performance of the <b>underlying</b>.</p> <p><b>Coupon:</b> You receive on each coupon payment date a coupon payment, if the calculated coupon amount on a coupon payment date is not SEK 0.00. In this case, no coupon payment takes place. On each <b>coupon payment date</b> you will receive:</p> <ol style="list-style-type: none"><li>for each <b>coupon payment date</b> up to but excluding the <b>last coupon payment date</b> (i) SEK 100,000.00<sup>[1]</sup> (i.e. 100.00%<sup>[1]</sup> of the <b>product notional amount</b>) multiplied by (ii) (A) the highest <b>lock-in level</b> observed on a <b>coupon lock-in event</b> during the relevant <b>coupon lock-in observation period</b> minus (B) the highest <b>lock-in level</b> observed on a <b>coupon lock-in event</b> during the previous <b>coupon lock-in observation period</b> (or the <b>initial reference level</b> if not applicable) divided by (iii) the <b>initial reference level</b>;</li><li>for the <b>last coupon payment date</b> (i) SEK 100,000.00<sup>[1]</sup> (i.e. 100.00%<sup>[1]</sup> of the <b>product notional amount</b>) multiplied by (ii) (A) the <b>reference level</b> on the <b>final valuation date</b> minus (B) the highest <b>lock-in level</b> observed on a <b>coupon lock-in event</b> during the previous <b>coupon lock-in observation period</b> divided by (iii) the <b>initial reference level</b>. <u>However, if this cash payment is less than SEK 0.00, you will receive SEK 0.00.</u></li></ol> |

<sup>[1]</sup> This is an indicative value. The actual value will be subject to a minimum of 80.00% of the **product notional amount**. The actual value will be determined by us on the **initial valuation date**, taking into account the market conditions on such date.

Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

When purchasing this product during its lifetime, the purchase price may include accrued coupon on a pro rata basis.

|                         |  |                                    |  |
|-------------------------|--|------------------------------------|--|
| Underlying              | DB Carnegie Corporate Bond VAL Strategy Index          | Lock-in levels                     | The <b>lock-in levels</b> will be set in increments of 5.00% of the <b>initial reference level</b> , starting at 105.00% of the <b>initial reference level</b>   |
| Underlying market       | Equity   | Coupon lock-in observation periods | Each period from, but excluding, the <b>initial valuation date</b> to, but excluding, the date on which a <b>coupon lock-in event</b> occurs (or the <b>final valuation date</b> , in the case of the final <b>coupon lock-in observation period</b> ) |
| Product notional amount | SEK 100,000  | Coupon lock-in event               | A coupon lock-in event occurs if the level of the <b>underlying</b> has been at or above a <b>lock-in level</b> during the applicable <b>coupon lock-in observation period</b> that is higher than the lock-in level(s) previously locked (if any)     |
| Issue price             | SEK 7,500  | Reference level                    | The closing level of the <b>underlying</b> as per the <b>reference source</b>  |
| Product currency        | Swedish Krona (SEK)                                    | Initial valuation date             | 3 May 2024   |
| Underlying currency     | Swedish Krona (SEK)                                    | Final valuation date               | 3 May 2030   |
| Subscription period     | 21 March 2024 (inclusive) to 19 April 2024 (inclusive) | Coupon payment date                | 10 days following a <b>coupon lock-in event</b> .  |

**Issue date** 16 May 2024 **Last coupon payment date** 21 May 2030

|                                |   |                                      |            |
|--------------------------------|---|--------------------------------------|------------|
| <b>Initial reference level</b> | The reference level on the initial valuation date | <b>Final coupon observation date</b> | 3 May 2030 |
|--------------------------------|---|--------------------------------------|------------|

The issuer may terminate the product with immediate effect in the event of obvious written or mathematical errors in the terms and conditions or if certain extraordinary events provided in the terms and conditions occur. Examples of extraordinary events include (1) material changes, particularly in connection with the **underlying**, including where an index ceases to be calculated, and (2) events, in particular due to changes in certain external conditions that hinder the issuer in meeting its obligations in connection with the product or – depending on the terms and conditions of the security – otherwise affect the product and/or the issuer. In case of immediate termination, the return (if any) may be significantly lower than the purchase price, but will reflect the product's market value and, if higher, any minimum redemption (alternatively, in some cases the corresponding compounded amount may be paid out at the product's scheduled maturity). Instead of immediate termination, the issuer may also amend the terms and conditions.

Provided that in the event of any inconsistency and/or conflict between the foregoing paragraph and any applicable law, order, rule or other legal requirement of any governmental or regulatory authority in a territory in which this product is offered, such national requirements shall prevail.

**Intended retail investor**

The product is intended for private clients who pursue a disproportionate participation in price changes or hedging and have a long-term investment horizon. This product is a product for clients with advanced knowledge and / or experience with financial products. The investor can bear losses up to the total loss of the capital invested and attaches no importance to capital protection.

## 2. What are the risks and what could I get in return?

**Risk indicator**

Lower risk

Higher risk

The risk indicator assumes you keep the product until 21 May 2030. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future performance at a very high level, and poor market conditions are very unlikely to impact our capacity to pay you.

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed or interest you may be paid under the investment.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

**Performance scenarios**

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

|                                    |   |                                 |   |
|------------------------------------|---|---------------------------------|---|
| <b>Recommended holding period:</b> | 6 years   |                                 |   |
| <b>Example investment:</b>         | SEK 100,000   |                                 |   |
| <b>Scenarios</b>                   |   | <i>If you exit after 1 year</i> | <i>If you exit after 6 years<br/>(Recommended holding period)</i> |
| <b>Minimum</b>                     | There is no minimum guaranteed return. You could lose some or all of your investment. |                                 |   |
| <b>Stress</b>                      | <b>What you might get back after costs</b>  | SEK 80,014                      | SEK 47,536  |
|                                    | Average return each year  | -20.0%                          | -11.6%  |
| <b>Unfavourable</b>                | <b>What you might get back after costs</b>  | SEK 145,689                     | SEK 133,333   |
|                                    | Average return each year  | 45.7%                           | 4.9%  |
| <b>Moderate</b>                    | <b>What you might get back after costs</b>  | SEK 189,978                     | SEK 228,417   |
|                                    | Average return each year  | 90.0%                           | 14.7%   |
| <b>Favourable</b>                  | <b>What you might get back after costs</b>  | SEK 227,874                     | SEK 333,333   |
|                                    | Average return each year  | 127.9%                          | 22.2%   |

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the reference asset's past performance over a period of up to 5 years. The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

### 3. What happens if Deutsche Bank AG, Frankfurt is unable to pay out?

You are exposed to the risk that the issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. In doing so, the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the issuer and suspend rights of the investors. With regard to the basic ranking of the issuer's obligations in the event of action by the resolution authority, please see [www.bafin.de](http://www.bafin.de) and search for the keyword "Haftungskaskade". A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

### 4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- SEK 100,000 is invested

|                            | <i>If you exit after 1 year</i> | <i>If you exit after 6 years</i> |
|----------------------------|---------------------------------|----------------------------------|
| <b>Total costs</b>         | SEK 26,667                      | SEK 13,334                       |
| <b>Annual cost impact*</b> | 30.8%                           | 2.8% each year                   |

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 17.5% before costs and 14.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

#### Composition of costs

|                    | <b>One-off costs upon entry or exit</b>   | <b>If you exit after 1 year</b> |
|--------------------|---|---------------------------------|
| <b>Entry costs</b> | 13.4% of the amount you pay when entering this investment. These costs are already included in the price you pay.   | SEK 13,334                      |
| <b>Exit costs</b>  | 13.4% of your investment amount if you return this product before its settlement date. These costs are already included in the price you receive. The costs indicated assume that normal market conditions apply. | SEK 13,334                      |

### 5. How long should I hold it and can I take money out early?

#### Recommended holding period: 6 years

It is not possible to make an individual recommendation to a holding period. The product reacts due to its leverage to smallest price movements of the underlying leading to losses or profits within unpredictable time periods. Any individual recommendation regarding the holding period would be misleading information for a speculative investor. For investors purchasing the product for hedging purposes the holding period depends on the hedging horizon of the individual investor.

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (where the product is listed) or (2) off-exchange. Save as otherwise disclosed in exit costs (see section "4. What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction. However if you sell the product in the secondary market you will incur a bid/offer spread. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

|                               |  |                                  |            |
|-------------------------------|--|----------------------------------|------------|
| <b>Exchange listing</b>       | Nordic Growth Market (Nordic Derivatives Exchange) | <b>Last exchange trading day</b> | 2 May 2030 |
| <b>Smallest tradable unit</b> | 1 unit   | <b>Price quotation</b>           | Units      |

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

### 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: Mainzer Landstrasse 11-17, 60329 Frankfurt am Main, Germany, by email to: [x-markets.team@db.com](mailto:x-markets.team@db.com) or at the following website: [www.xmarkets.db.com](http://www.xmarkets.db.com).

### 7. Other relevant information

Any additional documentation in relation to the product and in particular the prospectus, any supplements thereto and the final terms are published on the manufacturer's website ([www.xmarkets.db.com/DocumentSearch](http://www.xmarkets.db.com/DocumentSearch); after entering of the respective ISIN or WKN), all in accordance with legal requirements. In order to obtain more detailed information - and in particular details of the structure and risks associated with an investment in the product - you should read these documents. These documents are also available free of charge from Deutsche Bank AG, Mainzer Landstrasse 11-17, 60329 Frankfurt am Main, Germany, in accordance with legal requirements.
