

# Key Information Document

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

Product name	Protected Certificate Linked to an Index
Product identifiers	ISIN: DE000DM34JF3   WKN: DM34JF
PRIIP manufacturer	Deutsche Bank AG. The product issuer is Deutsche Bank AG, Frankfurt.
Website	www.db.com/contact
Telephone number	Call +49-69-910-00 for more information.
Competent authority of the PRIIP manufacturer	Federal Financial Supervisory Authority (BaFin)
Date of production	8 October 2024

You are about to purchase a product that is not simple and may be difficult to understand.

## 1. What is this product?

**Type** English law governed certificates

**Term** The product has a fixed term and will be due on 6 December 2030.

### Objectives

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

**As of the date and time of production of this Key Information Document, values in this document have not yet been finalised and, as such, the associated performance scenarios are subject to change.**

The product is designed to provide a return in the form of (1) conditional coupon payments and (2) a cash payment on the **maturity date**.

**Coupon:** You receive on each coupon payment date a coupon payment, if the calculated coupon amount on a coupon payment date is not SEK 0.00. In this case, no coupon payment takes place. On each **coupon payment date** you will receive:

- for each **coupon payment date** up to but excluding the **last coupon payment date** (i) SEK 100,000.00<sup>[1]</sup> multiplied by (ii) (A) the highest **lock-in level** observed on a **coupon lock-in event** during the relevant **coupon lock-in observation period** minus (B) the highest **lock-in level** observed on a **coupon lock-in event** during the previous **coupon lock-in observation period** (or the **initial reference level** if not applicable) divided by (iii) the **initial reference level**;
- for the **last coupon payment date** (i) SEK 100,000.00<sup>[1]</sup> multiplied by (ii) (A) the **reference level** on the **final valuation date** minus (B) the highest **lock-in level** observed on a **coupon lock-in event** during the previous **coupon lock-in observation period** (or the **initial reference level** if not applicable) divided by (iii) the **initial reference level**. However, if this cash payment is less than SEK 0.00, you will receive SEK 0.00.

**Termination on the maturity date:** On the **maturity date** you will receive SEK 5,000.00.

<sup>[1]</sup> This is an indicative value. The actual value will be subject to a minimum of SEK 80000. The actual value will be determined by us on the **initial valuation date**, taking into account the market conditions on such date.

Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

When purchasing this product during its lifetime, the purchase price may include accrued coupon on a pro rata basis.

<b>Underlying</b>	Deutsche Bank Avkastningsfond 2% Index	<b>Coupon lock-in event</b>	A coupon lock-in event occurs if the level of the <b>underlying</b> has been at or above a <b>lock-in level</b> during the applicable <b>coupon lock-in observation period</b> that is higher than the lock-in level(s) previously locked (if any)
<b>Underlying market</b>	Equity	<b>Reference level</b>	The closing level of the <b>underlying</b> as per the <b>reference source</b>
<b>Issue price</b>	SEK 11,450	<b>Final reference level</b>	The <b>reference level</b> on the <b>final valuation date</b>
<b>Product currency</b>	Swedish Krona (SEK)	<b>Initial valuation date</b>	22 November 2024
<b>Underlying currency</b>	Swedish Krona (SEK)	<b>Final valuation date</b>	22 November 2030
<b>Subscription period</b>	8 October 2024 (inclusive) to 13 November 2024 (inclusive)	<b>Maturity date / term</b>	6 December 2030
<b>Issue date</b>	5 December 2024	<b>Coupon payment date</b>	10 days following a <b>coupon lock-in event</b> .
<b>Initial reference level</b>	The <b>reference level</b> on the <b>initial valuation date</b>	<b>Last coupon payment date</b>	6 December 2030
<b>Lock-in levels</b>	The <b>lock-in levels</b> will be set in increments of 5.00% of the <b>initial reference level</b> , starting at 105.00% of the <b>initial reference level</b>	<b>Final coupon observation date</b>	22 November 2030
<b>Coupon lock-in observation periods</b>	Each period from, but excluding, the <b>initial valuation date</b> to, but excluding, the date on which a <b>coupon lock-in event</b> occurs (or the <b>final</b>		

valuation date, in the case of the final coupon lock-in observation period)

The issuer may terminate the product with immediate effect in the event of obvious written or mathematical errors in the terms and conditions or if certain extraordinary events provided in the terms and conditions occur. Examples of extraordinary events include (1) material changes, particularly in connection with the **underlying**, including where an index ceases to be calculated, and (2) events, in particular due to changes in certain external conditions that hinder the issuer in meeting its obligations in connection with the product or – depending on the terms and conditions of the security – otherwise affect the product and/or the issuer. In case of immediate termination, the return (if any) may be significantly lower than the purchase price, but will reflect the product's market value and, if higher, any minimum redemption (alternatively, in some cases the corresponding compounded amount may be paid out at the product's scheduled maturity). Instead of immediate termination, the issuer may also amend the terms and conditions.

Provided that in the event of any inconsistency and/or conflict between the foregoing paragraph and any applicable law, order, rule or other legal requirement of any governmental or regulatory authority in a territory in which this product is offered, such national requirements shall prevail.

The product is intended for private clients who pursue the objective of general capital formation / asset optimization and have a long-term investment horizon. This product is a product for clients who have sufficient knowledge and / or experience to make an informed investment decision. The investor can bear losses up to the total loss of the capital invested and attaches no importance to capital protection.

Intended retail investor

## 2. What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product until 6 December 2030. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed or interest you may be paid under the investment.

You are entitled to receive back at least 5.00% of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash in before maturity or in case of immediate termination by the issuer.

If we are not able to pay you what is owed, you could lose your entire investment.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

<i>Recommended holding period:</i>		6 years	
<i>Example investment:</i>		SEK 100,000	
<i>Scenarios</i>		<i>If you exit after 1 year</i>	<i>If you exit after 6 years (Recommended holding period)</i>
Minimum	SEK 43,668. The return is only guaranteed if you hold the product to maturity. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b> Average return each year	SEK 83,733 -16.3%	SEK 43,668 -12.9%
<b>Unfavourable</b>	<b>What you might get back after costs</b> Average return each year	SEK 122,554 22.6%	SEK 104,905 0.8%
<b>Moderate</b>	<b>What you might get back after costs</b> Average return each year	SEK 150,506 50.5%	SEK 175,130 9.8%
<b>Favourable</b>	<b>What you might get back after costs</b> Average return each year	SEK 178,875 78.9%	SEK 251,405 16.6%

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the past performance over up to 5 years of a selected reference asset with movements similar to the underlying asset, as there is not enough available data for the latter. The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## 3. What happens if Deutsche Bank AG, Frankfurt is unable to pay out?

You are exposed to the risk that the issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. In doing so, the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the issuer and suspend rights of the investors. With regard to the basic ranking of the issuer's obligations

in the event of action by the resolution authority, please see [www.bafin.de](http://www.bafin.de) and search for the keyword "Haftungskaskade". A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

#### 4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

##### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- SEK 100,000 is invested

	<i>If you exit after 1 year</i>	<i>If you exit after 6 years</i>
<b>Total costs</b>	SEK 17,468	SEK 8,734
<b>Annual cost impact*</b>	19.2%	1.7% each year

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.5% before costs and 9.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

##### Composition of costs

	<b>One-off costs upon entry or exit</b>	<b>If you exit after 1 year</b>
<b>Entry costs</b>	8.8% of the amount you pay when entering this investment. These costs are already included in the price you pay.	SEK 8,734
<b>Exit costs</b>	8.8% of your investment amount if you return this product before its settlement date. These costs are already included in the price you receive. The costs indicated assume that normal market conditions apply.	SEK 8,734

#### 5. How long should I hold it and can I take money out early?

##### Recommended holding period: 6 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 6 December 2030 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (where the product is listed) or (2) off-exchange. Save as otherwise disclosed in exit costs (see section "4. What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction. However if you sell the product in the secondary market you will incur a bid/offer spread. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

<b>Exchange listing</b>	Nordic Growth Market (Nordic Derivatives Exchange)	<b>Last exchange trading day</b>	21 November 2030
<b>Smallest tradable unit</b>	1 unit	<b>Price quotation</b>	Units

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

#### 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: Mainzer Landstrasse 11-17, 60329 Frankfurt am Main, Germany, by email to: [x-markets.team@db.com](mailto:x-markets.team@db.com) or at the following website: [www.xmarkets.db.com](http://www.xmarkets.db.com).

#### 7. Other relevant information

Any additional documentation in relation to the product and in particular the prospectus, any supplements thereto and the final terms are published on the manufacturer's website ([www.xmarkets.db.com/DocumentSearch](http://www.xmarkets.db.com/DocumentSearch) ; after entering of the respective ISIN or WKN), all in accordance with legal requirements. In order to obtain more detailed information - and in particular details of the structure and risks associated with an investment in the product - you should read these documents. These documents are also available free of charge from Deutsche Bank AG, Mainzer Landstrasse 11-17, 60329 Frankfurt am Main, Germany, in accordance with legal requirements.
